# HYDROBIKE 2.0 RESTORE

MADE IN ITALY

Velneo is an Italian company specialising in the design and manufacture of quality equipment for the fitness, wellness, professional and thermal beauty sectors. Our mission is to be a supplier of excellence for products that improve the health and well-being of the body through water. Each of our products is the result of constant investment in the research and the development of new technologies, which has enabled us to build customer loyalty and make our machines popular. The company operates with the aim of providing maximum attention to the customer, ensuring constant support with a guarantee of intervention for various needs: technical operational support, repair work, spare parts service.

## HYDROBIKE 2.0 RESTORE

The Hydrobike 2.0 RESTORE is a single-structure water ergometer with an electromagnetic graduation that allows exact, extremely accurate and reliable strain adjustment. A software controlled by a touch screen thus makes it possible to monitor and stimulate the functional variations that occur in the body during physical activity, also trying to determine precise results through

specific programming. A powerful hydromassage with water-air mixing generated by 27 jets of medium-high flow positioned at specific points on the lower limbs, which perform a massage thanks to the vibration because of the action of the water, providing numerous benefits.

## EFFECTS AND BENEFITS

### MEDICAL AND REHABILITATION

- Improvement of physiological and motor skills
- Gravitational unloading
- Increased joint mobility
- Reduction of oedemas, neuromuscular activation
- Improvement of the cardiovascular system
- Improvement of blood flow
- Free-risk activity for the joints and the spine

### SPORT AND FITNESS

- Relaxation and muscle activity
- Improvement of joint mobility
- Early mobilization
- Improvement and stimulation of local circulation
- Improvement of lymphatic drainage and metabolic stimulation
- Increased muscular elasticity and endurance
- Muscle toning and strengthening

### WELLNESS AND BEAUTY

- Cellulite treatment
- Reduction of orange peel skin
- Slimming action with calorie consumption (approx. 400 kcal/h)
- Treatment of legs / abdomen / hips / buttocks
- Toning and firming
- Treatment of swollen legs
- Positive action on lymphatic circulation with elimination of toxins

### FEATURES

- Adjustable hydrotherapy with air lung
- RGB chromotherapy
- Programs with heart rate monitor
- Programs with variable resistance
- Sanitising system
- Ozone / UV change
- Automatic cycle

### JET HYDRO 3,5"

- Adjustable
- Orientable
- Removable
