

FUNCTIONAL DESIGN

HOME / OFFICE / RESTAURANT / HOTEL

Ekaterina
Borovkova

ADJ's story started in 2016. After having worked in product design for many years, the founder Ekaterina Borovkova decided to create her own line of accessories for daily life.

Her first collection of home accessories was inspired by her family. That is why a triangle was used for the logo as a symbol of sustainability and stability with initials of her children inside: Aleksandr, Diego, Julia.

Ekaterina designs all sketches, drawings, and manufacturing plans – this is what makes ADJ unique and attractive. Each item has its own story and heroes that predetermine its color, shape, and intended use.

One of the Company's basic values is socially responsible approach to accessory design in line with modern environmental standards in manufacturing that guarantee high quality and durability.

Manufacturing of semi-finished products in Germany ensures stable and high quality of goods, while orders are assembled and packed in Russia for the CIS and in Italy for other countries to reduce delivery times.

ADJ today is a wide range of fully customizable premium accessories and interior design items for home, office, private yachts and jets, hotels and restaurants.

FUNCTIONAL DESIGN

Innovative material

The traditional ADJ room decoration, rethought and embodied in modern forms, will breathe life and comfort into any interior. All products use ADJ multi-layer leather with double-sided dyeing and special anti-vandal treatment providing increased wear resistance to abrasion and scratches, easy to clean, does not lose color and shape. Designed even for outdoor use.

ADJ® multilayer leather is an innovative category of leather material that has revolutionized the industry.
Confirmed by EMAS certificate [EMAS DE-104-00122](#).

This type of leather requires high-tech and high-precision production, which nearly doubles its price comparing to traditional genuine leather. The material is obtained by treating leather with pressure using 100% natural latex as a binder. The properties of the binder material give leather elasticity and strength, and its subsequent processing with natural fats and dyes provides the material with excellent performance features.

Leather is produced at the oldest German factory that strictly complies with all the regulatory requirements, health and environmental standards, both for raw materials and for end products. Raw materials and products are constantly monitored by specialists in independent laboratories in Germany.

ACCESSORIES FOR HOME, OFFICE,
RESTAURANT OR HOTEL

All ADJ products are based on practicality. We strive to create thoughtful and convenient products for the daily life of the family.

ADJ offers an elegant and practical line of accessories for table setting and home storage. A distinctive feature of which is the use of the material with unique properties.

ADJ IS:

- › Practical design for everyday life
- › The best value for money
- › Reliability and durability of all products
- › Top quality natural materials

True German quality to ensure the uniformity of products in thickness and their physico-mechanical properties.

Production of modified granulated leather and wood paste is environmentally friendly and uses organic materials only. It helps to preserve ecosystems and the lives of animals and trees.

Each side of a product has a different colour scheme which broadens the decorative potential of the piece and proves it versatile in any decor.

It has high wear resistance to abrasion and scratches, which is extremely important for daily use of products in table setting.

Water and dirt-repellent properties make it easy to clean the surface and to get rid of stains from oil, ketchup, sauces and other aggressive products.

On both sides the material is coated with a heat-active substance that protects leather from swelling and loss of color when used in the sun and cold. Products are even intended for outdoor use in Russia.

SAUCE HOLDER

protects from dirty stains from greasy and caustic sauces

The basic table setting certainly includes spices and sauces, the main culprits of dirty stains. To avoid damaging the tablecloth and the table surface, use an elegant holder for sauces and spices. The surface of the leather has a special treatment that protects the item from greasy and caustic food products. It is easy to clean and does not deteriorate over time.

ADJ designs and manufactures hangers in Italy for the most demanding customers. At first glance, an insignificant wardrobe accessory designed for organisation and storage, in fact, is an important guarantee of the safety of expensive clothes.

NATURALE collection has a natural charm and warmth of natural wood. It is made of wood paste by hot extrusion. This technology allows to get a whole product of any thickness with a smooth surface and to avoid the problems inherent in wooden hangers, in which eventually wood peels and cracks.

All hangers have an anatomical shape that repeats the lines of the body and eliminates the possibility of creases on clothes due to thought out elements.

HANGERS

Velour overlays
reliably fix clothes in delicate fabrics.

Nickel plated hook
with a safe edge will not damage the delicate fabric and will not lose its color over time.

Trousers bar - sheathed with velour fabric, to protect against slipping and jamming of ironed trousers.

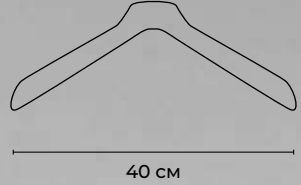

Clips for skirts - equipped with silicone pads, do not leave marks on delicate fabrics and smoothly move to adjust to the size of clothes.

Natural colors of cashmere create a warm and cozy atmosphere

Hardware design

gold copper chrome

graphite bronze

ADJ accessories with metal hardware PVD-treated (vacuum deposition) creating a protective layer on the surface, which is hard as sapphire. Such coating protects accessories from rust and wear making them look elegant and classy.

Hangers: Hardware \ Wood paste

nickel wenge Ivory

Wenge and ivory highlight the charm and warmth of natural wood.

ADJ PRODUCTS CARE

Products made of modified granulated ADJ leather are resistant to friction, fading, bubbling, and temperature, however, like any other natural material, they require proper and prompt care following the manufacturer's recommendations:

- ! Table setting items require degreasing to remove oil, wine, sauce, and tea stains within one day, while coffee, vinegar, and acid stains must be removed as soon as possible. After degreasing, rinse items with water until clean and wipe dry.
- ! Do not wash in the dishwasher or leave on wet surfaces. In case of long exposure to water, leave items in a dry room for a day and press them with something heavy and flat to prevent surface deformation.
- ! Do not put near hot objects (over 90°). Do not put hot dishes on the items.
- ! Do not put heavy objects on top of the baskets and boxes as it can lead to deformation.

Use items only as intended. Do not expose to extreme conditions. Follow the care instructions and then items will last for years.
