A PHILOSOPHY OF WELL-BEING

A woman with long dark hair, wearing a light-colored dress, is seen from behind, walking through a field of tall, golden-brown grass. She is walking towards a series of rolling hills in the distance. The hills are covered in green vegetation and some trees. In the far distance, there are more hills and a small cluster of buildings. The sky is a warm, hazy orange, suggesting sunset or sunrise. The overall mood is peaceful and contemplative.

Believe

We believe

We believe that true wellbeing is not a luxury reserved for special occasions.

It is a ritual.

A moment of balance.

A conscious pause within everyday life.

We believe beauty should never be excessive.

It should feel authentic, effortless and deeply connected to nature.

We believe Italy offers more than extraordinary landscapes.

It offers a unique philosophy of living, where beauty, craftsmanship, culture and nature have always existed in harmony.

Biokosmo was created to bring this philosophy into contemporary skincare.

Every formulation begins with carefully selected Italian botanical ingredients and is developed through modern cosmetic science to create products that are both highly effective and sensorially refined.

Our ambition has never been simply to develop cosmetics.

We are building a contemporary Italian wellness brand.

A brand that transforms everyday self-care into meaningful rituals.

A brand that naturally belongs in premium retail, luxury hospitality and wellness destinations around the world.

Every product.

Every texture.

Every fragrance.

Every detail.

Exists for one reason:

To allow people everywhere to experience the elegance, authenticity and wellbeing of the Italian lifestyle.

This is what we believe.

This is Biokosmo.

BELIEVE

Our roots

Every brand has a place where its story begins. Ours begins in Italy.

A country where nature, craftsmanship and beauty have always existed in harmony.

From the vineyards of Piedmont to the citrus groves of Sicily, every landscape tells a story of biodiversity, authenticity and respect for tradition.

Growing up surrounded by this heritage inspired a simple belief:

The finest skincare should not only care for the skin.

It should reflect the culture, the landscapes and the timeless elegance from which it comes.

This is why every Biokosmo formulation begins with carefully selected botanical ingredients inspired by the richness of the Mediterranean.

Combined with modern cosmetic science and contemporary design, they become products created not only to deliver visible results, but to offer a genuine sense of wellbeing.

Our roots are not simply where we are made.

They are the inspiration behind everything we create.

They remind us who we are.

And they guide where we are going.

They are outdoors, with sunlight filtering through green foliage in the background, creating dappled shadows on their faces and hair. BELIEVE

Designed for Those Who...

Designed for those who choose authenticity over excess.

Designed for those who believe wellbeing begins with everyday rituals.

Designed for those who appreciate contemporary Italian elegance.

Designed for those who seek quality, simplicity and balance.

Designed for those who transform ordinary moments into meaningful experiences.

Designed for those who believe true luxury is feeling well.

Designed for those who seek beauty with purpose.

A letter from the founder

Every brand begins with an idea.
The most meaningful ones begin with a belief.
Biokosmo began with ours.

We have always believed that wellbeing should not be a luxury reserved for special occasions, but a meaningful ritual that enriches everyday life.

Growing up surrounded by Italy's extraordinary landscapes, centuries-old traditions and timeless appreciation for beauty, we learned that true elegance is never excessive.
It is balanced. Authentic. Quietly confident.

This belief became the foundation of Biokosmo.
From the very beginning, our ambition was never simply to create skincare products.
We wanted to build a brand capable of expressing the essence of Italian wellbeing through contemporary botanical rituals.
Every formulation begins with carefully selected Mediterranean botanical ingredients, enhanced by modern cosmetic science and presented through refined, timeless design.

But beyond the products themselves, our greatest ambition has always been to create experiences that people remember.

Moments that encourage us to slow down.
To reconnect with ourselves.

To rediscover the beauty of simple daily rituals.
This philosophy guides every decision we make.

Every product we develop. Every partnership we build.
Every experience we imagine.

Biokosmo is still at the beginning of its journey.

Yet our vision remains unchanged:
To share the elegance, authenticity and wellbeing of the Italian lifestyle with people around the world.

We hope that, within these pages, you will discover not only our products, but the philosophy that inspires everything we create.

We hope this is only the beginning of a journey we will continue together.

Stefano Divià
Founder of Biokosmo

BELIEVE

Our vision

Our ambition reaches beyond creating exceptional skincare.

We envision Biokosmo as a contemporary Italian wellness brand that brings together botanical science, refined design and meaningful self-care experiences.

Inspired by the richness of Italy's landscapes, culture and craftsmanship, we are building a brand that naturally belongs wherever wellbeing is celebrated — from premium beauty retailers and luxury spas to hospitality destinations.

