BRAND PROFILE

barbieri

Giovanni Barbieri is one of the most renowned Italian craftsmen and designers in the flooring and wall design field.

With decades of experience starting from the very young age of 14, and with a wide palmares of international awards, Giovanni Barbieri offers authentic pieces of art that include ceramics, terracotta, wood, mosaics and one-of-a-kind 3D creations.

HIVE COLLECTION

Essential but always original geometries are the main trademark of Giovanni Barbieri's design. Hive Collection is just one of the many extraordinary wall patterns created by the artist.

Giovanni Barbieri's mastery unfolds on characteristics of essentiality and simplicity. You can see the effect of depth on the walls given by the tiles, creating an original shaded effect.

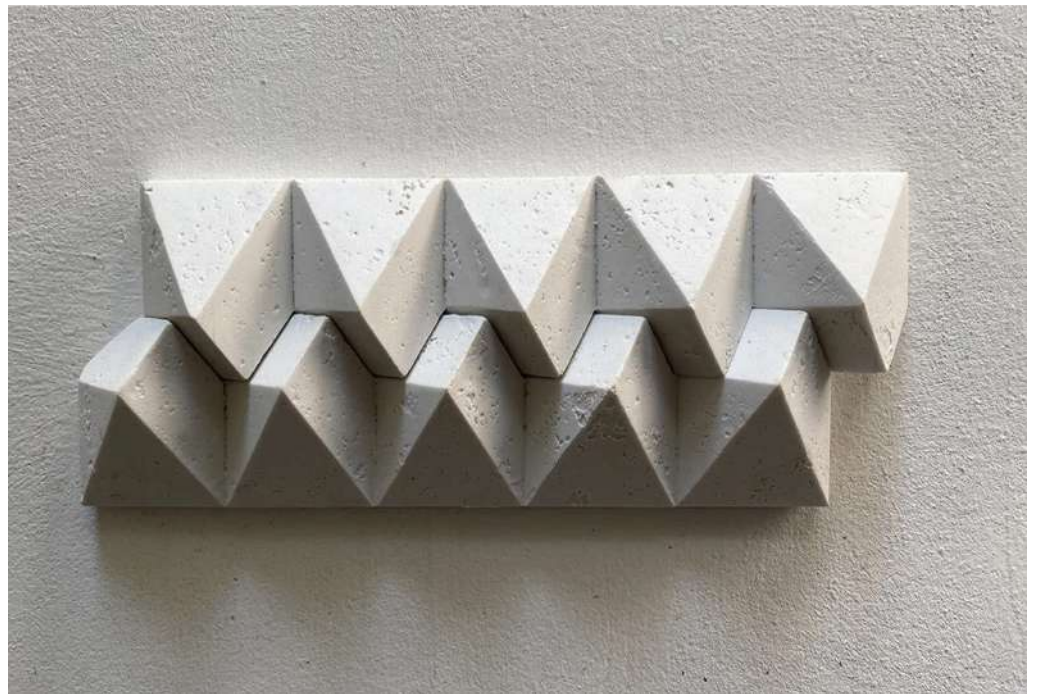

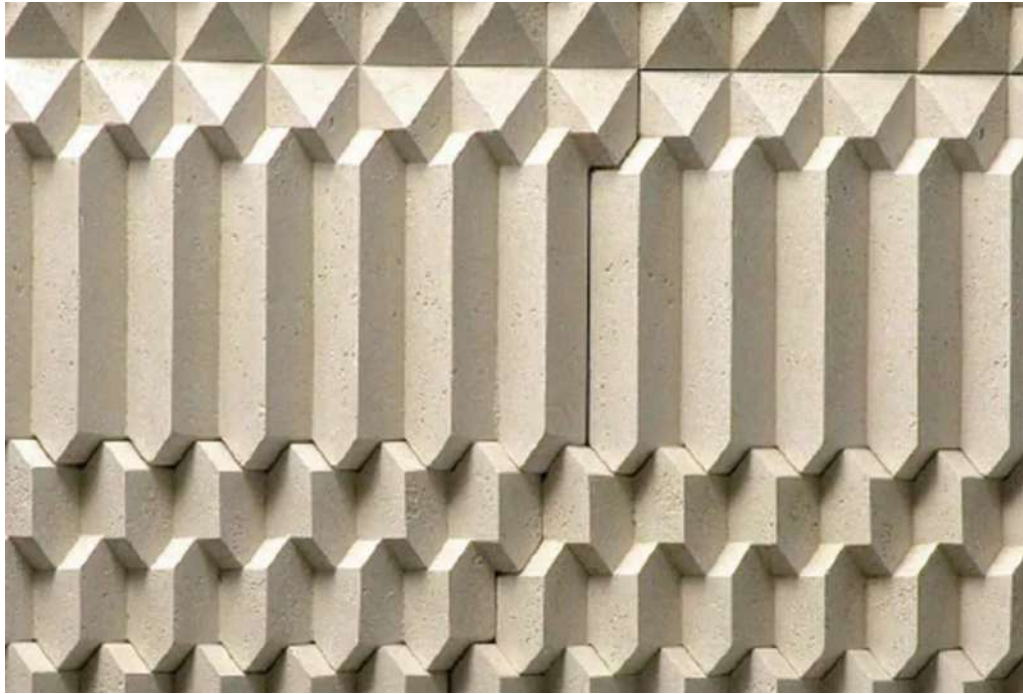

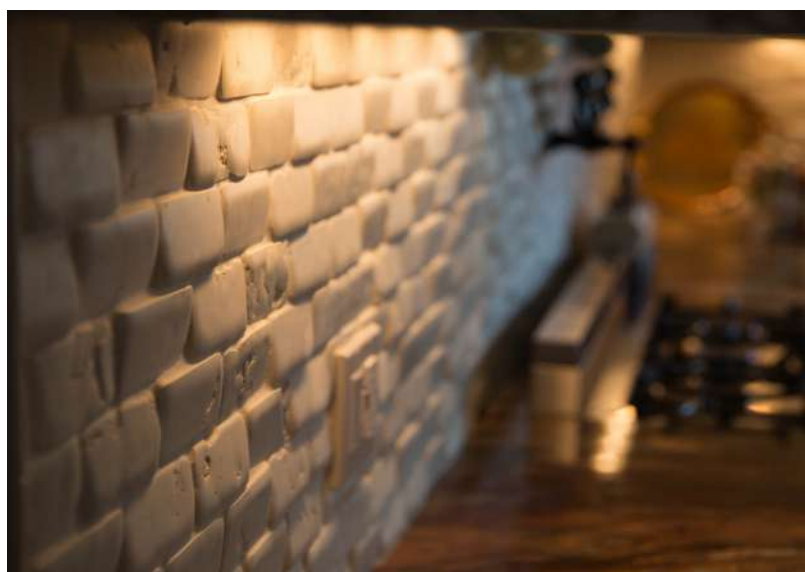

TRIFACE COLLECTION

Handcrafted design that reaches new horizons of expressiveness. Triface Collection is perhaps one of the most unique Giovanni Barbieri creations. These tiles feature intricate connections of diagonal squared and rectangular cube sections, creating a visually stunning design.

