ITALIAN COMPANIES

AVACAM

✉ info@avacam.io

🌐 <https://avacam.io/>

🌐 <https://www.linkedin.com/company/avacam-monitoraggio-dissesti/>

AVACAM specializes in creating advanced industrial devices which take photos and a photo-monitoring software through which web platform people can remotely monitor landslides and ground instabilities using real-time data.

Our devices offer high resolutions and customizable lenses to meet any need. Constructed with aluminum and steel, it ensures durability and installation flexibility, even at high altitudes and to the extreme weather conditions.

PhotoMonitoring is an advanced monitoring technique for the analysis and control of territory and structures. The solution is designed to support monitoring activities, using platforms in order to collect real-time data in order to monitor the stability of a slope or cliff affected by landslide events. Using strate-

gically positioned cameras, the system captures high-resolution images from one or more observation points, allowing for the monitoring of ground movements and mapping changes over time. It is needed for preventing landslides risk, sending automatic alerts to the identified user.

CYBERNEID

✉ info@cyberneid.com

🌐 <http://www.cyberneid.com>

🌐 [linkedin.com/company/cyberneid](https://www.linkedin.com/company/cyberneid)

📷 [instagram.com/cyberneid](https://www.instagram.com/cyberneid)

Cyberneid is an Italian innovative startup specialized in artificial intelligence, electronic identity, and blockchain. Headquartered in Naples, we design and deliver AI-powered solutions for identity proofing, KYC, digital signatures, biometric authentication, and secure onboarding – available as white-label apps, SDKs, and APIs.

Our integrated platform powers IdentiKYC, InstaSign, Firmo con CIE, eidWallet, Wink&Go, PayBridge and youCheckin, serving banking, telecom, public administration, healthcare, and hospitality. Cyberneid is ISO/IEC 27001 and ISO 9001:2015 certified, ISO 30107 L1+L2 compliant, and fully aligned with GDPR, eIDAS, and the EU AI Act.

Trusted by leading organizations including Zagrebačka Banka (UniCredit), Polisen (Swedish Police), Poligrafico e Zecca dello Stato, PagoPA, Aruba, and AzInTelecom, we have certified over 1 million electronic identities and signed more than 1.5 million documents.

FAIRMIND

✉ administration@fairmind.ai

🌐 <https://fairmind.ai>

🌐 <https://www.linkedin.com/company/fairmind-sb>

FairMind transforms enterprise software factories into AI-native organizations. Today, development teams adopt AI coding tools individually, without shared context, architectural guardrails, or governance. The result is growing technical debt, inconsistent code quality, and compliance risk, with no measurable ROI from AI investments.

FairMind solves this through an agentic platform built around three pillars. FairMind Studio deploys five specialized agents across the full software development lifecycle, from requirements to tested code, all working with a shared digital twin of the codebase that grows smarter with every project cycle. FairMind Academy upskills the entire team so AI-native ways of working become part of daily operations. Harness Engine-

ering structures the environment so AI coding agents follow your architectural rules rather than break them.

The technology is live and in production, with paying enterprise customers across regulated industries. FairMind walks alongside your team through every step of the transformation.

GANIGA

✉ n.zeoli@ganiga.it

🌐 <https://www.ganiga.ai/en>

Ganiga is an Italian deep-tech startup developing AI- and robotics-driven solutions to transform waste management. Through proprietary smart bins like Hooly, the company enables real-time waste recognition, automated sorting, and data analysis, turning each disposal point into a source of actionable environmental insights. Its technology supports companies, infrastructures, and cities in reducing operational costs and emissions, improving recycling quality, and enhancing user engagement. By combining hardware, software, and data, Ganiga helps organizations meet sustainability targets and advance their ESG strategies, while creating smarter, more efficient, and more responsible environments.

GCUBE

✉ info@gcube.digital

🌐 <http://www.gcube.digital>

🌐 <https://www.linkedin.com/company/gcube-s-r-l-s-b/>

📷 https://www.instagram.com/gcube_official/

gCube is a Digital Company that offers highly specialized services through a consultative and strategic approach. We bring together professionals with vertical skills in their respective sectors, ensuring that strategic consultancy is our distinctive trait.

