

WHEN SCIENCE MEETS NATURE

organic certified cosmetics

A photograph of several thin, green stems with small, pink, elongated flower heads, positioned in the bottom left corner of the page.

CATALOGUE

Natürys means professionalism and innovation.

Natürys means reliability and research in formulations,
with 100% organic certified ingredients and sustainable packaging.

Facing a consumer increasingly careful to environmental issues,
Natürys is a conscious choice for both body care and environmental protection.

TRADITION AND PROFESSIONALISM

Bema Cosmetici has been passionately researching
for new ingredients and formulations
for over 50 years, in full respect of our health
and the environment.

Bema formulations have always exploited
the potential of nature, using the properties
of cutting-edge extracts
and active ingredients of plant origin.

In 2005 Natürys brand was born, entirely dedicated to professional beauty treatments.
In 2009 Natürys won the Cosmopolitan Hong Kong's Best of the Best Beauty Awards as
"Best Organic Beauty Brand of the Year".

Since then, Bema Cosmetici has continued to offer 100% Made in Italy high-quality
products for both beautician and home treatments, with constant attention to the
wellness of the body and the environmental protection.

SUSTAINABILITY: our commitment to the environment

Natürys has made sustainability one of its founding values.
In this period of continuous lack of resources and materials, choosing to use organic residues
can make a big contribution to our ecosystem.
For this reason, we decided to adopt measures that respect the natural environment, not only
by taking what nature makes available, but also by returning back as much as possible what it
has offered us.

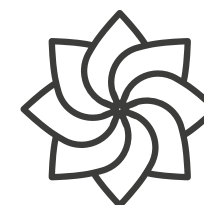

NO EMISSIONS

No harmful emissions into the atmosphere occur during the various phases of
cosmetic production.

ECO-FRIENDLY PAPER PACK

Natürys paper pack is made from a combination of fruit and nuts. By-
products commonly used as supplements in animal husbandry, fuels for
energy production or landfilled waste can be obtained by recycling this paper.
Agro-industrial waste is purified, micronised and mixed with virgin
cellulose and FSC certified post-consumption recycled fibres in
the paper production phase, using self-produced hydroelectricity.

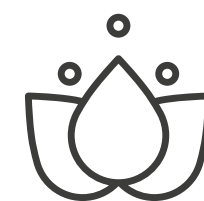

ORGANIC SUPPLY CHAIN

All our suppliers are organic certified and use sustainable methods during
the extraction and production of materials.

SUSTAINABLE PACKAGING

Our bottles are made of recycled and easily recyclable glass and plastic
(polyethylene). In addition, we are progressively eliminating all disposable
and non-biodegradable support materials.

FACE

PURIFYING LINE

Natürys Face Purifying is the specific range of products for impure skin and does not make distinctions of any kind: the range has been developed to perfectly adapt to all skin types with imperfections like widespread or localised shine, comedons and acne.

Thanks to the effective balance of Niacinamide, Bakuchiol and Peptides, it also satisfies the anti-ageing needs of more mature skin...

because combination or impure skin are not characteristics limited to younger skins alone.

NIACINAMIDE

BAKUCHIOL

PEPTIDES

professional use

PURIFYING CLEANSER GEL

CLEANSING GEL WITH NIACINAMIDE, BAKUCHIOL, AND PEPTIDES

500ML

COD. 1600

PEELING AHA SOLUTION

PURIFYING TONER CONTAINING SALICYLIC ACID, HYALURONIC ACID AND ALOE

500ML

COD. 1607

PURIFYING PEEL OFF GEL MASK

PEEL-OFF MASK WITH LEMON EXTRACT AND ERYTHRITOL

500ML

COD. 1601

ACTIVATING LOTION

ACTIVATING LOTION FOR MASK CONTAINING NIACINAMIDE AND BAKUCHIOL

250ML

COD. 1602

This light purifying cleansing gel containing Niacinamide turns into a rich and soft white foam to immediately purify the skin.

Exfoliant solution that promotes cell turnover while renewing and oxygenating the skin. It regenerates impure and normal skin thanks to powerful active ingredients, such as Mandelic acid, Alpha Hydroxy Acids, Tartaric acid and Lemon extract. Using this product regularly (once or twice a week), stimulates microcirculation and the physiological production of collagen and hyaluronic acid.

