UPVs

All A.R. Italian Beauty Vegan Cosmeceuticals contain in their formulations specific synergies of pure Italian essential oils and Italian vegetable actives, derived from uncontaminated geographic areas of South Italy.

Essential oils (aroma) are strictly correlated with microclimate and territory, so we use only high quality Calabrian and Sicilian pure bio essential oils.

These components, together with high quality vegan Italian actives, synergically used, can reinforce our immunary system, providing a healthy prevention life style.

As recent scientific reports make evidence of, in a time of OMS alert about antibiotic resistance, our formulations suggest a way, to make a daily prevention life style.

For example Vogue UK review has defined one of our best seller
“A Beauty Elixir Must Have”
