Where nature meets science and innovation

For years, we have been dedicated to developing and manufacturing cosmetics, supplements, and hair care products, combining innovation, quality, and sustainability. Our laboratory specializes in formulating professional, pharmaceutical, wellness, and haircare solutions, ensuring safe and effective products.

Our Philosophy

- Guaranteed Quality – Formulations developed to meet the highest industry standards.
- Sustainability – Eco-friendly packaging and carefully selected ingredients.
- Innovation – Advanced technologies for skin and hair care.
- Product traceability: thanks to certified blockchain system

Our Protocols

We manufacture according to strict safety and quality standards, complying with European regulations/our non European partners regulation for cosmetics and dietary supplements. Each formula undergoes rigorous testing to ensure effectiveness and skin compatibility, while being environmentally responsible.

- Certifications: [ISO 9001:2015, ISO 22716]
- Quality Control: Microbiological analysis, formulation stability, dermatological safety tests

Our Services

- Private Label & Contract Manufacturing – Complete product customization for your brand.
- Natural You Branded Line – Ready-to-market products with exclusive formulas.
- Custom Formulations – Tailor-made solutions for professional, retail and pharmaceutical sectors.

BoH-The Future of Personalized Skincare

At Natural You, we believe in the power of technology to enhance beauty and wellness. That's why we are launching our AI-driven beauty app, an innovative tool that analyzes the skin through a selfie, providing personalized recommendations for the most effective skincare and supplement solutions.

This project represents the next evolution in beauty, combining advanced artificial intelligence with our high-performance products to deliver tailored treatments, visible results, and long-term skin improvement.

How it works?

- **AI Skin Analysis** – The app scans your selfie to detect skin concerns (aging, blemishes, hydration levels, dark spots, etc.).
- **Personalized Recommendations** – Based on the analysis, the AI selects the best Natural You products suited to your skin's needs.
- **Before & After Tracking** – Users can track their progress over time, measuring improvements in real-time.
- **Custom Wellness Plan** – The AI suggests a holistic approach, integrating skincare, haircare, and supplements for optimal results.
