

AUTHENTIC
AND
SUSTAINABLE
TUSCAN WINE

about us

Costanza Cuccuini, CEO and founder of Starless Wine, holds a background in pharmacy. After years of experience in pharmaceutical chemistry, in 2020—at the onset of the pandemic—she chose to apply her analytical rigor to the wine and agri-food sector.

This led to the creation of ENOCOFI, an **analytical laboratory** that quickly distinguished itself for its rigor, reliability, punctuality, and precision—essential elements in supporting grapes throughout their journey to becoming quality wine, preserving the potential that each winemaker carefully builds over a year of dedicated vineyard work.

From this privileged vantage point, Cuccuini identified the opportunity to select **authentic and expressive Tuscan wines**, capable of combining healthfulness with pleasure. This journey was further strengthened through her experience with the Generazione Sangiovese movement, which brings together family-run wineries rooted in Tuscan tradition.

In 2025, she founded Starless Wine with the goal of selecting wines designed for a market that seeks to bring wine back into everyday life—without compromise.

Collaboration with experienced and qualified partners completes the guarantee behind Starless wines: **“starless,” yet rich in personality and supported by rigorous oenological control.**

Tuscan Wine & Sustainability

Starless Wine is committed to sustainable production, respecting both the environment and tradition. The winemaking techniques employed are designed to **preserve wine quality while protecting the biodiversity** of the territory.

Art, Wine & Tuscan Families

Beyond the quality of its Tuscan wines, Starless Wine expresses a strong visual identity inspired by family bonds. Its **artistic labels** tell stories deeply rooted in their land of origin.

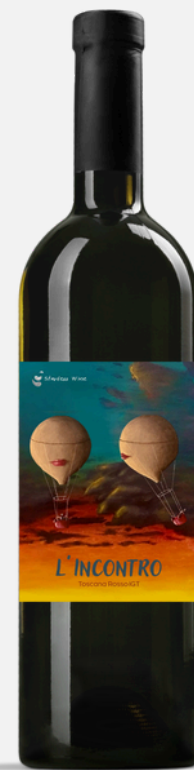

The artworks featured on the labels are created by Federico Cuccuini, brother of founder Costanza Cuccuini, who captures on canvas the beauty of living in a region loved and visited worldwide.

Starless Wines

The Starless Wine collection (three reds, one white, and one rosé) stands out for its ability to tell the story of **Tuscany** and its winemaking heritage—combining drinkability and pleasure with the expertise of those who carefully cultivate vineyards and bring only high-quality grapes into the cellar to produce **elegant, expressive wines.**
