FORNARO WINERY

The Fornaro family's deep connection to the land and their passion for winemaking have been passed down for generations. In 2020, founder Ciro Fornaro decided to turn this heritage into a singular vision: to create a niche Primitivo IGT wine that stands apart. Our mission is to produce a wine of unparalleled purity. We reject the industrial processes and mass production methods of more famous wines, choosing instead a path of authenticity and respect for the vine.

THE TERROIR

Our two-hectare vineyard is nestled in Grottaglie, Puglia—a city renowned for its ceramics. It's the unique clay soil of this region that truly defines our wine.

This clay soil puts the vines under a natural stress, pushing them to their limits. This "struggle" forces the plant to express its best qualities, concentrating the organoleptic properties and resulting in a wine with a truly unique and intense character.
