- ▶ Fresh and lovely identity that satisfy the **international taste**
- ▶ Experience worldwide **52+ markets**
- ▶ Nice and catchy **labels retail friendly** with a strong storytelling
- ▶ Great sinergies with local **Italian artists**
- ▶ **Post sales support** with market visit and incoming
- ▶ *Enjoying the Italian Life Style*

# Where Land meets Passion

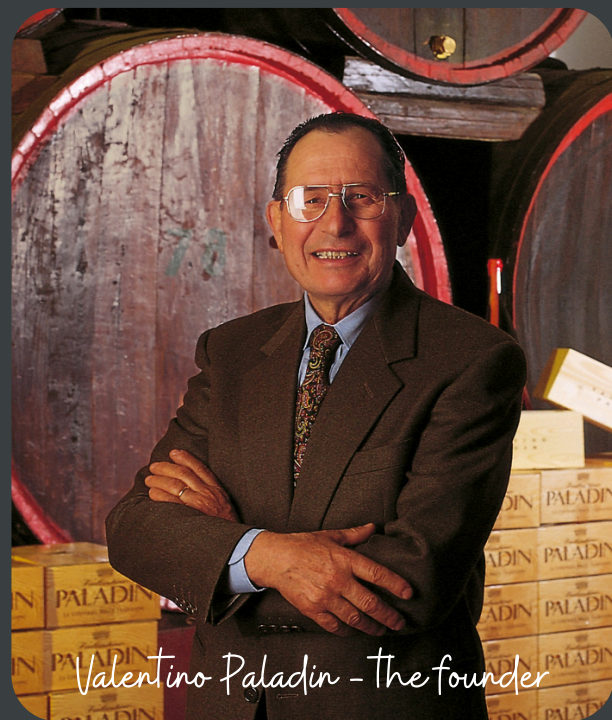

In the Venetian lands of **Caranto**, wine amphorae from the Roman era still emerge today. In this territory Paladin began its history of vineyards and wines way back in 1962 with the scents of the nearby **Pre-Alps** and **Venice**, told by a generous cellar.

**Hectares: 100 – international and indigenous grapes**

# A family for Wine

**Paladin Vigne e Vini** is the **first winery** of the whole Casa Paladin group, it's a family owned estate **founded by Valentino Paladin in 1962**, in Motta di Livenza, near Treviso.

It's located at the borders of the Venetian land where we moved in the mid-70s, in Annone Veneto, a historic village located in the Roman Postumia road. Passion, research, dedication and respect for traditions are the main values that have been guiding his philosophy since he created his own cellar.

Valentino was strongly determined to enhance the territorial typicalness of our Lison-Pramaggiore area, by producing excellent wines. Carlo, Roberto, Francesca, Martina and Valentino represent the second and third generations of winemakers.

## Sustainable Viticultural Quality

Paladin proceeds in the direction of Sustainable Viticultural Quality, focused on the universal value of the vineyard-cellar ecosystem by conceiving the **"4V" project** as a philosophy of sustainability in its estates with deep respect for the motherland and the future generation.

# 4V Project

4V Project is a protocol created by Paladin that aims to promote sustainability with a 360° approach: respect for the Vine, safeguarding the Green, producing Sustainable Wine and protecting Life.

The company are certified **Vegan, Equalitas** (Environmental, economical and Ethical sustainability) and **IFS** (standard for quality and safety production process).

## VITE – VINE

- PRECISION VITICULTURE (**VIGOR MAPS**);
- FERTILIZATION IS DONE USING **ONLY ORGANIC MATERIAL** (COMPOST)
- **NO CHEMICAL HERBICIDES** ARE USED;

## VERDE – GREEN

# Agricanto

## The Venetian liqueur

Raboso wine, venetian autochthonous grapes, fine grappa, cherry juice and almond are the perfect ingredients for an unforgettable flavour. Agricanto has a deep ruby-red colour and aromas of cherry and almond that awake the senses and seduce you with its long lasting taste.

### HOW TO DRINK IT

As it is

Mixology

Patisserie
