Economy
Hotspot
Slovenia 2025

Invitation to the international conference »Circular Economy Hotspot – Slovenia 2025«

The Ministry of the Environment, Climate and Energy of the Republic of Slovenia is pleased to announce that Slovenia will host the international conference *Circular Economy Hotspot – Slovenia 2025*, which will take place from September 10 to 12, 2025, at the Rog Centre in Ljubljana.

On the website www.slovenia-circulareconomyhotspot.com, you will find information about the program, location, and registration.

We kindly invite you to visit the website and register for the event. Participation is free of charge, but the number of participants is limited.

Who Should Attend

The conference is intended for companies from various industries, universities and faculties, students, research institutions, ministries, public utilities participating in waste management schemes, municipalities, regional development agencies, non-governmental organizations and the media, as operating according to the principles of the circular economy concerns companies, research, professional and innovative institutions, ministries, local communities and individuals

Main Topics

The conference will feature policymakers designing circular economy strategies at the EU level and in Slovenia, developers of support systems, and practitioners implementing circular practices. Best business practices and current developments in circular innovations will be presented. Discussions will address the role of decision-makers who shape support systems and programs that overcome barriers to the circular economy. We will also discuss how the circular economy can contribute to social resilience and the role of local communities, businesses, and youth. There will also be discussions on tools to strengthen circular supply and demand.

Detailed conference programme will be available on the website within next weeks.

The conference is organized by the Ministry of Environment, Climate and Energy and the Ministry of Economy, Tourism and Sport in cooperation with the Slovenian Centre for Circular Economy.

We invite you to follow updates on the conference and to attend the event!
