CANTINA DEL TRASIMENO

HISTORY AND TERRITORY

The company has been founded in **1957**
and now we have **200 members**

Production area : the hills around Trasimeno Lake

Extent of vineyards : HA 230

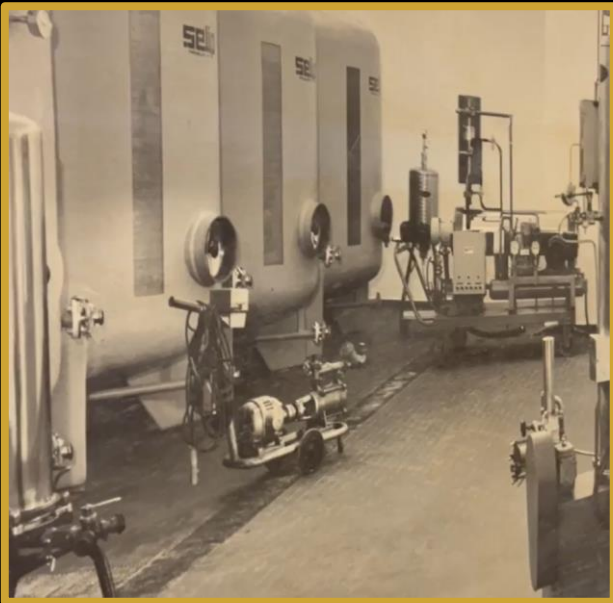

Average altitude of vineyards : 250/300 m. a.s.l.

Vine training : cordon spur and Guyot

Soil white grapes : sedimentary formation. Mostly loose soil, with yellow sands, partly with abundant gravel. Medium limestone content.

Soil red grape : Trasimeno Gamay; sedimentary formation. Soil texture from sandy-clayey to sandy, with occasional outcrops of clay.

Soil for other red grapes : sedimentary formation. Medium consistency soil, considerable amount of gravel. High limestone content.
