ITALIAN TRADE AGENCY

ICE - Italian Trade Commission

The **Italian Trade Agency (ITA)** is the government agency that supports the globalization of Italian firms, implementing the strategies of the Ministry of Economic Development.

ITA helps develop, facilitate and promote Italian economic and trade relations with foreign countries, focusing on the needs of SMEs (Small and Medium- sized Enterprises), their associations and partnerships.

ITA sustains Italian firms in their internalization processes, in the marketing of Italian goods and services while promoting the "Made in Italy" image around the world, and it is directly involved in attracting foreign direct investments.

ITA provides information, support and consultancy to Italian companies on foreign markets, promoting and fostering exports and cooperation in all areas- industry (consumer and capital goods), agricultural technology and agri-food, services, and training- with the aim of increasing and making more effective their presence on international markets.

ITA works closely with Italian Regions, the network of the Italian Chamber of Commerce, business organizations and other public and private entities.

ITA headquarter is in Rome and its network of offices around the world act as "Trade Promotion Offices and/or Section" of the Italian Embassies or Consulates.

CONFINDUSTRIA MARMOMACCHINE - Profile

The Italian MARMOMACCHINE Association (abbreviated to CONFINDUSTRIA MARMOMACCHINE), founded in 1984 as an association of makers and users of machinery and equipment to work natural stone, is the Association in the stone sector representing the entire Italian techno-stone production chain. The more than 310 companies and territorial organizations belonging to Confindustria Marmomacchine and working in all the major Italian production sectors guarantee the Association broad representation nationally and internationally as well as the role of reference management liaison for Confindustria, Italian ministries, ICE (the Italian Trade Agency), standardization boards, unions, universities and fair boards.

Confindustria Marmomacchine is a part of Confindustria (the General Confederation of Italian Industry) and of Federmacchine (the Italian Association of Instrumental Goods Makers). Confindustria Marmomacchine represents and safeguards the Italian techno-stone industry as sole employers' association involved in nationwide collective labor bargaining in the stone and extraction sector and in all the activities connected to relations with sector unions. Confindustria Marmomacchine is a member of Euroroc, the European and International Stone Industries Federation.

Basaltina Srl is a 100% Italian company founded by Giuseppe Tecchi in 1925. The quarry situated in Bagnoregio, in the heart of Italy, is one of the most important in the country. Here, we extract and work a natural lava stone, used since Roman times, and actually marketed worldwide with the registered trademark Basaltina®. Our brand Basaltina® is synonymous of Made in Italy excellence, combining craftsmanship and industrial refinement. The stone is appreciated for the colour, the minimal look and its versatility that makes it simple but elegant. Internationally renowned architects and designers sign-off their projects using the products know by the brand Basaltina®, including masterpieces such as: Aurora Place Apartments by Renzo Piano, Asian Art Museum by Gae Aulenti, Winspear Opera House by Norman Foster, Sagrada Familia, Doha Hamad International Airport and the three Samsung skyscrapers in Seoul.

We process and provide blocks, slabs and finished products from cut-to-size, tiles, treads, floor-patterns and cobblestones delivering complete EXTERIOR and INTERIOR finished programs for residential, commercial and hospitality projects. Bucine BLUESTONE® superior and ASTM certified quality standards stands as the preferred choice for the accredited worldwide A + D community.

**BOOTH 2743**

CEL COMPONENTS produces lightweight sandwich panels with honeycomb cores faced with various sheets of fiberglass or impregnated with epoxy or phenolic resin (-Step Series) or aluminum coating. They are used to reinforce marble, semi-precious stones, engineered stone or porcelain. By applying these panels to natural stones, the thickness of the slabs can be halved, greatly reducing the material weight and cost.

Fratelli Lizzio is a Etna lava stone industry. Today it is a leading producer of manufactured goods in Etna Basalt Lava Stone: Tiles, slabs and all complete products for construction projects. We extract the raw material directly from our lava quarry with a high regard for the environment. The Etna basalt has, in addition to the recognized quality aesthetic, physical and mechanical properties that give it excellent characteristics for workability and durability. This is really unique for hardness, resistance to acids and salts, impact strength, flexural, compressive and attrition. It is fundamental for us working with design studios, architects, contractors and construction companies that operate worldwide.

BOOTH 2645

GDA Marmi SRL has been working in the world stone market for over 50 years: it has built its activity on solid bases like experience, professional seriousness and high production capacity.

GDA Marmi SRL owns "MADIELLE" quarry, that is one of the most important quarry for extension and size. From different sides of the quarry, can be extracted different kind of materials: White Carrara Venato, White Carrara Venatino, Statuarietto, Statuario M, Arabescato M. and Bardiglio.

