ESG OBJECTIVES

EMOMENTUM IS THE ANSWER FOR THOSE WHO SEEK INCREASED VISIBILITY, SAVINGS, AND REAL RESULTS.

We help you put an end to:

- **✗ Unplanned machine downtime that halts production**
- **✗ Scheduled “calendar-based” maintenance that doesn’t actually add value**
- **✗ Confusing data and dashboards with no real-world impact**

With eMomentum, everything changes.

You receive analyses, recommended actions, and continuous support for your rotating equipment, such as motors, compressors, pumps, bearings, fans, conveyor belts, and similars.

PATENTED SENSORS & GATEWAY ENSURE FAST DEPLOYMENT

Patents to ensure high-quality vibration and temperature data, free from unwanted resonances and enable secure, easy remote configuration. ATEX, IECEx, and HazLoc certifications

SOFTWARE: AI ANALYTICS & MULTY AGENT SYSTEM AS DIFFERENTIATORS

EMOMENTUM'S VALUE PROPOSITION.

ACTIONABLE INSIGHTS

Clear guidance
for immediate action.

TRUSTED EXPERTS

Support you
can count on.

LASTING RESULTS

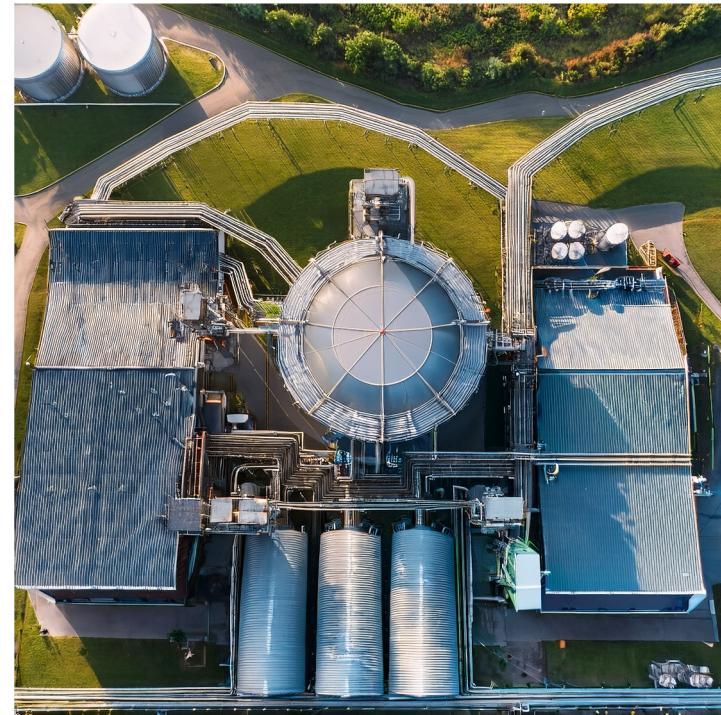

Impact that
endures.

VALUE PROPOSITION: EMOMENTUM DRIVES YOU TO ACT.

Our analyses turn complex data into simple, immediate actions, creating tangible value from day one.

- *Timely identification of anomalies in monitored machinery.*
- *Operational and prioritized recommendations to know what to do, when to do it, and why.*
- *Quantification of benefits in economic and environmental terms.*

Actionable insights.

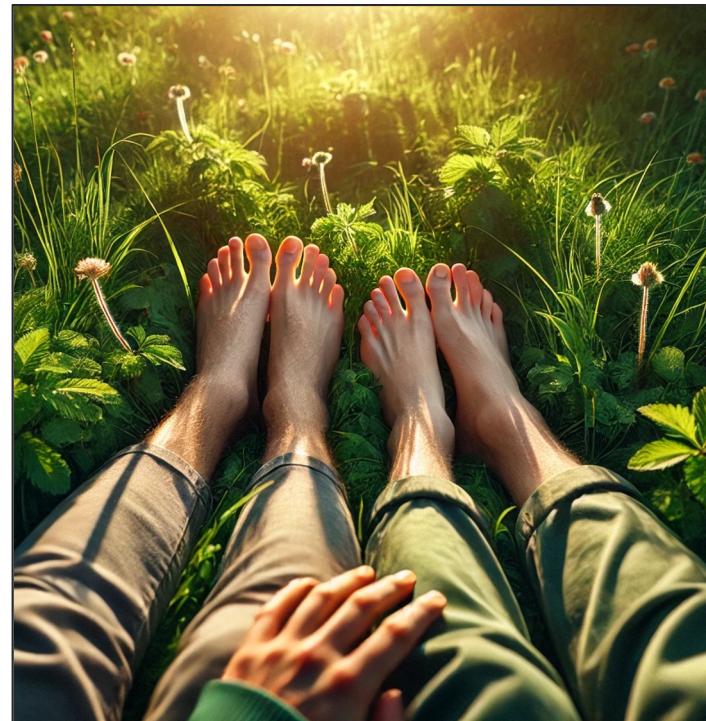

VALUE PROPOSITION: YOU ARE NEVER ALONE, A TEAM OF INDUSTRY EXPERTS SUPPORTS YOU.

We have hands-on experience in AI, Change Management, and predictive maintenance across multiple industries.

- *We are human, present, and highly competent.*
- *We interpret data alongside you, sharing reports and recommended actions.*
- *We believe in a human-in-the-loop model, where people are the center (not the AI), with their ability to verify, interpret, and personalize every suggestion.*

Trusted experts.

VALUE PROPOSITION: WE DON'T RUN SIMULATIONS; WE CREATE MEASURABLE IMPACT.