Purifying and astringent face lotion. It refines the skin texture and brightens the complexion. Aloe and hyaluronic acid moisturise the skin without affecting the stratum corneum.

This fluid face mask is ideal for deeply cleansing the face thanks to the purifying action of lemon extract. This mask contains alginates, i.e. extracts obtained from a group of algae featuring a high concentration of vitamins, polysaccharides, and proteins for a nourishing, stimulating, and revitalising effect. This mask acts in depth and purifies the skin, making it dry and firm. After its application, spray the activator, which reacts with the alginates and transforms the cream into a film to be removed once the treatment is complete.

Spray the activator on the face and leave on 5 to 10 minutes. The activator reacts with the alginates, generating a cool effect that helps make the skin tighter and firmer. Close your eyes when applying the product.

PURIFYING MIRACLE DROPS

FACE OIL CONTAINING
BAKUCHIOL, TEA TREE
OIL AND NEEM

Light, purifying and astringent oil to combat impure skin imperfections. It's formulated with tea tree and Neem essential oils obtained from organic farming methods. Apply to skin imperfections or add a few drops to your daily face cream.

 100ML

COD. 1603

FACE CREAM AGE-PURIFYING

FACE CREAM WITH
NIACINAMIDE,
BAKUCHIOL AND
PEPTIDES

The Age Purifying cream acts on two aspects to ensure a specific and effective anti-ageing treatment for impure and combination skin. Bakuchiol rebalances the sebaceous gland activity, purifies the skin, and removes imperfections. Niacinamide and peptides have an anti-ageing and regenerating effect. They combat wrinkles and skin sagging, strengthening the tissues. Used regularly, it reduces progressively enlarged pores and shiny areas. It also reduces wrinkles and signs of ageing, purifying and smoothing the skin.

 250ML

COD. 1605

MATT SOLUTION FLUID CREAM

FACE FLUID CREAM
CONTAINING
NIACINAMIDE, PEPTIDES
AND BAKUCHIOL

A light, fast-absorbing emulsion perfect for combination, impure, blemished (shiny, acne, blackheads, enlarged pores) skin. It ensures a mattifying effect. Niacinamide and Bakuchiol help normalise sebum production, restoring skin hydration, freshness and softness. It is absorbed quickly and is excellent as a makeup primer.

 250ML

COD. 1606

PURIFYING MOUSSE

CLEANSING MOUSSE
WITH NIACINAMIDE

This product is ideal for the daily cleansing of impure, oily, and combination skin. This super light and soft mousse features the skin purifying properties of Niacinamide. Its formula gently cleanses the skin, leaving it fresh, soft and free of impurities.

 150ML

COD. 1595

home use

DEEP PURIFYING SERUM

SERUM WITH
BAKUCHIOL, VITAMIN C,
AND MOISTURISING
MICROCAPSULES

This face serum contains a purifying complex specific for oily, impure and combination skin. Its formula is enriched with olive oil microcapsules that melt when in contact with the skin. Niacinamide, Bakuchiol and Vitamin C help correct imperfections, such as overproduction of sebum, enlarged pores, acne- and redness-prone skin.

 30ML

COD. 1596

Cleansing Gel Oil suitable for cleansing all skin types deep down, mature and dehydrated ones in particular. The innovative formula with Peptides and Bakuchiol enables the removal of make-up and impurities, leaving skin moisturised and elastic. The powerful firming effect of active ingredients immediately replenishes, for firm and toned tissue.

An explosion of vitality, a gust of freshness for complexion and immediate well-being for your skin. The skilled combination of hydrolysed rice proteins and vine liposome helps rebalance skin's microbiome, replenishing the skin's natural defence system. Hyaluronic acid moisturises and refreshes even the most delicate skins, while vitamin C adds radiance to your complexion and stimulates the production of new collagen. The result is a perfectly toned, fresh, luminous and velvety skin.

Helps reduce the appearance of wrinkles and imperfections, while improving skin tone, for a visible and delicate renewing action. Improves skin texture, attenuates skin discolourations and gives skin a more youthful and radiant complexion.

A peptide concentrate for firmer tissue and a redefined facial contour. Revives dull skin and fights against slackening skin by stimulating collagen and elastin production.

