The Company

Kemper Group was founded in 1953 and established its headquarters in Parma. With more than 70 years of presence on the market, it is owned by the third generation of Mori family. The team of 75 employees is efficiently supported by a high level staff.

The Group is composed by 4 units in Europe:

- **Kemper** (Parma – Italy):
7.000 m² - Offices and production
- **Plein Air International** (Modena – Italy)
3.000 m² - production
- **K France** (Paris – France):
1.000 m² - commercial and marketing activity
- **Logistics Platform** (Italy):
6.000 m² - warehouse

In addition, Kemper owns an office located in Ningbo, China and has a nice 200m² Exposition area in Parma.

GAS CARTRIDGES MADE IN ITALY SINCE 1953

Our gas plant

Our gas plant Plein Air International situated in Mirandola (Modena) produces a wide range of gas cartridge in different sizes and mixtures.

Plein Air International's plant is composed by 3 lines, in continuous upgrade, for the automatic production of pierceable and valved cartridges. One of these lines was introduced at the end of 2022 increasing significantly the number of cartridges produced per year.

green VISION

TODAY KEMPER GROUP IS READY TO TAKE ON A NEW CHALLENGE, BECOMING A DRIVING FORCE FOR CHANGE.

We have implemented a new internal policy, which aims to reduce, to the lowest level, the negative impact our business activities have on the environment; we are focused on managing virtuous products, packaging and disposable items, with the aim of combining economic and environmental benefits.

ECO Friendly Packaging

New packaging solutions for progressive plastic reduction.

ECO Design

Search for new compact designs that can optimize logistics service for the same performance while reducing CO2 emissions.

ECO Friendly Actions

From removing plastic bottles to investing in plant and machinery to reduce emissions. This path to higher consciousness will involve Kemper Group across the board.

Powered by the sun

A photovoltaic system that allow us to produce renewable energy independently and significantly reduce our emissions.

The market

Our B2B distribution channels are:

Retail chains:

DIY, HO.RE.CA (Hotel, Restaurant, Café), garden centers.

Professional shops:

hardware tools/ plumbing/ installations/ automotive.

Wholesalers in the fields of:

Kemper in the world

We are present in 54 countries

Safety & top quality

Kemper Group actively participates in European standardization for LPG appliances (CEN/TC 181) and advises working groups WG1 and WG3. Its products are certified by TÜV, Certigaz, and Bureau Veritas, and the company is an authorized testing laboratory recognized by Certigaz.

Kemper has passed a SMETA audit, which evaluates labor standards, health and safety, environmental performance, and ethics.

Corporate Certifications:

ISO 14001: Environmental management and sustainability

ISO 45001: Occupational health and safety

ISO 9001: Quality management (since 2025)

These certifications reflect Kemper's commitment to sustainability, employee well-being, and quality.

Kemper Group has also achieved the EcoVadis Bronze Medal, ranking in the top 35% of over 150,000 companies globally for sustainability, with strong performance in environment, ethics, labor practices, and sustainable procurement.
