

CONDOROILSTAINLESS

R E C O V E R Y T E C H N O L O G I E S

CONDOROIL in short

- Founded in 1972, CONDOROIL Group has been focusing on surface treatments for 50 years and offers a wide range of chemicals as well as technologies:
 - Production of Chemicals for metal surface treatments
 - Manufacturing of recovery and regeneration unit
 - Manufacturing of electrolytical pickling plants
 - Laboratory – R&D – Testing – Analysis of CONDOROIL and outsourcing
- Headquarters are located near Varese (Italy), CONDOROIL employs more than 60 people half of which has a chemical background
- In 1996, CONDOROIL Stainless Company was founded to develop the equipment division
- In 2008, with the construction of a plant for manufacturing of electrodialysis cells, CONDOROIL enters the ED-PAINT sector and in particular in the automotive sector.

Overview of Business Areas

For ED-COAT we can propose:

- TUBULAR CELLS for Electrodialysis (ED Coating, KTL)
- MEMBRANES UF & RO
- BAG and CARTRIDGE FILTERS with relevant vessels

TUBULAR CELLS for ED coating

CRONO TB is a tubular cell produced with polymeric membranes:

- Low deformability
- Low electrical resistance
- Long life
- Available in different sizes and models
- Available in closed versions if pressure cell is needed
- Possible horizontal positioning
- Extremely easy to be replaced

Condoroil is able to provide all the components to perform the positioning of the elements in the tank.

ULTRAFILTRATION MEMBRANES for ED coating

KRATOS ultrafiltration membrane :

- Larger membrane surface
- Higher permeate flow
- Lower operating costs
- Greater energy efficiency
- Available in different sizes and models
- Extremely easy to be installed and replaced

BAGS and CARTRIDGE FILTERS with related vessels

ADEX cartridge filters coiled or sintered wire:

- Available in 1 to 40 inches sizes
- Made entirely of polypropylene
- Compatible with a wide range of process fluids
- Binders and adhesives free
- Range of filtration: 1-5-10-25-50 μ
- Available in different housing

CERYX bag filters:

- Available in 40 cm and 80 cm size
- Hard plastic ring
- High resistance handle for easy extraction
- Seams free
- Silicone compounds free
- Available Porosity : 1-5-10-25-50-80-100 μ
- Available in different housing
