

# Industrial supplies for businesses

MAYERMOOVER

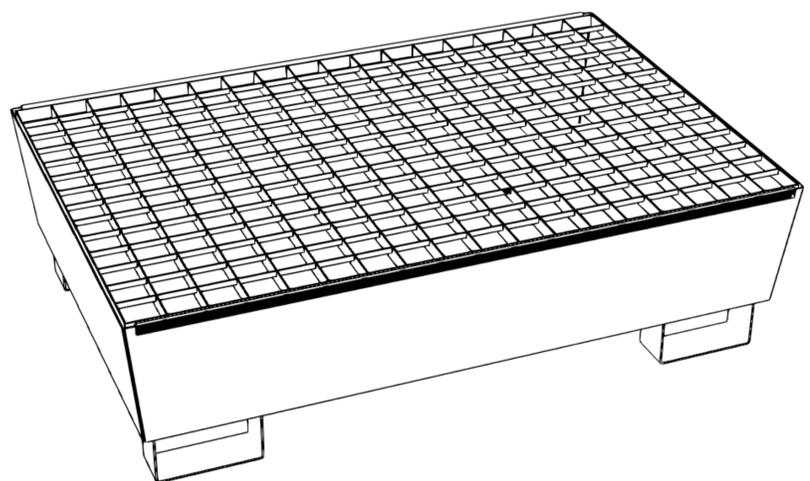

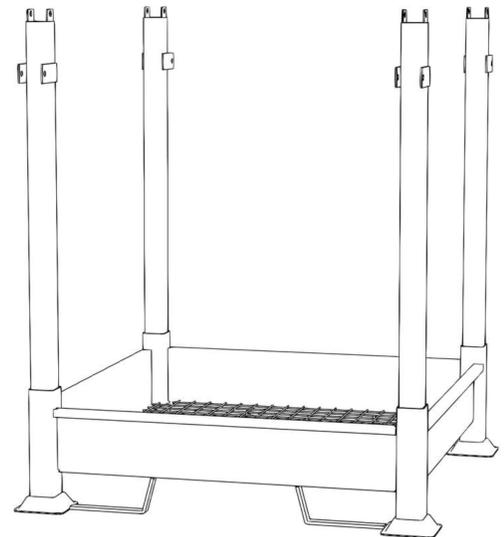

SPECIALIZED SUPPLIER

## Tailored solutions that meet the operational needs of businesses

Our strength lies in innovation, reliability, and practicality—principles that guide every one of our proposals. Our approach has evolved to respond to the demands of a dynamic market while staying true to our core values of integrity, professionalism, and transparency.

**We are backed by a young and flexible structure, capable of quickly adapting to our clients' operational challenges.** We offer bespoke solutions aimed at continuously improving efficiency and customer satisfaction.

**Safety, practicality, and environmental responsibility** are integral to our offering—solutions designed to seamlessly integrate into business processes with maximum effectiveness.

## Consultancy, quality e safety

To provide targeted responses to business needs, **we have established MAYERMOOVER RESEARCH & DEVELOPMENT**, our dedicated center for the design and development of customized solutions. Each product is the result of a meticulously managed process, from concept to implementation, with the goal of optimizing our clients' logistical and production workflows.

**We provide both standard products and bespoke solutions designed to meet the unique requirements of each client.**

## INDUSTRIAL METAL CONTAINERS

Industrial containers made of high-quality **sheet metal and wire mesh**, designed to withstand heavy-duty use in industrial and logistics environments.

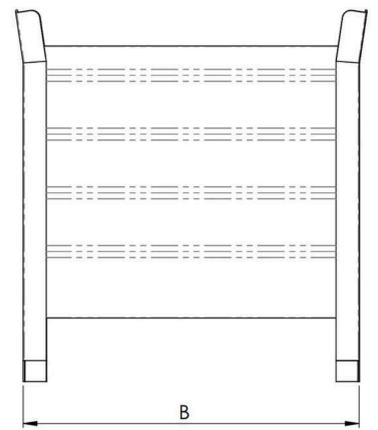

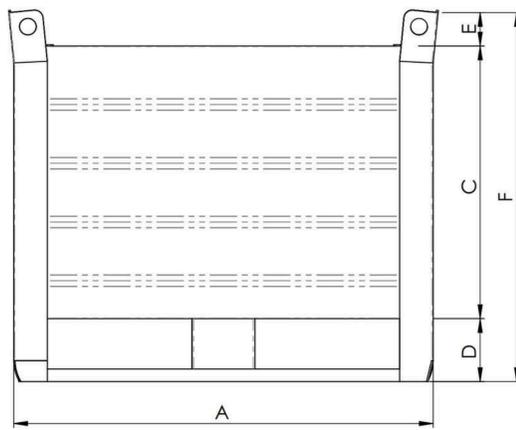

They are ideal for **storage, handling, and scrap collection**, combining strength, functionality, and full compatibility with the most common lifting and transport systems such as forklifts and cranes.

