The Embassy of Italy in London is one of the most important Italian bilateral embassies in the world. The Embassy represents Italy in the United Kingdom of Great Britain and Northern Ireland and among its functions it safeguards the interests of Italy and its citizens within the limits set by international law, negotiates with the government of the United Kingdom of Great Britain and Northern Ireland, gathers information on conditions and events in the United Kingdom and report back to the Italian State, and promotes friendly relations and develop economic, cultural and scientific collaborations between Italy and the United Kingdom. The Embassy coordinates a network comprising three consulates (London, Manchester and Edinburgh), two cultural institutes (London and Edinburgh), an Italian Trade Agency Office and an Italian National Tourist Board Office. The Embassy comprises a number of departments, staffed by personnel of the Italian Ministry for Foreign Affairs and International Cooperation as well as by staff from other ministries and public institutions.

ITA is the Governmental agency that supports the business development of our companies abroad and promotes the attraction of foreign investment in Italy. With a motivated and modern organization and a widespread network of overseas offices, ITA provides information, assistance, consulting, promotion and training to Italian small and medium-sized businesses. Using the most modern multi-channel promotion and communication tools, it acts to assert the excellence of Made in Italy in the world.

 www.confartigianato.it

Confartigianato embodies an 80-year legacy, standing steadfastly alongside individuals, enterprises, and local communities that have shaped the past and that, with unwavering commitment and passion, continue to forge the future. For eight decades, it has been the largest European network providing representation and services for the craft sector and for micro and small enterprises—a trusted point of reference that is built on confidence and grows together with those who create value every day through their work.

Tiziana Burrini and Attilio Lapietra are professionals primarily active in the fields of interior design and the promotion of luxury craftsmanship. Their curatorial approach stems from constant research on materials, manufacturing techniques, and contemporary languages, combined with a consolidated network of collaborations in the world of design. A creative studio based in Italy, specialized in directing events whose distinctive element lies in the meeting of fashion, design, craftsmanship, and interior design. Each exhibition project is conceived as a narrative capable of showcasing Made in Italy, interpreting its identity, excellence, and aesthetic sensibility. Over the years, they have led artistic directions and coordinated international initiatives, contributing to the promotion of Italian design culture through immersive experiences and valuable content.

ARCAHORN

Arcahorn was founded in 1958 on a precise vision: to elevate natural horn into the realm of collectible design. Entirely manufactured in Italy, each piece reflects a dialogue between heritage craftsmanship and contemporary form. Production is intentionally limited, preserving rarity and long-term value. Natural horn is not applied decoration — it is identity. Selected, cut, shaped and polished by hand, every surface reveals organic tonal depth that cannot be industrially replicated. No two pieces are identical; each carries its own chromatic signature. The horn used by Arcahorn originates from cattle raised in open, non-intensive environments. It is collected only at the end of the animal's natural life cycle. No animals are bred or harmed for the purpose of production. This ethical sourcing approach ensures respect for nature while transforming a naturally available material into refined design.

LINEASETTE

Designers and Master Artisans, we are one big family! Since 1977 we have been creating fine and elegant artworks using a noble ceramic material, porcelain stoneware. Fired at 1200°C, this material, becomes durable and waterproof. The matte and monochromatic coating lends a rough dotted colouring with an elegant chiaroscuro effect, gives originality and recognition to each creation. Our workshop was born in Marostica, in the Land of Venetian Ceramics, where the ancient art that enhances the resources of the area has been practiced since the 18th century. Here is where we carefully and passionately preserve centuries-old traditions, reinterpreting them in innovative and contemporary forms. Our proposal of home decor and gift items includes collections ranging from vases, trays, and lamps to minimalist design sculptures of figures and animals, as well as paintings, sacred objects, clocks, and umbrella stands. Our design is minimal and modern. Lineasette's color range is characterized by delicate and elegant pastel tones, which gracefully define the object.

ZANETTO

ZANETTO

HANDMADE IN ITALY

Zanetto is an Italian craftsmanship laboratory, dedicated to the creation of noble metals art objects for living, table decoration and art pieces in limited edition. Founded in 1963, the company boasts more than fifty years of experience and makes use of the most talented Italian workers in the silver sector to produce innovative objects featuring a sophisticated design. By skilfully combining the most traditional work methods with the most original artisanal endeavours, the company creates alluring, high-quality works that can decorate any setting and satisfy those who love to surround themselves with priceless and timeless values, like Uniqueness. "Our aim is to enrich and enhance metals by blending the best that man can express: craftsmanship and creativity. The criterion that guides us along this path is the constant research for simplicity: this evokes ideas of pure, eternal harmony and well-being, to both liberate and satisfy the spirit. Thus BALANCE is our measure, reflected, restored and transfigured by the LIGHT of silver. The very light I like to think of as a gift within each of the articles produced by our workshop" (Enrico Zanetto)."