Every new product, every partnership and every innovation follows the same purpose: To share the elegance of Italian botanical wellbeing with people around the world.

We believe the future of beauty is not only about performance.

It is about creating rituals, emotions and experiences that people remember.

That is the future we are building.

That is the future of Biokosmo.

BELIEVE

OUR PHILOSOPHY IN ONE SENTENCE

“We believe that contemporary wellbeing is created when Italian botanical heritage, modern cosmetic science and meaningful daily rituals come together in perfect balance.”

The modern ritual

Modern life moves faster than ever.

We spend our days connected, distracted and constantly surrounded by noise.

Time has become our most valuable luxury.

Moments of stillness have become increasingly rare.

At Biokosmo, we believe wellbeing begins the moment we decide to slow down.

Not for hours. Just for a few meaningful minutes.

A skincare ritual is more than applying a product.

It is a conscious pause.

A gesture of care.

A daily opportunity to reconnect with ourselves.

Every Biokosmo texture, every fragrance and every botanical ingredient is designed to transform an ordinary routine into a meaningful ritual.

Because true beauty is not created in a moment.

It is cultivated every day.

One ritual at a time.

BELIEVE

Why Italy

Italy has never defined beauty by excess. It has always expressed it through balance.

Through craftsmanship. Through timeless design.

Through the quiet confidence of creating something that lasts.

This philosophy has shaped generations of artisans, designers, perfumers and creators whose work continues to inspire the world.

At Biokosmo, Italy is not simply where our products are made.

It is where our values come from.

It inspires the botanical ingredients we select.

It influences the elegance of our formulations.

It guides the simplicity of our design.

And it reminds us that true luxury is never loud.

It is authentic. Refined. Timeless.

Choosing Italy means choosing a different way of creating beauty.

One that values quality over quantity. Meaning over trends.

And wellbeing over perfection.

This is why Italy is at the heart of everything we create.

BELIEVE

The art of balance.

Everything in nature exists through balance.

The seasons. The light. The sea. The wind. The rhythm of life itself.

True wellbeing follows the same principle. It is never created through excess.

It is found where nature meets science. Where tradition inspires innovation.

Where effectiveness coexists with sensorial pleasure.

At Biokosmo, balance guides every decision we make.

The ingredients we select. The textures we create. The fragrances we develop.

The design we choose. Even the experiences we imagine.

Because beauty should never overwhelm.

It should feel effortless. Authentic. Natural. Timeless.

This is the art of balance.

And it is at the heart of Biokosmo.

The hills are covered in green vegetation and some trees. In the far distance, there are more hills and a small cluster of buildings. The sky is a warm, hazy orange, suggesting sunset or sunrise. Create

CREATE

Nature, perfected by science.

Nature has always been our starting point.
Science is how we honour it.

At Biokosmo, we believe the most effective skincare is born from the dialogue between botanical heritage and modern cosmetic research.

Every ingredient is carefully selected for its efficacy, purity and sensorial qualities.

Every formulation is developed to preserve the integrity of nature while delivering visible performance.

Our Mediterranean botanical extracts are combined with advanced cosmetic science to create products that feel as refined as they are effective.

We never choose between nature and innovation.

We believe they belong together.

This balance allows us to create formulations that respect the skin, celebrate natural ingredients and meet the expectations of today's conscious consumer.

Because true innovation is not about replacing nature.

It is about understanding it better.

CREATE

Designed with purpose.

Nothing we create begins with appearance.

Everything begins with intention.

Every ingredient is selected because it has a role to play.

Every formulation is developed to deliver a meaningful benefit.

Every texture is designed to enhance the ritual.

Every fragrance is chosen to create an emotion.

Every packaging detail is created to express elegance through simplicity.

At Biokosmo, design is never decoration. It is a reflection of our philosophy.

We believe that when every element has a purpose, the experience becomes naturally authentic.

Because true luxury is not defined by excess.

It is defined by thoughtful choices.

This is how we create. This is why we create.

The Biokosmo signature

Every memorable brand has a recognizable identity. Not only through its products. But through the values that shape every decision. Biokosmo is defined by five principles that remain constant across every formulation, every collection and every experience we create. They are the foundation of our identity. They are our signature.

COLLECTIONS

“Every collection is inspired by the same philosophy: transforming everyday skincare into meaningful rituals through the harmony of Italian botanical ingredients, contemporary cosmetic science and refined design.”

Introducing the Biokosmo Collection

The art of skincare

Skincare is where every Biokosmo ritual begins.