We work to deliver quick ROI and long-lasting benefits: fewer failures, lower costs, greater reliability.

- *We often achieve ROI within just a few months from installation.*
- *We boost the productivity and availability of our customers' machinery.*
- *We are beside you to ensure lasting results are achieved.*

Lasting results.

FAST TIME-TO-VALUE: BENEFITS AVAILABLE IMMEDIATELY AFTER SENSOR INSTALLATION.

01 > 02 > 03

Installation

- Sensors are easy to install on any motor-driven asset in less than 5 minutes
- Sensors do not require to stop the asset operation
- Connectivity is independent from customer's network, eliminating cybersecurity issue

Baselining

- Sensors collect data which is sent to our cloud
- AI algorithms perform the analyses and determine the health status of monitored assets

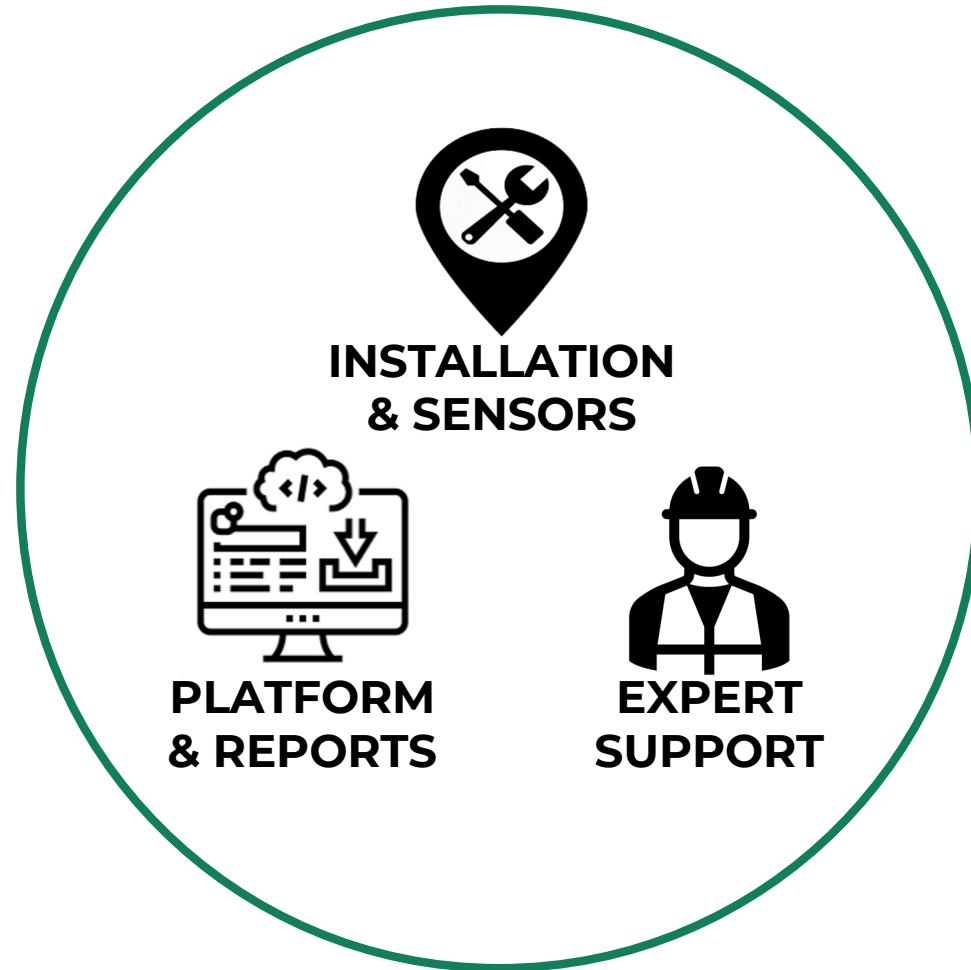

Continuous Support

- Asset degradations are timely detected and notified
- Recommendations provided to reduce and prevent degradation from further developing
- The effectiveness of maintenance performed can be assessed by looking at vibration spectrum and energy consumption

WHY STARTING A PARTNERSHIP WITH EMOMENTUM?

What Truly Sets Us Apart

At eMomentum, we go beyond promises: we share the risk with our customers by becoming true partners. We guarantee a return on investment within 12 months, making sustainability not only the right choice for the planet but also a smart and safe business decision.

Our Unique Competitive Advantage

eMomentum stands out with a strong value proposition focused on sustainable maintenance and energy optimization*, powered by advanced AI solutions and continuous expert support.

Highly Skilled Team

Our team is made up of highly motivated professionals with deep industry experience and a proven track record of success. We bring together over 100 years of combined experience in preventive maintenance, advanced technologies, and startups.

WHERE TO START

1. Proof of value (from your perspective)

Plug & play installation in less than 5 minutes per machine, on a minimum of 10 critical and/or problematic assets

2. Receive Your First Report

Within a few days, you'll receive a complete report with the health status of your assets and tailored maintenance suggestions.

3. Engage with Our Team and Evaluate Us

Work directly with our experts: experience how we operate, understand our method, and receive personalized support. Assess the real impact on your machines with clear reports, recommended actions, and estimated savings.

4. Expand with Confidence

If the results meet your expectations, you can gradually expand eMomentum across all your machines — with our team by your side every step of the way.

**An affordable, fast journey that doesn't interrupt your machine operations;
we take care of everything with minimal involvement from your team.**

Thank You!

 eMomentum
