COMPANY PROFILE

THE COMPANY

For 38 years **MACAGI** has been designing and creating outdoor spaces for personal well-being and community happiness.

We offer public bodies and private companies products and services for the creation of playgrounds and fitness areas as well as urban furnitures.

Born and raised in Cingoli (MC), among the hills of the Marche region, MACAGI draws inspiration from nature and its colors to create solutions that integrate harmoniously with the environment.

MACAGI is a family run Company with a team of **22 employees, external collaborators and 4 specialized assembly teams** that guarantee high service standards, from consulting to product mounting, inspections and maintenance.

Our production site extends over **11,000 m2** and includes a 5-axis CNC, a new powder coating system and machinery for the processing and finishing of wood, aluminum and polyethylene. Our structure is constantly evolving, with a regularly updated production system and a technical and design office equipped with cutting-edge softwares.

Mission

Our Mission is to guarantee all children the opportunity to play outdoors in complete freedom and safety, contributing to the well-being of communities through the creation of more welcoming and usable urban spaces.

Vision

At MACAGI, we believe that outdoor well-being should not be limited to a single aspect of everyday life, but should embrace play, movement, sociability and inclusiveness.

Each of our products is designed to unite people, stimulate their physical and mental wellbeing and promote a strong sense of community.

**Our
values**

Our commitments

ITALIAN DESIGN

Our Made in Italy is a combination of tradition, innovation and attention to detail. Every product we create is born from the encounter between our distinctive design and the best production practices, with the aim of offering solutions that not only comply with the most recent regulations, but are also avant-garde in terms of functionality and aesthetics. Our internal design office is the beating heart of this research.

HIGH-QUALITY MATERIALS

In every project we carry out, we carefully consider the life cycle of our products, guaranteeing a reduced environmental impact. Almost all of the materials we use are 100% recyclable or come from innovative and sustainable post-consumer recycled materials, helping to reduce waste and promoting the circular economy.

SUSTAINABILITY

Every step we take is designed to reduce environmental impact and guarantee safety, so that our products can accompany future generations in a healthier and safer environment.

Total CO2 emissions avoided from the use of renewable sources energy:
40.65 tons

Total CO2 storage on wood: 1.89 tons

Valuable collaborations

ONE FOR ALL - UNIVERSAL DESIGN

All together with the same spaces, all together in the same place, with extra attention.

A design developed in collaboration with experts, including Lega del Filo d'Oro, an important point of reference and precious ally in the development of inclusive playgrounds.

MACAGI SUPPORTS SPORT

We believe that the well-being of a community also passes through physical activity, at all ages.

For this reason, Macagi proudly supports local champions at national and international level, who with their victories and hard work share with us the values of teamwork, perseverance and continuous innovation.