A Vitamin C concentrate with a powerful antioxidant, radiance-enhancing and lightening action, against the signs of stress and tiredness. Improves skin texture, evens out colour and generates a more youthful appearance. Stimulates collagen synthesis to reduce thin lines and deep wrinkles.

PEELING DOUBLE ACTION STEP 2

PEELING WITH JOJOBA MICROBEADS AND AHAS

 250ML

COD. 1626

A Hyaluronic Acid concentrate formula with three different molecular weights. With this special formulation, hyaluronic acid is easily absorbed by tissue, encouraging skin's repair and reconstruction process. Provides necessary levels of hyaluronic acid, replenishing any physiological deficiencies caused by the passing of time. Skin is immediately nourished, former, while wrinkles are less visible and more filled in.

Peel-Off mask with alginates, especially rich in Vitamins and Trace Elements; improves skin moisture leaves and structure, by stimulating collagen, elastin and hyaluronic acid production. Detoxifying and oxygenating, it stimulates cell metabolism and helps eliminate excess and built-up toxins. Reactivates microcirculation and stimulates cell turnover, for immediate radiance and firmness.

This lotion is essential for maximised results and cannot be replaced by any other liquid, since it holds the highest concentration of active ingredients as regards alginate powder. This lotion must be mixed with alginate powder to obtain its full masking effect.

Peel containing glucono-delta-lactone, perfect for cleansing and stimulating regeneration in mature and stressed skin.

A delicate peel suitable for all skin types, even more sensitive ones: skin tone and radiance is replenished thanks to its dual use. Jojoba microbeads guarantee mechanical exfoliation while AHAs act deep down, leaving skin oxygenated and elastic.

NO AGE FLUID CREAM

FLUID CREAM WITH PEPTIDES, VITAMIN C AND BAKUCHIOL

 250ML

COD. 1627

NO AGE RICH CREAM

RICH CREAM WITH PEPTIDES AND HYALURONIC ACID

 250ML

COD. 1628

Specifically formulated for mature skin, this anti-age cream helps improve the appearance of skin's structure and tone, for a more youthful looking complexion. Enriched with Peptides and Hyaluronic Acid, the nourishing formula provides intense hydration, while re-plumping and toning skin that has started to lose definition.

WELL AGING EYE CONTOUR MASK

EYE CONTOUR MASK WITH MANGO BUTTER AND COFFEE OIL

 100ML

COD. 1638

A rich and emollient butter with a precious texture, recommended as an intensive treatment for eye contours. From the first application, skin will feel revitalised, radiant and plump.

A pool of active ingredients with an anti-oxidant action reduces the visibility of dark circles and puffiness.

WELL AGING EYE CONTOUR CREAM

EYE CONTOUR CREAM WITH CAFFEINE AND BIOACTIVE PEPTIDES

 100ML

COD. 1639

Cream with a light and nourishing texture that is easily absorbed, for immediate comfort of the eye lids and eye contours, which are thoroughly moisturised and supple. Acts on wrinkles, slowing down and reducing the typical signs of ageing and stress mechanisms that affect this highly delicate area on a daily basis, making it vulnerable to the formation of fine expression lines.

CLEANSING GEL OIL

CLEANSING GEL OIL WITH PEPTIDES AND BAKUCHIOL

Cleansing Gel Oil suitable for cleansing all skin types deep down, mature and dehydrated ones in particular. The innovative formula with Peptides and Bakuchiol enables the removal of make-up and impurities, leaving skin moisturised and elastic. The powerful firming effect of active ingredients immediately replenishes, for firm and toned tissue.

MOISTURIZING LINE

The Naturys Face Moisturizing offering includes products with original formulations, developed to moisturise and elasticise the skin deep down and encourage regeneration, for a skin with a soft and smooth texture.

Moisturisation is fundamental for the well-being and beauty of facial skin: habits, an incorrect diet or simply a predisposition to dry skin can alter the skin's protective capacities and cause an excessive loss of water from tissues. The Hydra treatment contains Vine Sap, Panthenol, Peptides and Celery Stem Cells.
It encourages hydration, microcirculation, elasticising and softening the skin.

Make-up remover and cleanser in one product. This Cleansing Micellar Gel does not contain oils. It gently removes make-up, cleansing skin and removing impurities. Naturys micellar gel gently removes make-up from the eyes and face. The skin is instantly fresh, soothed and more elastic. Its formula gently removes make-up from any skin, even the most sensitive.

