TRADE AND INVESTMENT

OPEN DOORS TO A WORLD  
OF OPPORTUNITIES

ITA - Italian Trade Agency is the Governmental agency that supports the business development of our companies abroad and promotes the attraction of foreign investment in Italy.

With a motivated and modern organization and a widespread network of overseas offices, ITA provides information, assistance, consulting, promotion and training to Italian small and medium-sized businesses.

Using the most modern multi-channel promotion and communication tools, it acts to assert the excellence of Made in Italy in the world.

# ERRE TI COMPOSITE SOLUTIONS

Via della Masolina n. 5 | 10040 Piobesi Torinese, TO – Italy

☎ +39 011 98 57 120 | ✉ [info@erreticompositi.com](mailto:info@erreticompositi.com) | 🏠 <https://erreti.eu>

With over 50 years of experience, ERRE TI is a leading company within the composite industry. We combine high-level technology with artisanal excellence in the development, manufacturing and assembly of composite solutions.

The production of composite components and parts for prototypes and small series is our specialty and due to our in-depth knowledge of materials and processes we can work side by side on the engineering of any project to help you plan and de-risk your manufacture.

All design, tooling, prototyping and production services are supported in-house to make every sector Finer, Lighter and Faster.

Inside a full spectrum of services, we can also design mould tools and provide professional advice.

# FABRICA MACHINALE - ROBOTICOM

Via Giuntini, 13 56023 | 56023 Navacchio di Cascina, P – Italy

☎ +39 050 3148655 | ✉ [amministrazione@roboticom.it](mailto:amministrazione@roboticom.it) | 🏠 [www.roboticom.it](http://www.roboticom.it)

ROBOTICOM designs, engineers and offers to the market innovative robotic solutions. With our know-how and the experience gained in more than 20 years in the business, we are able to satisfy every need for automation in many different fields, offering custom made robotic solutions for every single customer.

ROBOTICOM is a brand of Fabrica Machinale Srl, an Epica International company and a pioneer in robotic manufacturing solutions.

ROBOTICOM is leader in offering industrial robotic solutions characterized by the use of the most modern hardware and software patented technologies.

More specifically, the hidden treasure of our range of products is in our proprietary integrated programming software: this is our extraordinary added value that makes any imitation attempt a failure.

Our challenge is to make software programming easier and within the reach of all, in order to bring robotic automation inside the most delicate industrial processes, to improve performances and establishing sustainable production practices for better working environments.

# MASMEC

Via delle Violette, 14 | 70026 Modugno, BA – Italy

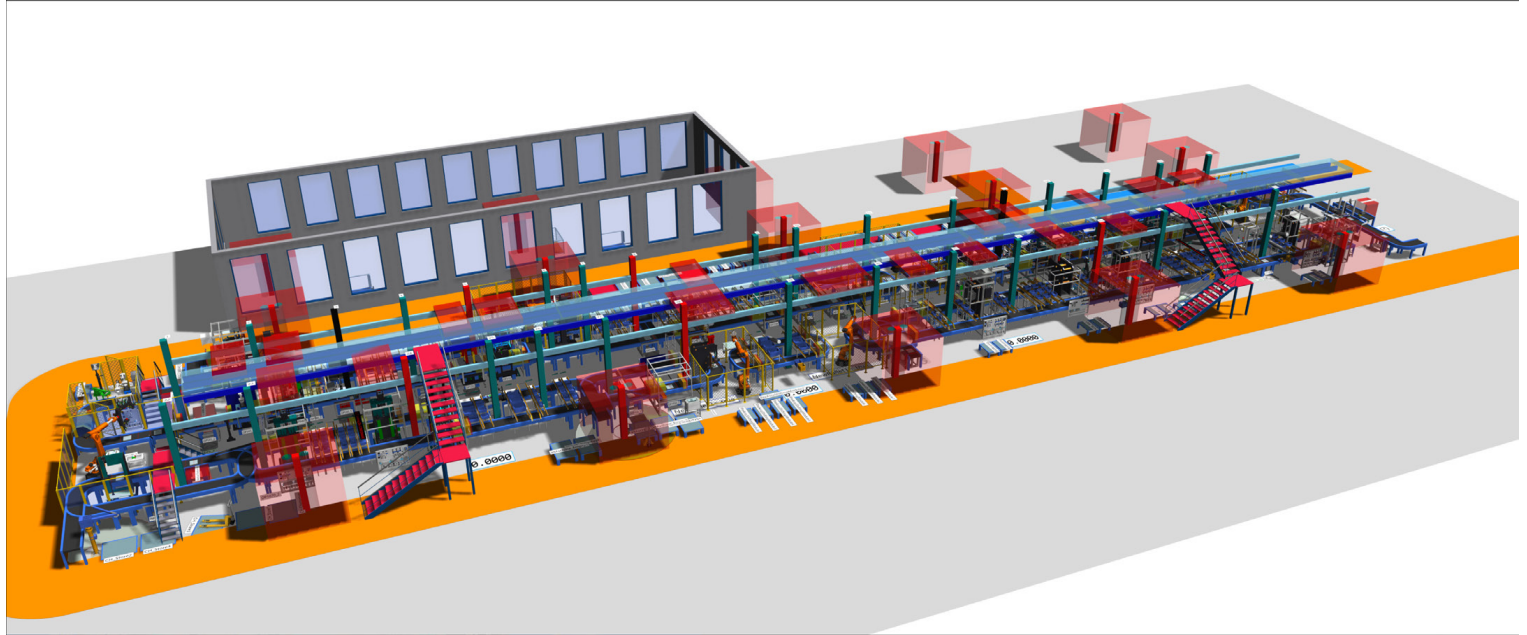

☎ +39 080 58 56 111 | ✉ [info@masmec.com](mailto:info@masmec.com) | 🏠 [www.masmec.com](http://www.masmec.com)

