ITA – Italian Trade Agency – Athens Office 

Ministero degli Affari Esteri
e della Cooperazione Internazionale

INTRODUCTION

The Italian Trade Agency (ITA) is the governmental organization coordinated by the Ministry of Foreign Affairs and International Cooperation, dedicated to supporting the international growth of Italian companies and attracting foreign investment to Italy. Through its global network of 69 offices and 18 satellite units, ITA provides SMEs with the consulting, assistance, and promotional tools needed to excel in the global market.

Our Malta Desk Office acts as a strategic bridge, fostering innovation and business synergies between the Italian and Maltese ecosystem. At the 2026 edition of the EU Startup Summit, the Italian Pavilion proudly hosts a delegation of 8 high-potential startups. This brochure is designed to guide you through our pavilion, offering a direct window into the ingenuity of a new generation of Italian entrepreneurs.

These companies represent the cutting edge of 'Made in Italy' innovation, showcasing disruptive solutions powered by Artificial Intelligence, the Internet of Things (IoT), and advanced digital technologies. Their platforms are set to redefine key sectors such as:

- Healthcare & Life Sciences
- Smart Manufacturing & Logistics
- Fintech & Cybersecurity
- Smart Cities & Future Mobility
- Digital Marketing & Emerging Tech

We invite you to explore our pavilion and discover how these innovative realities are shaping the future. We are confident that the EU Startup Summit 2026 will be the ideal stage to foster new collaborations and strengthen your ties with Italy's vibrant tech ecosystem.

Startex AI is the first autonomous AI-powered deal origination engine for mid-market M&A in Europe. Built on a proprietary databases enriched with five years of financial data, Startex deploys multi agent systems that continuously scans, identifies, and qualifies acquisition opportunities on behalf of investors, advisors, and corporate buyers. Startex matches buy-side acquisition criteria against sell-side targets using a multi-dimensional scoring algorithm that learns from every interaction, building a compounding intelligence layer no competitor can replicate. The platform requires zero effort from users: advisors submit criteria in natural language and receive qualified, scored opportunities ready for first contact. SMEs on the sell side are approached only when a concrete buyer match exists, no listing, no platform, no upfront cost. Startex AI does not sell software. It delivers deal flow. Backed by a growing network of verified M&A professionals across Italy and Europe.
