

The ILGA logo is located in the top left corner. It consists of a red square icon with a white stylized 'I' inside, followed by the letters 'ILGA' in a bold, red, sans-serif font.

ILGA

The background of the slide is a photograph of a modern, multi-story industrial building with a light-colored facade and large windows. A tall, thin chimney or stack is visible behind the building. The sky is blue with some clouds. The foreground is a paved area with a small bush in the center.

ABOUT US

In 1963, we opened our plant with enough capacity to accommodate a sufficient number of machines to permit industrialization of our production.

In 2003, ILGA SRL experienced its first re-birth embracing new ideas, introducing new technologies, focusing on its policy/ideologies still being valid today namely: integrity, transparency, loyalty, always referring to its staff members as the best resource for progress, mutual motivation to always invest in never-ending research of compounds and their development. Ever since ILGA SRL has been a dynamic company, carefully satisfying customers' requirements. A company made up of people who day by day, in these 60 years has given shape to new ideas and new proposals essential to overcome challenges for a steady growth.

At ILGA SRL, we have been producing technical rubber for 60 years and we supply over 450 end users, of which 65% at international level, as we believe it is important to promote the Italian quality products in the world.

We are specialized in the designing and production of technical rubber and gaskets using different compounds such as NR, NBR, SBR, EPDM, ACM, HNBR, VMQ, FKM, FVMQ, AEM...

We are able to produce any kind of items such as bellows, gaskets, buffers, rubber grommets, O-rings, rubber pads, sleeves, plugs, silent-blocks, intake sockets, carburetor sockets, rubber mountings, Insulators, etc...

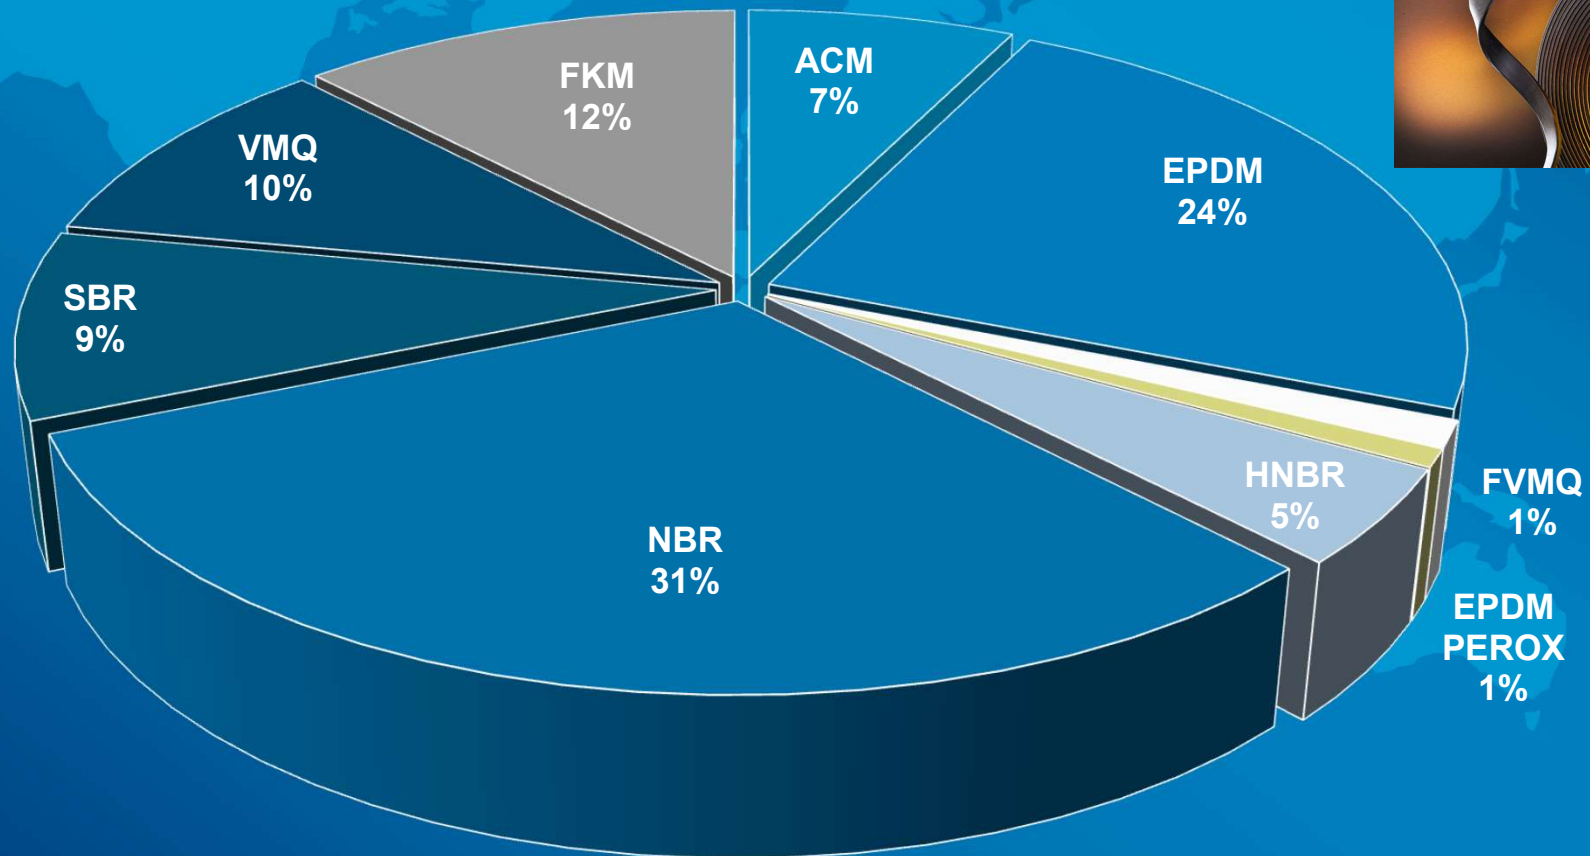

Our factory is located in Villafranca di Verona (Italy) on a total surface of 7.500 square meters with 23 moulding machines, 3 deburring machines, 1 rectification machine and 1 optical control machine (UTP Vision system).
