Molo dogana porto di Cagliari
09123 Cagliari (CA)
Ph.: +39 070679531
info@adspmaredisardegna.it
www.adspmaredisardegna.it

SARDINIAN COMMERCIAL PORTS. Sardinia is a strategic Mediterranean hub thanks to six complementary commercial ports. Cagliari, in the south, is a major transshipment centre for containers and Ro-Ro traffic, with depths up to 16 metres and a liquid bulk terminal at Porto Foxi. Olbia handles freight and Ro-Ro ferries in the north, with over 274,000 square metres of operational space. Porto Torres manages both passenger and industrial cargo through a dual civic-industrial structure.

Oristano specialises in bulk minerals, supported by 775,000 square metres of storage land. Portovesme serves the metallurgical sector, linking San Pietro isle via Ro-Ro ferry. Arbatax, the only port on the eastern coast between Cagliari and Olbia, hosts passenger services, shipbuilding, and operations. Together, these six ports underpin Sardinia's economic development and its Mediterranean connectivity.

BATTOCCHIO

Battocchio

KEYBOARDS FOR YOUR FINGERS

Via Marghera, 1
31033 Castelfranco Veneto (TV)
Ph.: +39 0423 497702
info@battocchio.com
www.battocchio.com

At Posidonia in Athens, our company presents advanced Human-Machine Interface solutions for industrial and marine applications. We specialize in the design and manufacturing of custom control panels, membrane keypads, touch and touch-like HMI interfaces.

All our products are fully customizable, from graphic design and materials to technical specifications, allowing perfect integration with the customer's system and environment. Our interfaces are used in control systems, onboard electronics, automation equipment and specialized machinery where reliability and durability are essential.

A key advantage of our company is complete production flexibility, with no minimum order quantities. We support customers from the development of prototypes and small batches to large-scale production, always ensuring high quality and attention to detail.

BOAT LIFT

HANDLING AND LIFTING SYSTEMS

Strada Provinciale Alba-Narzole, 19
12055 Diano D'Alba (CN)
Ph.: +39 0173500357
info@boatlift.it
www.boatlift.it

BOAT LIFT is specialised in the manufacturing of handling and lifting systems and offers a wide range of personalised solutions engineered to meet the needs of customers operating both in the marine and in several industrial sectors. Travel lifts, gantry cranes, self-propelled trailers and amphibious machines are all designed with a user-oriented approach and tailored to meet unique client needs, enhancing operational efficiency and safety during on-site activities. BOAT LIFT offerings, available in the electric version as well, integrate the latest technological advancements and cutting-edge components, delivering superior performance and significant upgrades across various applications.

CANEPA & CAMPI

Via Gramsci, 4
16010 Manesseno (GE)
Ph.: +39 0107261006
rcampi@canepaecampi.com
www.canepaecampi.com

Established in 1901 Canepa & Campi is a leading manufacturer of Life-Saving Appliances (LSA) and Fire-Fighting Equipment (FFE), bringing over 125 years of expertise in maritime safety. Our LSA product range includes foam and inflatable lifejackets, lifejacket lights, immersion suits, pilot/ embarkation ladders and lifebuoys (standard and heavy-duty types). Our FFE portfolio features EEBD, SCBA, firefighter suits, fire hoses, hose nozzles and portable foam applicators.

For more than a century reliability, technical excellence and innovation have driven us to develop certified safety solutions designed to protect and save lives at sea in the most

demanding environments.

Today, we are trusted partners for shipyards, shipowners and safety professionals across the global maritime industry.

“YOUR SAFETY IS OUR PRIORITY”: more than a slogan, it is the principle that guides everything we do.

The advertisement is set against a teal background. On the left, a woman with curly hair is wearing a black wetsuit and an orange life jacket. To her right, there are two circular callouts. The top one is labeled 'LSA' and contains images of a red life jacket, a red lifebuoy, and a wooden embarkation ladder. The bottom one is labeled 'FFE' and contains images of a red fire extinguisher, a yellow fire helmet, and a fire hose nozzle. In the top left corner, there is a '125th 1901 2026' anniversary logo. The CANEP&CAMPI logo is at the top center. At the bottom left, it says 'C&C PRODUCTION' and at the bottom right, 'www.canepaecampi.com' and 'Italian design'.

PALAZZOLI

Palazzoli

SISTEMI ELETTRICI E LUCE D'AUTORE

Via Federico Palazzoli, 31
25128 Brescia (BS)
Ph.: +39 030 2015220
info@palazzoli.it
www.palazzoli.com

Established in 1904, PALAZZOLI is an Italian company specializing in electrical and lighting systems, known for designing and manufacturing high-performance solutions for harsh and demanding environments for Industrial, Explosion Proof, Infrastructure, and Marine applications.

For the Marine, PALAZZOLI offers:

- Waterproof and corrosion-resistant lighting fixtures (for decks, engine rooms, etc.)
- Industrial plugs and sockets (withstanding extreme conditions)
- Enclosures and distribution boards (high IP degrees, safe power management)
- ATEX-certified equipment
- Control devices

Palazzoli
SISTEMI ELETTRICI E LUCE D'AUTORE

- Products are developed in compliance with international marine standards and certifications, ensuring long-term performance even in highly aggressive marine environments.

Thanks to its recognized expertise, PALAZZOLI is a long-standing supplier to Fin-cantieri and to the world's leading shipyards..

SCHIAVETTI ENZO

Via Eustachio Degola, 40/42/44/R
16151 Genova (GE)
Ph.: +39 0102474784
info@schiavettienzo.com
www.schiavettienzo.com

Founded in 1870 in Genoa, we have built our experience day by day by working on real applications in the marine and nautical industry. We have expanded our product range and technical capabilities by turning what we learn into practical, reliable hardware solutions.

This growing body of knowledge is what allows us to adapt and customize our offer around the specific needs of each vessel and each customer.

**SCHIAVETTI**
MARINE HARDWARE

Making vessels safe, efficient and refined.
We design and supply solutions built around real operational needs.

 **Doors**
Marine doors on board must comply with safety, efficiency and operational requirements.

 **Furniture**
Furniture on board requires fittings with long term stability and the most advanced performance.

 **Hotellerie**
Hotellerie applications on board require accessories for intensive use and compliance.

 **Automated System**
Automatic access systems on board must meet specific installation and operating needs.

Schiavetti operates within Link Industries, a company specialized in industrial and marine supply solutions. Link supports shipyards and industrial operators with product specification and project driven services. Being part of this network allows us to develop new synergies in product sourcing and project support.
