ITA - Italian Trade Agency is the government agency, part of the Ministry of Foreign Affairs and International Cooperation, that supports the business development of Italian companies abroad and promotes the attraction of foreign investment in Italy.

With a motivated and modern organization and an extensive network of 87 offices in 74 countries, ITA provides information to foreign companies wishing to establish business relations with Italian partners.

The Italian Trade Agency has always supported the internationalization of Italian companies, organizing Italian pavilions at the most important international trade fairs, business visits to Italy, workshops and seminars abroad to present Italian technologies and ideas.

ITA also provides support, advice, promotion and training to Italian small and medium sized enterprises. Using the most advanced multi-channel promotional and communication tools, to promote the excellence of Made in Italy throughout the world. Our office in Madrid is the ideal gateway to the Spanish and Portuguese markets.

Passenger Terminal Expo 2025 (PTE) is one of the most important international meetings in the aviation and airport services sector and represents an opportunity to discuss and exchange ideas on topics related to technologies and investments in airport infrastructure.

For the first time, the Italian Trade Agency, in partnership with Air Tech Italy, will participate in PTE 2025 in Madrid with a 252 square meter pavilion. Italy will be represented by a group of 14 innovative companies developing new technologies and infrastructures for airport development.

On this occasion, I wish you a fruitful visit to our pavilion, confident that PTE will be the best opportunity to further develop and strengthen the relationship between you and the Italian companies in technology and airport infrastructure sector.

Giovanni Bifulco
Director of ICE Madrid Office

AIR TECH ITALY

Air Tech Italy is the leading Trade Association representing Italian companies specialized in solutions, products, technologies and services for airports, airlines and air traffic control.

We bring together best-in-class companies to deliver innovative integrated solutions using the latest technologies and the highest level of expertise.

We are the partner to international companies looking for best-in-class Made in Italy solutions, connecting them with Member companies to work together on new integrated solutions by combining the right products or the right technologies.

Air Tech Italy and its Members stand for Internationalization, Innovation and Sustainability.

Air Tech Italy was founded in July 2020 with the institutional patronage of ENAC (Italian Civil Aviation Authority), aiming to bring together the best-in-class Italian aviation-oriented companies.

Air Tech Italy supports its Member companies through networking, providing business intelligence, and organizing workshops, trade missions, and international trade fairs.

OICE

OICE is the employers' Association, belonging to Confindustria (the Confederation of Italian Industry), which represents Italian engineering, architectural and technical economic consulting organizations.

Founded in 1965 OICE unites all the major Italian engineering and architecture companies and most of the best qualified small and medium firms in the sector. OICE operates in 4 major areas: representing and safeguarding category interests, promoting the culture of organized engineering, providing services for members and promoting internationalization of Italian Engineering.

OICE is member of FIDIC - International Federation of Consulting Engineers and EFCA - European Federation of Engineering Consultancy Associations. OICE participates to the international activities and Italian Institutional missions, promotes special partnerships, sustains the participation of the Italian Consulting companies to the tenders organized by the International Financial Institutions (WB, EBRD, AfDB, ADB, IDB etc...). Areas of specialization are urban and territorial planning, architecture and cultural heritage, civil engineering, transports, environment, energy, agriculture and rural development.

AVIATION INFORMATION &
COMMUNICATION ENGINEERING

With 20 years of experience, A-ICE specializes in designing, developing, and managing innovative IT solutions to optimize operations for airports, airlines, and ground handling services. We collaborate closely with clients to enhance efficiency, accuracy, and passenger experience.

Our solutions include Airport in Cloud (AiC) for managing flights, passengers, baggage, and operations. The Departure Control System (A-DCS) streamlines check-in and boarding, while the Weight and Balance System (A-WBS) ensures precise aircraft loading. The Baggage Reconciliation System (A-BRS) improves baggage tracking, and the Dynamic Display System (A-DDS) along with the Flight Information Display System (A-FIDS) provides real-time passenger updates. Additionally, the Handling Database (A-HDB) serves as a turnaround management system, offering comprehensive oversight during ground operations.

A-ICE is an IATA Strategic Partner and holds ISO 9001, ISO 27001 and ISO 14001 certifications, reflecting our commitment to quality, information security, and environmental sustainability.

From Ground to Cloud,
We've Nailed **IT**.

TE2C

TECNO ENGINEERING 2C S.r.l.
Airport planning & design

Tecno Engineering 2C (TE2C) is an engineering firm that gained an acknowledged position as designer and consultant in the aviation field in the last 30 years. TE2C carries out all the activities of preliminary study, planning and design of aeronautical infrastructures such as airports and heliports, on both “air-side” and “land-side”, from the scratch to the final product. With a staff of over 30 elements, whose competences answer to the various needs of the airports’ sector, TE2C has created a large and diversified portfolio of realizations in many regions, both in Italy and worldwide.

TE2C also provides consulting services on the advanced use of these systems. TE2C also designs Instrument Flight Procedures such as STAR, IAL and SID, being approved and certified by ENAC – the Italian Civil Aviation Authority, after successfully overcoming its severe qualification procedures.
