Box 15a — country of dispatch

This is the country of export or dispatch to the UK. Where the goods are being exported from the EU, this should be the individual code for the Member State of export, for example, FR for France

Box 34a — country of origin

Enter the exporter's EU Member State. If this is unknown, it is acceptable to enter **any Member State** involved in the production of the good. The Member State may be identified through the accompanying commercial documentation or the Registered Exporter system (REX) code on a 'statement on origin'.

This level of information is required purely for UK domestic statistical analysis purposes and does not affect the applicability for preference.

The 'statement on origin' document must be completed in accordance with Annex 7 of the Trade and Cooperation Agreement and refer to 'the Union' as the preferential origin of the goods.