Because of the high result of chemical-physics features, our material is the favourite one for great project and public works

The GMP SPA was founded in 1972 but is part of a group of companies which is active in the stone industry for over 100 years. In the last century the activity was limited to the extraction of white Carrara marble, then the production of slabs of other Apuan marbles started. After 1950 the production and processing of some classic colored marbles began and finally after 1960 the plant in Dogana di Ortonovo was built where the production and distribution of both Italian and foreign granites began. Currently, the company has also offices and depots throughout Italy and subsidiaries in the United States. The concessions of GMP, the Fantiscritti and the Caldia® quarries, situated in the most important marble basin of the world are where the precious Bianco Carrara, Bianco Venato, Bardiglio Nuvolato, Calacatta Caldia®, Statuario Caldia® are extracted.

The advanced stoneworking capabilities of the Santucci Group are not only evidenced at its plant in Carrara, Italy, but also in completed architectural projects throughout the world. Working with some of the top names in architecture and design, the company has become renowned for unique cut-to-size projects in a broad range of materials. But although the company's achievements can be found worldwide, its beginnings were humble, as it was established as a small marble shop by Armando Santucci in 1950. Growth was steady over the next decade, and the company broke into separate divisions in 1995. Santucci Graniti is the slab department, Santucci Armando is the cut to size division, and Santucci Us in Miami is following closely all clients across US.

BOOTH 2847

Sardegna Marmi is a Sardinian leading Company in the field of extraction, processing, finishing and marketing of Sardinian marbles since the early sixties. The marbles coming from our own quarries are: Orosei Marble, also known as Daino Imperiale Marble, Black Secret Marble and Silver Moon. Our production goes from blocks, slabs, flooring tiles, external and internal cladding panels, customized products and design collections under our new brand Sardegna Marmi Design. We are able to provide all the most popular surface finishing: polishing; sunblasting; brushing; bushammering and some special Sardegna Marmi finishing such us Velvet and Silky finishing. Find out more about our Company visiting our web site at www.sardegnamarmi.com & www.sardegnamarmidesign.com

Savema is an international leader for the supply of marble, granite and other ornamental stones specialized in: architectural stonework for worldwide projects; marble, granite, onyxes, travertine and limestone in slabs; marble blocks. Located in Carrara Stone District, it offers a wide range of services: shop drawings preparation, job-site supervision during the stone fixing to integrate the characteristics of stones into engineering of the anchoring system, etc. High quality standards, professional skills and technological renovation have allowed it to collaborate with the most relevant names in global architecture, like Norman Foster, Renzo Piano, Cesar Pelli, I.M. Pei or Jean Nouvel.

Stilmarmo is a leading company in the extraction, production and commercialization of Apricena Stone, also known as Trani Stone. Stilmarmo is made up of its own quarry and two factories. Apricena Stone includes four main groups of materials - Serpeggiante, Fiorito, Bronzetto and Biancone - Traditionally vein cut, Serpeggiante marble - or wooden marble - reveals its characteristic veins and its beige colour. Fiorito and Bronzetto are characterized by a colour range going from the light to dark beige tones. All materials are suitable for both internal and for exterior applications. The production includes blocks, slabs, tiles, finished products and cut to size.

Sud Marmi, for several years now, means one of the mostly prominent productive realities on Italian quarrying and processing of marble. It was founded in 1980 by Prof. Mario Pellegrino. Soon, thanks to a good and far sighted organization Sud Marmi obtains success, first in the Italian market and then in the international one. The processing of the quarried products takes place in a very modern and dynamic factory situated in the Piano Alatri's area in Custonaci - Italy. Here, more than sixty highly specialized workers, using last generation machineries and systems, achieve a highly quality and extremely competitive product. The factory allows Sud Marmi to supply windowsills, thresholds, slabs, steps, tiles, modul marble, fireplaces surrounds and skirting boards.

There's a lot of work behind Beauty.

BOOTH 2653

Our aim of exporting Italian marbles exclusively known from the Carrara mining area such as Calacatta, Statuario, Crema Delicato, White Carrara, Bardiglio; as well as Spanish and North African marbles to the world has become not only our priority, but our passion. We continue to export goods to the China, Far East, and the USA on a regular basis. We have long term and well established business relationships with many leading companies in the Middle East, and we are deeply involved in many prestigious projects all over the world.

Professionalism, kindness and promptness at your disposal. They are all qualities that make us able to satisfy each customer's inquiries. 30 years of experience make the Zagross Marmi a leading company in the marble sector. Always looking for new exclusive materials, from the Rosa Bellissimo to the current exclusive right to the Bianco Assoluto Impeccabile. Since 2017 Francesco Grosso and his son Salvatore, together with a team of professionals, have constantly been working on business development, one of the company aims. The true whitest white you have ever seen. A young dynamic company always in line with trends in your requests and architectural needs. Living the quarry about 20 days a month, we can choose and select the best material for our customers.