Each project begins with an assessment aimed at identifying the client's needs and designing a tailor-made solution that aligns with their goals.

With over a decade of experience, Cube provides integrated ecommerce strategies, IT platforms, and UX/UI, managing all aspects of international ecommerce. We assist businesses with strategic marketplace integration.

Our value is generated through:

- Strategy: Identifying opportunities and creating customized digital strategies that leverage the potential of digital.
- Execution: Developing and enhancing products that meet real business needs.
- Technology: Offering a technology-agnostic, immersive approach to business development, helping companies identify essential resources and activities.

Finance: Providing innovative solutions to help businesses access financial incentives and funding for growth.

HEXERGY

✉ info@hexergy.it

🌐 <https://hexergy.it/it/>

🌐 <https://www.linkedin.com/company/hexergy/?viewAsMember=true>

📷 <https://www.instagram.com/hexergy/>

HexErgy automates and simplifies decentralized energy models around the world, from Community Solar to Peer 2 Peer and Virtual Power Plants, making them profitable, scalable, and easy to manage for the next 20 years, with the vision to enter this group of projects in the flexibility market.

HexErgy connects all the stakeholders with an user-centric UX/UI and automation of regulations, participant management, billing, compliance, and marketing empower developers to scale efficiently, cut costs, and maximize ROI of these projects.

Since 2023, HexErgy has raised €1.5M without external investment rounds, supported 640+ projects across Europe

and Latin America, and managed over 225 MW of renewable energy, making the social impact of shared clean energy tangible and measurable for anyone.

HIOP

✉ administration@hiop.io

🌐 <http://www.hiop.io>

🌐 <https://www.linkedin.com/company/hiop/>

Hiop is a data integration platform that lets teams connect, organize, and unify data from any source – without building or maintaining complex infrastructure. Business logic is defined in simple configuration files, versioned in Git, and deployed as self-adapting data pipelines. Orchestration, quality checks, and lineage are built in. The result: a single, coherent view of your data, always in sync with how your business actually works.

HUMANS.TECH

✉ info@humans.tech

🌐 <https://humans.tech>

🌐 <https://www.linkedin.com/company/wearehumanstech/?viewAsMember=true>

📷 <https://www.instagram.com/humanstech/>

Humans.tech is an Italian tech company that develops custom software and AI solutions for businesses seeking measurable impact.

We write end-to-end code, from discovery to production, with high-caliber engineering teams experienced in building complex, data-driven, AI-native products.

We operate 70% globally in the United States and have launched over 700 digital products, contributing to the growth of multinational players.

What sets us apart is that we always start from business KPIs: conversions, costs, efficiency. Tech is our means, Humans our purpose.

humans.tech*

We are a partner that builds software that works, scales, and creates measurable value.

KOALA SRL SB

✉ amministrazione@koala.it

🌐 <https://www.koala.it/>

🌐 <https://www.linkedin.com/company/koalasrl>

📷 https://www.instagram.com/koala_energy_/

KOALA is an Italian energy-tech startup building digital infrastructure for decentralized and participatory energy systems. Our platform connects citizens, businesses, and public institutions through a unified digital energy identity, enabling users to manage, share, and exchange energy in a simple and transparent way. By integrating data analytics, automation, and advanced digital tools, KOALA transforms energy assets into connected, value-generating resources.

We support energy communities, collective self-consumption models, and local energy projects, helping optimize production, consumption, and cost efficiency. Our ecosystem includes solutions for peer-to-peer energy trading, shared ener-

gy management, and access to flexibility markets.

With a scalable business model combining subscriptions, transaction fees, and services, KOALA is positioned to address a rapidly growing global market. Our mission is to make energy more accessible, decentralized, and user-driven, accelerating the transition towards a smarter and more sustainable energy system.