The Face Mask for sensitive skin is specially formulated to reduce skin red-ness and irritation, it has an intense calming, soothing and refreshing action. Among its precious ingredients stand out Escin, Lycopene, Bisabolol and Glycerin Acid with great soothing, anti-inflammatory and decongestant power which together with Blueberry Oil guarantee the skin the right hydration and the correct balance of the hydrolipidic mantle.

This quick-absorbing soothing face oil is particularly suitable for delicate skin with diffuse redness and capillary fragility. The best ally against skin redness and irritation, signs of stress, pollution and blue light. It's rich in plant-based active ingredients, such as blueberry oil, bisabolol, and lycopene, and protects from weather agents. The skin is instantly protected, soothed, radiant, and healthy, and the complexion regains uniformity. It can be used alone or before the moisturising cream or the cream for sensitive skin.

Soothing cream ideal for reactive and dehydrated skin prone to redness. Its dermo-regulating active ingredients combat skin redness. In addition, Copper Tripeptides promotes collagen and elastin production, firming the skin and reducing fine lines while increasing oxygen supply for more elastic skin.

BETAINE

professional use

B-CLEAR GLYCOPEEL

PEELING WITH GLYCOLIC
ACID, WITH EXFOLIATING,
LIGHTENING AND
BRIGHTENING ACTION

Specific product for mature skin, or skin with signs of photoageing, hyper-pigmentation or acne scars. B-Cler GlycoPeel exerts a slow-release action on superficial, middle and deep epidermal layers; the special formula delivers effective and immediate results while respecting the hydrolipidic film, improving skin's firmness and radiance.

 100ML

COD. 1670

B-CLEAR STOP LOTION

LOTION WITH
CALENDULA,
HYALURONIC ACID
AND PANTHENOL

Lotion with a neutralising, rebalancing + soothing + anti-reddening and active ingredient vehiculation action.
Lotion with an alkaline pH that neutralises cosmetic treatments applied with products containing beta-hydroxy acids. Neutralising acid after an exfoliating treatment is extremely important in preventing overpeel. This Neutralising Solution ensures the skin's pH blocks any further exposure to acids. This solution helps regenerate, soothe and refresh skin after peeling treatment, for instantly fresher feeling skin.

It hydrates thanks to the double dose of hyaluronic acid.
It revitalises instantly, for soft and elastic skin.

 500ML

COD. 1671

B-CLEAR MASK

LIGHTENING MASK
WITH LIQUORICE,
SHIITAKE MUSHROOM
AND CHARCOAL

Creamy mask that acts on spots and pigmentations. Perfect for the cosmetic treatment of skin discolourations. Its innovative ingredients visibly alleviate discolourations and rebalance the skin, for enhanced radiance.

 250ML

COD. 1672

COD. 1653

Ultralight and delicate exfoliating body gel containing an Alpha Hydroxy Acid complex. Its function is to aid in the elimination of dead cells and boost skin cell regeneration; delicately smooths and refines rough and irregular skin and improves areas with uneven tone. A fundamental step in skin preparation for all types of beauty treatments.

An Anti-Cellulite action booster with coadjuvant ingredients for the treatment of imperfections caused by localised fat and cellulite, both in initial and advanced phases. Caffeine and Drosera reduce fat deposits and inhibit their formation. The marine origin enzyme, Lipoactive complex, mimics the effect of the physical exercise of resistance, for improved body tone, defined body shape, more toned and elastic skin.

Thanks to the action of brown algae, it tones, aids in the draining of excess liquids and in the mobilisation of fats from fatty tissue. The marine origin enzyme, Lipoactive complex, mimics the effect of the physical exercise of resistance, for improved body tone and defined body shape. The gel solution has been developed to provide skin with a concentrate of fundamental active ingredients, which stimulate and renew skin structures while also boosting collagen and elastin production. Usable alone or mixed with specific creams, this regenerating booster improves skin texture.

A rich fluid enhanced with active ingredients with specific actions for the aesthetic reduction of fat deposits. The Lipoactive complex mimics the effect of the physical exercise of resistance, for improved body tone, body shape definition, more toned and elastic skin; Caffeine and Drosera reduce and inhibit the formation of fat deposits. The light texture associates the emollient component of oils containing hyaluronic acid, improving skin's appearance, boosting hydration and firmness.