The Triface Collection is known for its sustainability and is available in a variety of sizes, including large-scale options for grand reception areas.

TIMEWORN BIANCO ANTICO

The main characteristic of this mosaic is its aged effect, which replicates the appearance of historical Italian floors that have weathered the test of time. Timeworn Bianco Antico is made through a peculiar procedure developed by the artist himself.

The marble is then polished to maintain its sheen and unique reflective qualities, creating an effect that is similar to the beautifully time-worn floors of historical palaces in Italy.

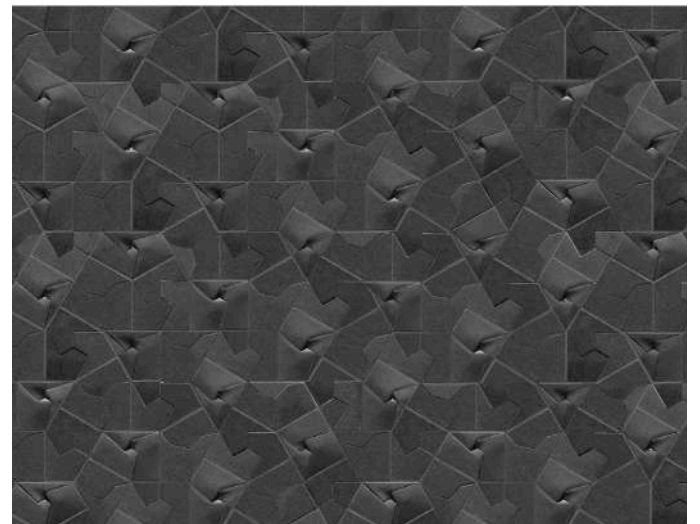

AN EXTENSIVE PATTERN SELECTION

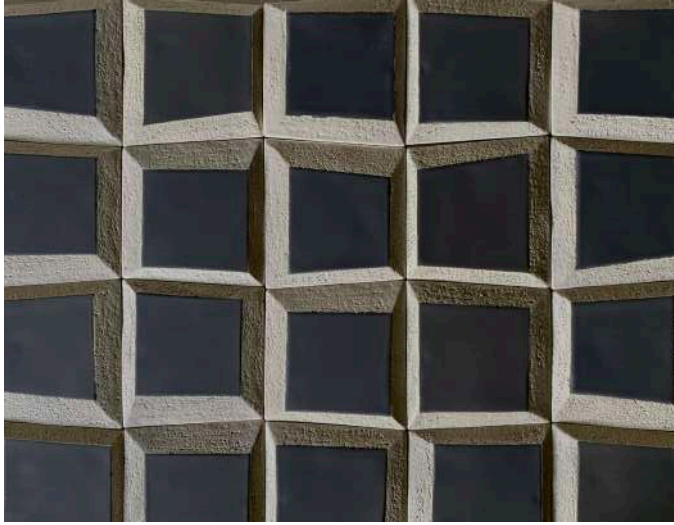

From intricate designs to more traditional patterns, Giovanni Barbieri offers a wide selection of options available to suit various tastes and preferences.

Giovanni Barbieri patterns have the power to transform walls into stunning focal points. Whether you prefer a subtle and elegant design or a more classic texture, each pattern offered by the company is perfect for a cohesive, stunning and harmonious design.
