

ITALIAN TECHNOLOGY FOR THE INDO PACIFIC

INDO PACIFIC 2022, 10-12 May 2022
ICC Sydney, Hall 2, Stand 2K24

Connect with one of the world's largest shipbuilding groups; with a global supplier of Cyber Intelligence technology and solutions for Defence, Intelligence and LEAs; and with other companies specialised in Electronic Defence equipment and systems, in complex and complete weapon control systems, and in high-performance milling machines and machining centres for aeronautical/aerospace, military and marine applications.

TABLE OF CONTENTS

The Organisers	3
Participating Italian Companies	4
Elettronica	4
Eurocontrol	4
Fincantieri	5
IPS	5
Jobs	6
NablaWave	6
Pietro Carnaghi	7
Sitep Italia	7

THE ORGANISERS

ITA – Italian Trade Agency

www.ice.it/en

ITA - Italian Trade Agency is the governmental agency that promotes Made in Italy throughout the world, supporting the growth of Italian companies and contributing to the attraction of foreign investments in Italy. ITA works closely with all the stakeholders appointed for the internationalisation of the Italian market.

Italian Secretariat General of Defence and National Armaments Directorate

www.difesa.it/en

The Secretary General directs, controls and coordinates all the activities of the Ministry of Defence's General Directorates. Main responsibilities: the implementation of high-level administrative directives issued by the Minister of Defence, the operation of the Defence technical-administrative area, the fostering and coordination of technological research relating to armament materiel, the procurement of material, equipment and weapon systems for the Armed Forces, and the support to the Italian Defence industry.

AIAD – Italian Industries Federation for Aerospace, Defence and Security

www.aiad.it/homepage/aiad-chi-siamo/?lang=en

AIAD is the Federation that represents the Italian Companies for Aerospace, Defence and Security. It includes almost all the national enterprises that operate with advanced technology in the design, production, research and services activities for the civil and military aerospace, military navy and army sectors along with all the related electronic systems. AIAD maintains strong relationships with national, international or NATO related institutions.

PARTICIPATING ITALIAN COMPANIES

ELETTRONICA GROUP

●●● Defence | Cyber | Security

Electronica

www.elettronicagroup.com

Electronica S.p.a., founded in 1951, is a European leader in the production of Electronic Defence equipment (EW). The experience in the design and production of EW equipment and systems acquired over 60 years guarantees reliable, effective solutions able to satisfy the changing needs of modern defence. Electronica supplies all solutions, systems and products in the EW field: from interception capacity during law enforcement operations to surveillance of risk areas, to the self-protection of platforms in hostile zones, up to monitoring the electro-magnetic scenario.

Eurocontrol develops, manufactures, tests and qualifies custom items and complex systems for military and defence projects. Based on customer requirements, Eurocontrol tailors life extension projects to provide the most suitable solution and assists in drafting technical specifications for retrofitting or upgrading older ships. The company also provides naval and avionic applications with complex and complete weapon control systems, following national and international rules to design according to required military standards.

Eurocontrol

www.eurocontrol-spa.com

FINCANTIERI

Fincantieri

www.fincantieri.com

Fincantieri is one of the world's largest shipbuilding groups. It is a leader in the construction and transformation of cruise, naval and oil & gas and wind offshore vessels, as well as in the production of systems and component equipment, after-sales services and marine interiors solutions. The Group boasts first-class references in infrastructures and is a reference player in digital technologies and cybersecurity, electronics and advanced systems.

IPS

www.ips-intelligence.com

IPS is a global supplier of Cyber Intelligence technology and solutions for Defence, Intelligence and LEAs. The company specialises in designing products for Maritime Intelligence, Open Source Intelligence, Lawful Interception, Internet Monitoring and Electronic Surveillance. AQUA is the Multi-Sensor Fusion platform for Strategic Maritime Intelligence.

Jobs

www.jobs.it

Established in 1979 and based in Piacenza, Jobs Automazione S.p.a. integrates the Italian brands Jobs, Rambaudi, Sachman and Sigma. These four historical brands are world leaders in the production of high-performance milling machines and machining centres, in particular in the field of high-speed and high-power/torque continuous 5-axis machining technologies for aeronautical/aerospace, military, automotive, mould & die, marine, general mechanics, and energy applications.

NablaWave offers cutting-edge solutions, improving energy and structure performance. We reach the required result in the quickest and least expensive way, also exploiting innovative methodologies derived from experience in aerospace. Past projects: development of water jets, hull morphing, design of hovercraft hulls, analysis and optimisation of electric ship propulsion systems with particular reference to ROVs, etc. We also developed a tool for the automatic routing of piping for onboard installations.

NablaWave

www.nablawave.com

PIETROCARNAGHI

Machine Tools

Pietro Carnaghi

www.pietrocarnaghi.it

Pietro Carnaghi S.p.a. produces Vertical multi-tasking turning and milling centres, Milling Gantry multi-tasking machines, FMS (Flexible Manufacturing Systems).

SitepItalia

Sitep Italia can boast a long tradition of design, development, manufacturing and support of advanced electronic systems for military and commercial applications since 1975. Born as a small manufacturer of military equipment for the Italian Navy, continuous investment allowed the company to gain a leading role as a supplier to the Italian naval market, export its innovative technology all over the world, diversify its technology and expand into commercial application.
