**ITALIAN TRADE AGENCY**

**ICE - Italian Trade Commission**

The Italian Trade Agency (ITA) is the Government agency that supports the globalization of Italian firms, implementing the strategies of the Ministry of Economic Development.

ITA helps to develop, facilitate and promote Italian economic and trade relations with foreign countries, focusing on the needs of SME's (Small and Medium – sized enterprises), their associations and partnerships.

ITA sustains Italian firms in their internationalization processes, in the marketing of Italian goods and services while promoting the "Made In Italy" image around the world, and it is directly involved in attracting foreign direct investments.

ITA provides information, support and consultancy to Italian companies on foreign markets, promoting and fostering exports and cooperation in all areas – industry (consumer and capital goods), agricultural technology and agri-food, services, and training – with the aim of increasing and making more effective their presence on international markets.

ITA works closely with the Italian Regions, the network of the Italian Chambers of Commerce, business organizations and other public and private entities.

ITA headquarter is in Rome and its network of offices around the world act as "Trade Promotion Offices and/or Sections" of the Italian Embassies or Consulates.

BOOTH # 1974/1976

MEPRA was founded in 1946. Essential requirements are Design, fashion and trends, always according to the function and practicality of the object, together with good quality of raw material: infact, aluminum production, was immediately replaced by chromiumplated brass, and since 1951, from 18/10 stainless steel. Cooperation with famous Designers (Arch. Mangiarotti), as with other young talented designers, is the way MEPRA follows to keep always in accordance with the taste of consumers. Big investments have been made in high-level working technologies and innovative processes too: our mission in fact, is to transmit emotions with our elegant but inexpensive creations, practical and easy to use. Objects made to witness the tradition, the culture and the style of the Italian Way of Life.

BOOTH # 1977

MLE was born in Paris 35 years ago. The key to the success of the brand is the strong specialization. Working closely with luxury hotel Interior Designers has allowed us to understand which were the needs of our common customers.

Our culture of lighting allowed us to respond to these needs with innovative, functional and, above all, beautiful products. In 1986, when the lamp technology provides us with the miniaturized low-power halogen lamps, MLE develops the first reading lamp with adjustable arm. The new device makes light and can be oriented without burning. MLE arises then a new concept of illumination which is then developed with the introduction of the LEDs. In 1998 MLE moves to Florence (Italy) where is available a fantastic manufacturing network dedicated to luxury goods.