LECS - CYBER EVOLUTION

✉ marketing@cyberevolution.it

🌐 <https://lecs.io/>

🌐 <https://www.linkedin.com/company/lecs-security/>

📷 https://www.instagram.com/lecs_security/

Cyber Evolution is an innovative Italian SME and the developer of LECS, a patented Made in Italy Plug&Play NDR technology designed to protect IT, OT and IoT environments. Built to simplify cybersecurity, LECS delivers real-time network visibility, autonomous threat detection and automated response without complex configuration or long deployment times, just 10 minutes! Its AI-driven (but not only) and proprietary engines analyze internal traffic, reduce false positives by 87% and support security teams by acting before anomalies become incidents. LECS integrates with SOC and SIEM platforms, supporting proactive protection, operational continuity and clear reporting. LECS is also suitable for OEM and embedded applications, enabling te-

chnology providers, manufacturers and system integrators to include advanced cybersecurity directly within their products, machines or connected solutions. Available in scalable hardware and virtual versions, it serves SMEs, corporate environments, industrial networks, multi-site infrastructures, critical contexts and governments. Active through distributors in 24 countries, Cyber Evolution brings compliant, security-by-design Italian cybersecurity to the global market.

MEBAG

- ✉ alfo@mebag.shop
- 🌐 <https://mebag.shop>
- 🌐 <https://www.linkedin.com/company/mebag-shop/>
- 📷 https://www.instagram.com/mebag.shop_official/

Mebag is the first AI-powered universal cart that lets users save, track prices, buy and return products in one place, with one click.

With Mebag you can:

- Search and discover products across multiple stores in one place.
- Save products from any website.

Track price drops, get instant alerts & save money.

- Buy across multiple stores with one checkout.

- Track purchases, shipping & returns from a single dashboard

PRODIGY

✉ pr@itsprodigy.com

🌐 <https://www.itsprodigy.com>

🌐 <https://it.linkedin.com/company/itsprodigy>

It's Prodigy is an award-winning Italian AI-First Enterprise Transformation Platform. We enable mid-to-large organizations to become AI-native in less than 90 days through a scalable PaaS architecture. Our proprietary technology stack includes an AI Assessment Platform, DataProdigy (a natural language BI engine), and an automated delivery system that reduces software development time by 60%.

We serve industry leaders, providing solutions that are fully GDPR-compliant and EU AI Act-ready. With a team of 30 professionals and an 80%+ gross margin, we bridge the gap between AI exploration and large-scale adoption. Our mission is to turn complex AI implementation into a measurable, recurring-revenue model for enterprises worldwide.

QUIROOM

✉ info@quiroom.it

🌐 <https://www.quiroom.it>

🌐 <https://www.linkedin.com/company/quiroom/>

📷 <https://www.instagram.com/quiroom/>

Every night, 25% of hotel rooms stay unsold. Quiroom helps hotels monetize these rooms in the last 7 days before check-in, while travelers access secret rates with up to 40% savings. Today we count 650+ hotels across Italy and 18,000 users, making travel more frequent and affordable.

Quiroom
Travel more for less

STARTEX AI

✉ info@startex.ai

🌐 <http://www.startex.ai>

🌐 <https://www.linkedin.com/company/startex-ai/>

📷 https://www.instagram.com/startex.ai?igsh=YXkwcGtyajlxCHZs&utm_source=qr

Startex AI is the autonomous origination engine for European mid-market M&A.

Our multi-agent system runs 24/7, continuously scanning proprietary SME databases, qualifying targets across 30+ financial KPIs and delivering ready-to-pitch acquisition opportunities directly to advisors, PE funds, and corporates, in hours, not months.

We replace manual, fragmented scouting with a scalable, data-driven infrastructure built for private markets where 85% of deals never reach the right buyer.

Buy-side clients access opportunities before competitors know they exist. Sell-side owners receive a competitive pro-

cess with 20–30 qualified buyers instead of a single offer.

Startex AI is not a search tool, it's deal flow as a service: proprietary intelligence, active mandates and buy/sell signals combined into one platform that puts professionals first in line on deals that would otherwise remain invisible.

The infrastructure private markets have always needed.

Finally built.

The background is a monochromatic blue-tinted image of a printed circuit board (PCB). It features a dense network of intricate traces and a central, prominent integrated circuit (chip) with a grid of pins. The overall aesthetic is technical and futuristic.
