VISION

Rewriting E-learning

Driven by a strong desire to lead
in the E-learning field and Digital Innovation,
our goal is to constantly improve.

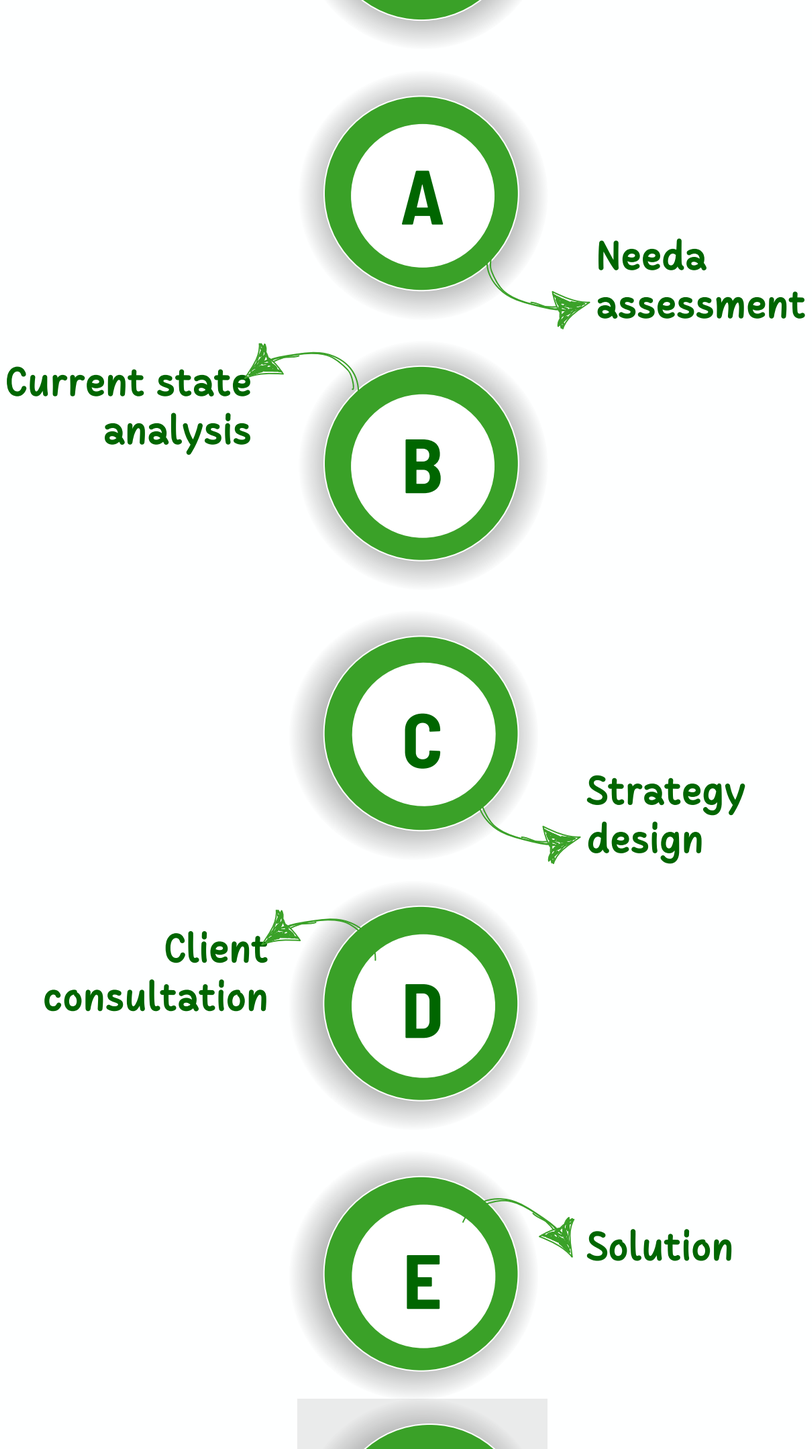
With **our passion** and **expertise**,
we focus on providing customers **with solutions that prioritize**:

OUR APPROACH

From listening to crafting

Every company is unique, with its own needs and characteristics.

That's why we always start by **LISTENING** to our clients, providing them with comprehensive solutions for e-learning and digital innovation.



OUR APPROACH

Our certifications

Our inclination toward continual enhancement extends beyond seeking new tools and services for our clients; we pursue **certified quality**.

Our certifications:

ISO 9001

International standard that specifies requirements for a quality management system (QMS). It helps businesses and organizations be more efficient by providing products and services that meet customer and regulatory requirements.

ISO 27001

International standard for information security. It sets out the specifications for an effective Information Security Management System (ISMS), helping organizations protect their sensitive information through risk management.

CLIENTS

What people say about us

Recognizing the importance of training for professional development, we partnered with FROG for a project that impacted all companies within our Group. Throughout every stage, we received amazing support.

A. NORRITO - *TEA GROUP*

I've been working with FROG for many years now, and from the very beginning, I have sensed the competence of this team – knowledgeable and helpful individuals whom I also consider friends. Working with them brings me peace of mind.

M. CATERINO - *CHIESI FARMACEUTICI*

Thanks to the FROG Team, we quickly built a comprehensive, responsive, and dynamic Learning Management System (LMS). This allowed us to maintain our training activities even during COVID restrictions and has since become a standard reference for all new hires.

F. BRUGGI - *DANA INCORPORATED*

PARTNERSHIP

Who do we collaborate with?

Innovation and expertise are two of the key factors for business success. However, to reach the next level, another element is crucial: **collaboration**.