## MASMEC

Masmec is a manufacturer of custom automated assembly and testing systems for automotive components, ranging from massive lines to single test rigs. With 40 years' experience on a global scale, the company now serves mainly the sector of hybrid and electric vehicles. E-axles, hybrid transmissions, electric motors, battery packs, inverters are some of the components for which Masmec designs and builds turnkey solutions.

To deliver bespoke, high-performing systems with a short time to market and improve customer experience, Masmec uses digital technology from the very beginning of each project: digital twins to simulate and optimise logistics and machine functioning in advance; VR to go through design review with customers as well as to support staff training; AR to preview products in a real-world environment and manage access to technical documents; Industrial IoT to monitor machine performance.

Having successfully adopted digital tools in its own process, Masmec also provides consulting services to manufacturing companies looking to undertake digital transformation.

# ORMAMACCHINE

Viale Lombardia 47 | 24020 Torre Boldone, BG – Italy

☎ +39 035 364011 | ✉ [info@ormamacchine.it](mailto:info@ormamacchine.it) | 🏠 [www.ormamacchine.it](http://www.ormamacchine.it)

Since more than half a century ORMAMACCHINE is a leading brand specialized in the production of hydraulic presses for different markets such as composite materials, PU panels, plastic, rubber, wood.

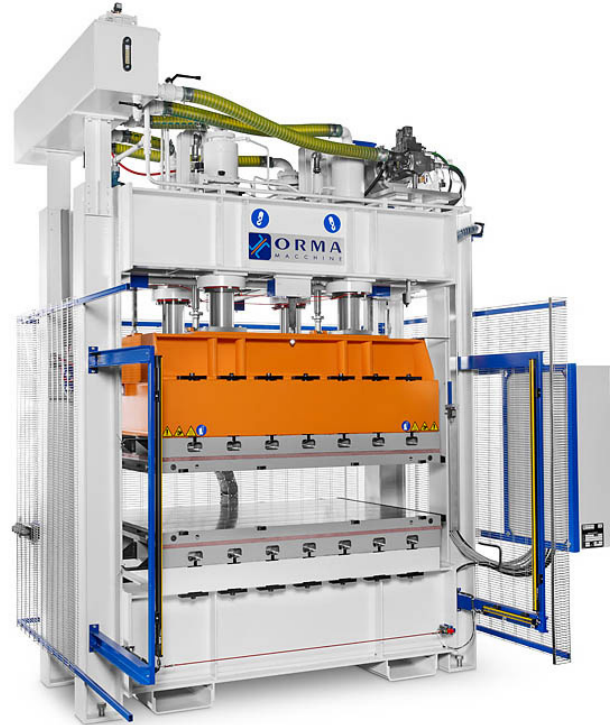

Thanks to an integrated network of production units, research laboratories, development and service centers, we meet the needs of customers with efficient and high-performance products.

ORMAMACCHINE Composites Division offers a wide range of different presses: hot and cold presses with low/high pressure, through feed plants, compression moulding machines, customized presses, machines with special heating/cooling cycles.

We supply all the main industries for Composites such as automotive, aerospace, rail, nautical, defence, medical, sport, building and others.

Our machines can work with a lot of materials and processes, i.e. PU foamed panels (foaming or glueing); printing and coupling Kevlar, fibreglass, carbon fibres, resins with RTM, RIM, BMC, SMC and other processes; coupling and glueing different skins and cores of sandwich panels.

A close cooperation with our customers allows us to face different technological challenges always finding the most suitable solution.

# T.S.T.

Via Venezia, 34 | 10088 Volpiano, TO – Italy

☎ +39 011 98 26 911 | ✉ [info@tstgroup.it](mailto:info@tstgroup.it) | 🏠 [www.tstgroup.it](http://www.tstgroup.it)

The company T.S.T. S.r.l., established in 1982, was born as a screen printing and thermo-impression activity and then specialized in injection molding a few years later, the company's current core business.

Parallel to the molding of thermoplastic technopolymers with mono and bi-injection technologies, the company is equipped with a Tooling department able to assist the customer in the co-design, design and construction phase of molds and related equipment necessary for processing and testing.

Engineering and technical know-how are the strength to complete a "customer focused" service. T.S.T. S.r.l. is also equipped with an ISO 7 certified clean room, a UNI ISO 13485 certified controlled environment where we produce, assemble and test components for the medical sector. Protagonist of a brilliant commercial, technological and structural growth, T.S.T. S.r.l. has always incorporated technological innovation and high automation in processes as its business strategy. In a context in which quality and innovation capacity required in every industrial sector are extremely high, T.S.T. aims to develop a continuous improvement of the product, the process and its management. With the study of new design solutions, new materials and new production processes, T.S.T. wants to embrace innovation to always offer its customers a partnership of excellence.