Each formulation is created to combine botanical ingredients inspired by the Mediterranean with modern cosmetic science, offering visible performance while respecting the skin's natural balance.

Our collections are designed to accompany every stage of the skincare journey, from daily hydration and purification to targeted anti-age treatments and intensive rituals.

Because healthy skin is not achieved through complexity. It is built through consistency, balance and thoughtful care.

The art of bodycare

We believe body care deserves the same attention as facial skincare.

Every texture, every fragrance and every ingredient has been selected to transform simple daily gestures into moments of comfort and wellbeing.

Body care is not an afterthought. It is an essential part of feeling well.

Introducing the Biokosmo Collection

The art of haircare

Healthy hair begins with a healthy scalp.

Our haircare collection combines botanical extracts and contemporary formulations to cleanse, nourish and protect while preserving the hair's natural beauty.

Simple rituals.
Visible results.
Daily wellbeing.

The art of hospitality

True hospitality begins with how people feel.

Biokosmo Hospitality has been created to bring the elegance of Italian botanical wellbeing into premium hotels, boutique properties, spas and wellness destinations.

Every product is designed to elevate the guest experience through refined formulations, timeless design and memorable rituals.

Because every stay should leave more than a memory.
It should leave a feeling.

Hero rituals

The ultimate face symphony

A complete facial ritual designed to restore balance, hydration and radiance through a harmonious sequence of complementary formulations.

The daily essentials

A collection created for everyday wellbeing, combining gentle cleansing, hydration and protection into simple rituals that naturally become part of daily life.

The ritual of renewal

Targeted formulations designed to nourish, regenerate and reveal the skin's natural vitality, transforming advanced skincare into a refined daily experience.

The Biokosmo ecosystem

Biokosmo was never conceived as a collection of products. From the very beginning, it was envisioned as a complete wellbeing experience. Every touchpoint has been designed to express the same philosophy through different moments of everyday life.

A skincare ritual at home.
A moment of relaxation in a premium spa.
A welcoming experience in a boutique hotel.
A discovery in a carefully selected retail environment.

Each experience strengthens the others. Together, they create a coherent world where the brand becomes part of people's lives rather than simply part of their beauty routine.

This integrated vision allows Biokosmo to grow consistently across multiple channels while preserving a single identity.

How it works

A woman with long dark hair, wearing a light-colored dress, is walking away from the camera through a field of tall, golden-brown grass. She is heading towards a series of rolling hills in the distance. The hills are covered in green vegetation and some trees. In the far distance, there are more hills and a small cluster of buildings. The sky is a warm, hazy orange, suggesting sunset or sunrise. The overall mood is peaceful and contemplative.

Grow

A new era of wellbeing

People are redefining what beauty means.
They are moving away from excess and looking for authenticity.
They seek products that are effective, but also meaningful.
They value transparency, craftsmanship and a genuine connection with nature.

Beauty is no longer an isolated category.
It has become part of a broader lifestyle where wellbeing, design, travel, hospitality and personal rituals naturally come together.

Consumers are no longer choosing products alone.
They are choosing brands that reflect the way they want to live.

This cultural shift inspires everything we create.
Biokosmo was born to become part of this new generation of contemporary wellness brands.

Not by following trends.
But by building timeless experiences rooted in Italian botanical culture.

Why we matter

The world does not need another skincare brand.
It needs brands that give people a new way to experience wellbeing.

At Biokosmo, we believe beauty is not defined by how many products people own.
It is defined by the quality of the moments they dedicate to themselves.
We exist to bring together Italian botanical heritage, contemporary cosmetic science
and meaningful daily rituals into one coherent experience.

We believe wellbeing should be accessible without losing its sense of refinement.
We believe luxury should feel authentic rather than excessive.
We believe skincare should never be reduced to a routine.

It should become a moment of presence.
A moment of balance.
A moment of care.

This is why Biokosmo matters. Not because we create products.
But because we help people reconnect with themselves through everyday rituals
inspired by the timeless elegance of Italian wellbeing.

Where we belong

Biokosmo belongs wherever wellbeing is valued as an experience rather than a product.

It belongs in carefully curated retail spaces where every brand tells a story.

It belongs in boutique hotels where every detail contributes to how guests feel.

It belongs in spas where wellbeing is approached with care, expertise and authenticity.

It belongs in homes where everyday rituals become moments of balance.

Our ambition has never been to be everywhere.

It is to be in the right places.

Places where quality is recognised.

Where craftsmanship is appreciated.

Where simplicity is understood as elegance.

Where beauty is experienced with intention.

Because the value of a brand is not measured by how many places it reaches.

It is measured by how naturally it belongs there.
