

● *Agentic AI manages the ops*

We choose and manage the best logistics operators automatically.

THE PROBLEM

Finding the best logistics operator is impossible. The old way.

Brands never get the best price for value.

4-6

operators managed manually per brand.

91%

of SMBs say enterprises have a logistics advantage.

30%

higher logistic cost for SMBs vs enterprises.

TODAY - MULTIPLE VENDORS, ZERO UNIFIED LAYER

Brand picks on price.

Gets locked in. Tied to one operator.

Operator underperforms.

Can't switch. Can't add more.

Overpaying. Forever.

The supply chain **isn't broken**.
Brands just don't know how to navigate it.

THE SOLUTION

The entire supply chain. Navigated for you.

AI always finds the best value for the ideal price.

HUNDREDS OF OPERATORS

Best Price for Value
AI SELECTS BEST OPERATOR

-15%
logistics costs
vs managing alone.

-70%
operational time
per brand.

THE NETWORK

AI AGENTS · 24/7

Monitoring, optimizing, flagging.
Ops run themselves.

+ RECOMMERCE

Excess stock → revenue. Zero cost. PARTNERING WITH: *ManyCo+*

WHY NOW

3PLs were built before agentic AI. Next stop 4PL.

WHY 4PLS DIDN'T EXIST BEFORE

Hundreds of operators. Thousands of daily problems. Only agentic AI makes it manageable. For the first time.

3PL margin shrinks as they hire. Our margin expands as agents deploy.

3PL MODEL VS SPS 4PL MODEL

	3PL	SPS (4PL)
 Scale by	Hiring people	Deploying agents
 Assets	Own everything	Own nothing
 Costs	Fixed overhead	Near-zero variable
 AI-native	Retrofitting	Born this way
 Operators	Locked in one ×	Best one, always ✓

