ELASTICITY ISN'T JUST FOR SUPERHEROES

Gliding partitions make office spaces more flexible, adaptable, and yes... elastic. This is just one of many ways you can eliminate office distractions. Very few openings are the same. Nearly every Glide we sell is custom in some way. So go ahead, throw your crazy requirements at us and we'll do everything in our power to deliver.

MOVABLE WALLS

SINGLE PANEL

Single panel systems provide the ultimate in versatility and flexibility along with offering multiple room setups, changes in the location of pass doors and work surfaces, and remote storage.

- Solves complex layout challenges.
- Satisfies high ceiling requirements with custom engineered panels up to 30-feet high.
- Accommodates wide variations in floor conditions.
- Simplifies setup and storage with the use of the Smart Track™ suspension system.
- Often used in conference, multi-purpose, hospitality, and convention facilities.

PAIRED PANEL

Available in top-supported or floor-supported configurations, the center-hung, paired panels are perfect for straight-line openings and offer quick, easy setup.

- Hinged together in groups of two, facilitating quick, easy setup.
- No auxiliary storage track or support required.
- Economical overhead support of straight-line track.
- Smooth operation.
- SOSS® Invisible Hinges or Heavy Duty Barrel Hinges (lifetime guarantee).
- Simple automatic bottom seals for efficient operation.
- Suited for applications that require exceptional durability, acoustic control, and frequent use.
- Panels are designed to be stored at either or both ends of an opening.
- Frequently used to divide classrooms, meeting rooms, or office spaces.

CONTINUOUSLY HINGED

Continuously hinged panels are connected together in a train, extending as one complete unit. Electrically operated for straightline openings and simple operation.

- Setup is quick and effortless.
- Bottom seals are set automatically when the partition is fully extended.
- SOSS® Invisible Hinges or Heavy Duty Barrel Hinges (lifetime guarantee).
- Keyed switches prevent unauthorized operation and integrated safety systems insure safe operation for electric partitions.
- Electrically operated partitions are frequently used in school gyms, classrooms, hotels, and board rooms.

SINGLE PANEL PARTITIONS OFFER THE GREATEST VERSATILITY FOR SPACE DIVISION NEEDS.

For the largest openings, storage in remote pockets, and in complex partition layouts, the single panel is the operable partition of choice.

ADVANTAGES

- Solves complex layout challenges.
- Satisfies high ceiling requirements with custom engineered panels up to 30-foot high.
- One piece panels are available in heights up to 30-feet.
- Simplifies setup and storage with the use of the Smart Track suspension system.
- Accommodates wide variations in floor conditions.
