

ornaghi®

Made in Italy

is the name for innovation
and biomechanics

MADE IN ITALY

in the sector
of DENTAL IMPLANTS

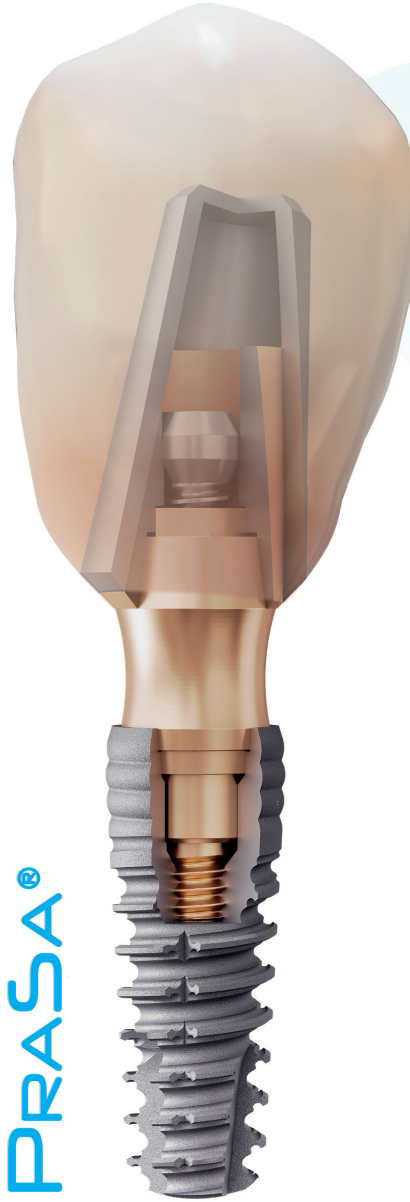

A man with a grey beard and red-rimmed glasses, wearing a white lab coat, is seated at a desk in a clinical or office setting. He is looking at a computer monitor and has his hand to his chin in a thoughtful pose. The monitor displays a CAD software interface with a circular technical drawing of a dental implant. A black keyboard and a mouse are on the desk, along with a blue and white pen. The background shows a clean, modern environment with white cabinetry.

Ornaghi srl is
AN ITALIAN COMPANY
leader in the design
in research and production
of dental implants
and prosthetic components.

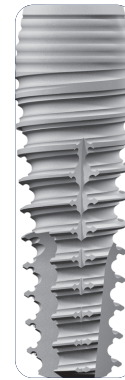

OUR IMPLANT LINES
are the result of years
of research and