DATA FLYWHEEL

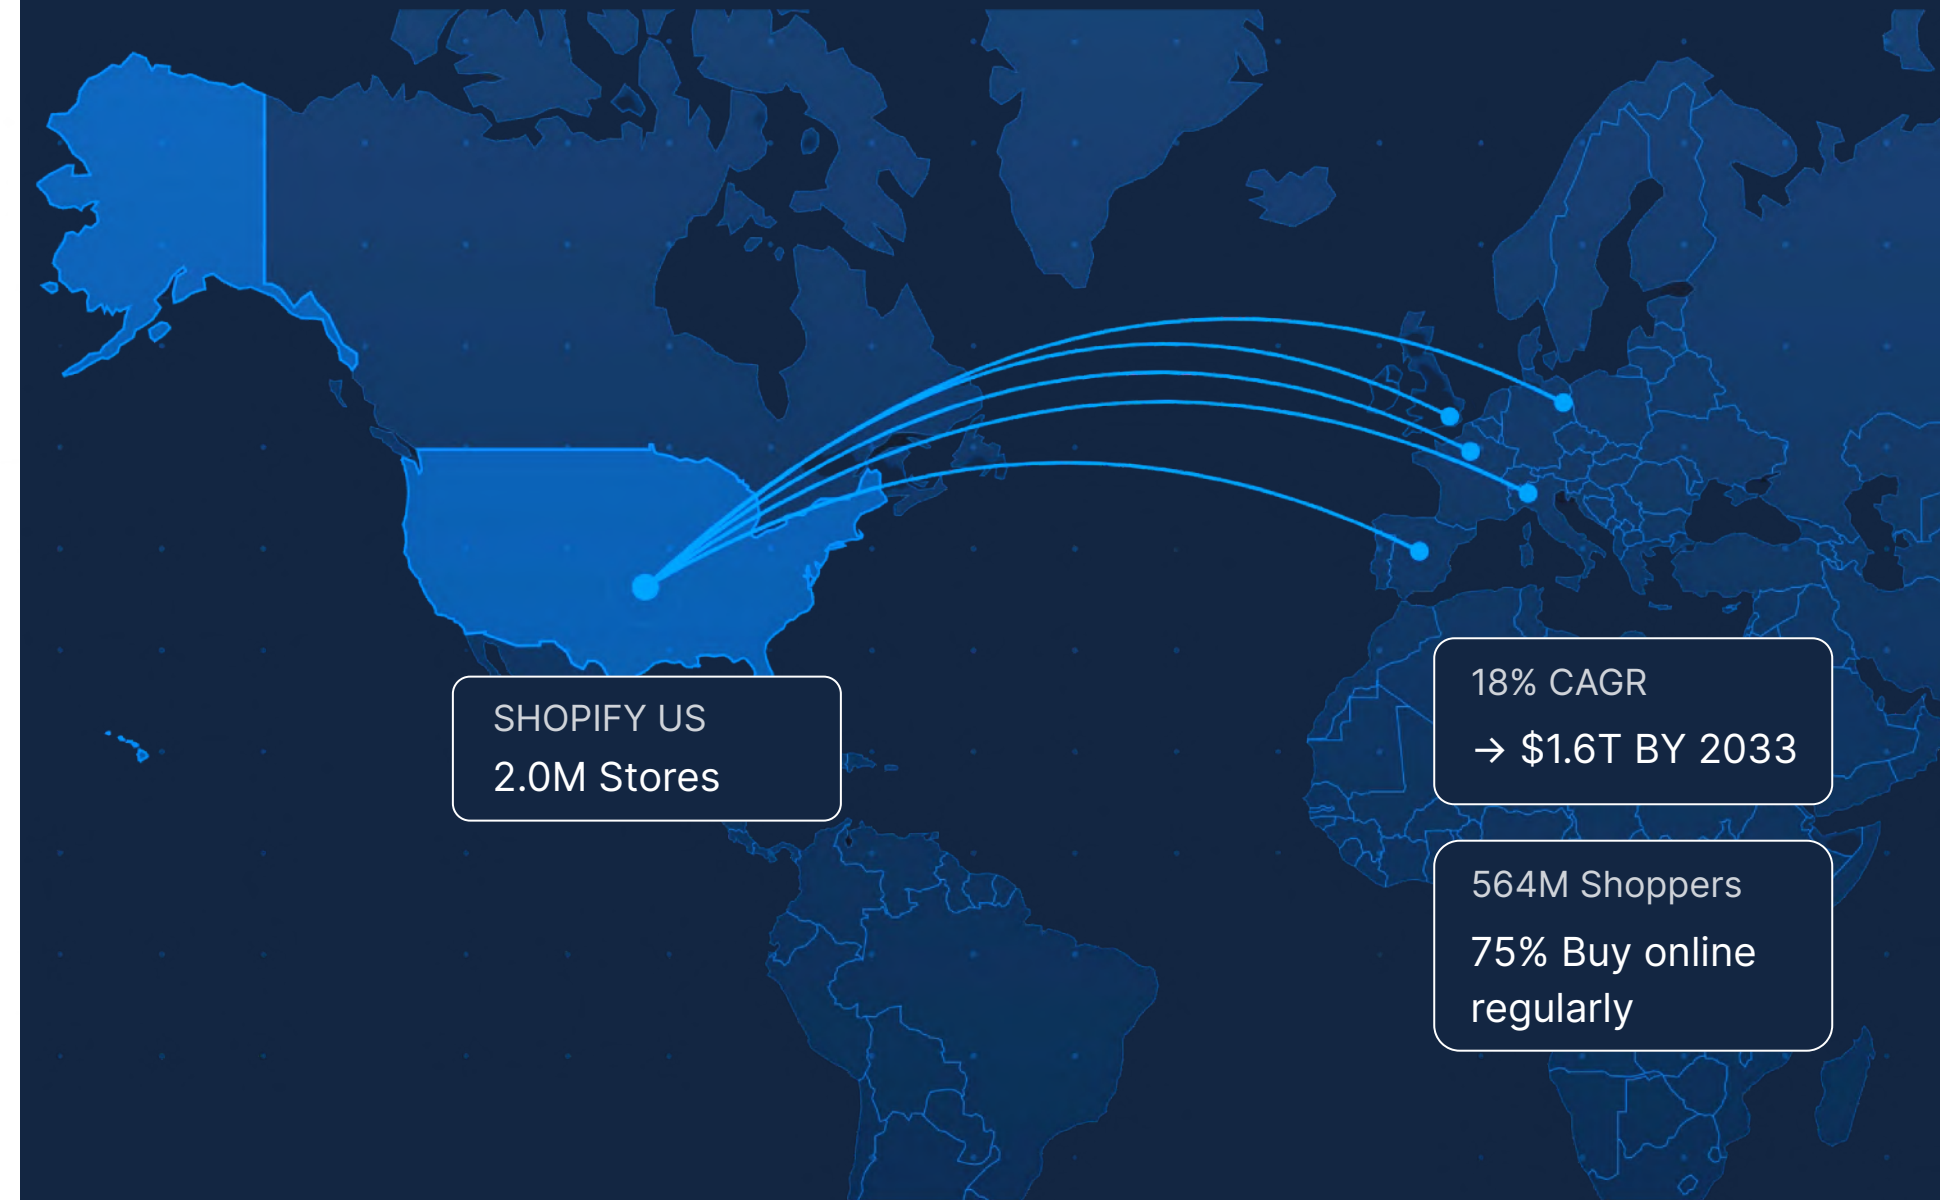

More clients → More data → More Operators → Better Routing → Lower Cost

**For operators: one contract, enterprise-level volume.
No chasing SMBs.**

MARKET OPPORTUNITY

A \$660B market US brands can't reach.

EU e-commerce hits \$1.6T by 2033. Logistics complexity and compliance is the primary barrier. SPS removes it.

THE TEAM

Built by people who lived the problem.