A delicately refreshing, technologically advanced and concentrated formula with a draining and toning action, for inelastic skin prone to relaxation. The botox-like action of the peptide, associated with the Lipoactive complex enzyme, boosts skin's elasticity, improving body shape definition. Centella and Echin work to protect microcirculation, brown algae drain excess liquids and remove built-up toxins. The product is also recommended following intense weight loss.

LIPOACTIVE MUD

MUD WITH BROWN ALGAE, CAFFEINE AND DROSERA

A mud with a lipolytic action, a gentle hot effect and a soft and creamy consistency, rich in functional coadjuvant ingredients for the cosmetic treatment of imperfections caused by cellulite. Micronized brown algae associated with caffeine and drosera exert a lipolytic action; escin, red vine and horse chestnut protect microcirculation. Tissue is oxygenated, skin is renewed with enhanced firmness and tone. Light and rested legs.

 1000ML

COD. 1655

SLIM MUD CREAM

MUD WITH WHITE CLAY, PHOSPHATIDYLCHOLINE AND SODIUM CHLORIDE

Functional white mud, exploits the natural benefits of white clay, with a purifying, detoxifying and decongesting action. Thanks to its molecular structure, Phosphatidylcholine penetrates the deepest layers, providing a lipolytic action and aiding slimming action. Contains a blend of organic Olive and Sunflower Seed Oils, for soft and moisturised skin; the salt it contains ensures a specific draining action, coaxing excess liquids out.

SILKY SKIN
BODY SET

SHOWER GEL +
ENZYMATIC PEEL GEL +
SOOTHING HYDRA CREAM

the Naturys pre and post Epilation method that enhances treatment effectiveness and preserves its results!

A special set designed and formulated to prepare your skin for epilation treatments and keep the results longer!

step 1

THE VERY FIRST HYDRATION STEP TAKES PLACE IN THE SHOWER

In order to ensure the best result, the skin must be perfectly hydrated and intact without redness and irritation, before undergoing an epilation treatment. For this reason it is important to use a cleanser which does not attack the skin barrier, that cleanses with full respect for the skin keeping it soft, silky and elastic.

step 2

REMOVE DEAD CELLS AND PROMOTE CELL TURNOVER

During the month preceding the treatment, it is essential to remove dead cells that might hinder the success of the treatment through careful exfoliation. Silky Skin Peel Gel is enzymatic (strictly without the mechanical part). It should be applied twice a week during the 3 weeks before the session and interrupted during the week before the session. The product is applied throughout the body, insisting particularly on areas where there is increased dryness or thickening, or areas that will be subjected to epilation. Complete the treatment by rinsing the product with warm water.

step 3

MOISTURIZE WITHOUT WEIGHING DOWN

It is recommended to keep the skin hydrated with a nourishing yet light-touch cream before and after the treatment. Silky Skin Soothing Hydra Cream is formulated with Aloe, Mallow and Yarrow to deeply moisturize the skin, especially in the days before the session (avoiding only the same day). It is advisable to avoid sun exposure for at least three days after the epilation treatment.

NOTE

Natürys is the line of **PROFESSIONAL COSMETICS**

created with **LOVE, PASSION** and **PROFESSIONALISM** in Italy, at our historic laboratories.

A complete range of treatments that develop technology and naturalness, studied and formulated with the utmost **RESPECT FOR THE SKIN** and the most stringent cosmetic formulation criteria.

Natürys has always believed in quality professional cosmetics and now offers a complete high performance cabin range for its customers, containing rigorously organic and natural ingredients.

Its formulas are bio-certified, increasingly green and cutting-edge, with the use of highly effective and innovative active ingredients.

All products are designed and developed for the most demanding professionals, who pay attention to their customers' health. We provide a concrete answer to every skin imperfection, with a specific treatment protocol.

Each product reflects our commitment to creating safe and high quality cosmetic formulations, by adopting an eco-responsible approach that protects the planet and its biodiversity.

The whole salon size line includes the use of **ECO-SUSTAINABLE MATERIALS**, such as recycled cardboard and plastic.

Natürys has been developed to give all skin types the opportunity to nourish themselves with specific functional substances that support the skin's activity and structure.