Thanks to their **robust structure, these containers offer high load capacity**, resistance to wear, and excellent performance even in foundries or heavy industries. Their stackable and modular design allows for optimal use of space in warehouses and production areas.

- 
- Sheet metal containers
  - Sheet metal containers for foundries
  - Sheet metal containers for small parts
  - Open-front containers (hopper bins)
  - Wire mesh containers
  - Drop-bottom containers
  - Tilttable containers for rotating forklift attachments

# INDUSTRIAL PLASTIC CONTAINERS

Industrial containers made of durable polypropylene, ideal for versatile use in production, logistics, and storage environments.

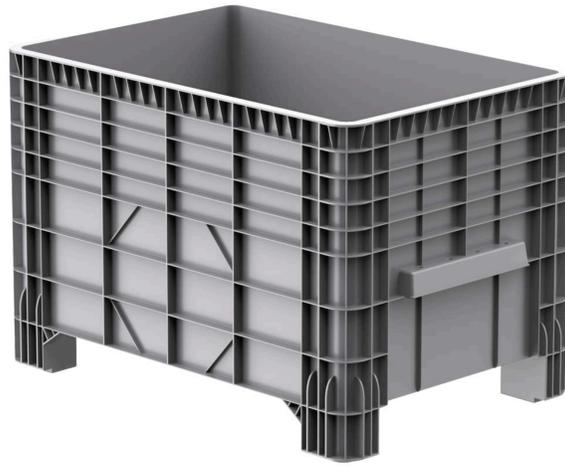

Lightweight yet resistant, they are particularly suitable for handling, organizing, and collecting lightweight materials, small parts, and scraps. These containers are designed for stackability, easy handling, and long-term use, even in dynamic workspaces. Their compatibility with lifting systems makes them practical solutions for both manual and automated logistics processes.

- 
- Polypropylene containers
  - Open-front containers (hopper bins)
  - Stackable storage bins
  - Modular containers for small parts

## FORKLIFT TIPPING SKIPS

Tipping bins offer an effective and safe solution for the collection, transport, and discharge of industrial waste, scrap, and bulk materials.

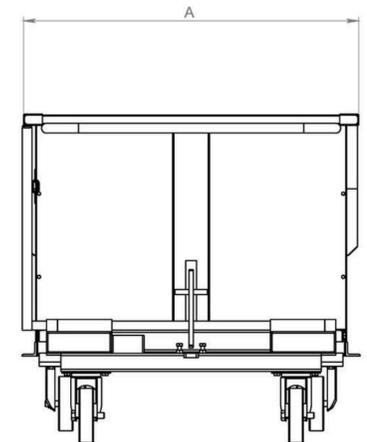

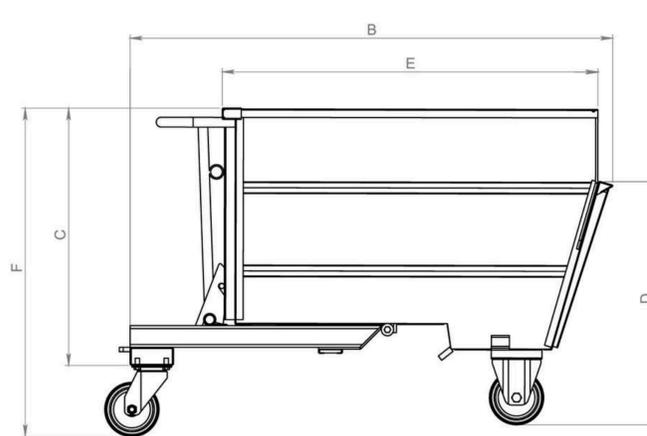

Designed for use with forklifts, they are equipped with manual release systems that ensure safe and easy emptying operations.

Available in various capacities and configurations, they adapt to a wide range of logistical and production requirements.

- 
- Tipping bins
  - Ground-loading bins
  - Polyethylene tipping bins
  - Stainless steel bins

# ROLL CONTAINERS

Roll containers are the ideal solution for those seeking efficiency, practicality, and safety in internal logistics and transportation. Designed to facilitate the movement of bulky or oversized goods, our roll containers stand out for their sturdiness, ease of handling, and durability.

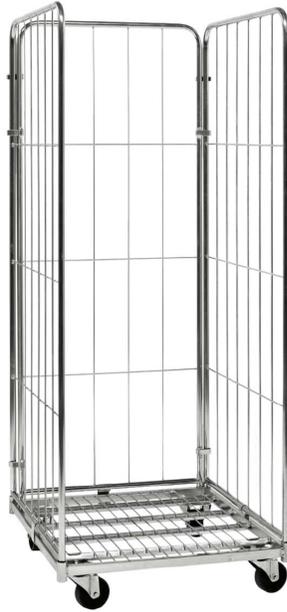

Available in various configurations—2, 3, or 4 sides—with a fixed or foldable base, they are perfect for warehouses, retail outlets, industrial laundries, supermarkets, and shipping companies.

- Standard roll container
- Security roll container
- 3 sided displayed
- Roll container for picking
