China's blueberry and cranberry exports surge in Southeast Asia

China's blueberry and cranberry exports hit 38.8 million USD in Q1 2026, exceeding 70% of the full-year revenue in 2025. Boosted by RCEP (Regional Comprehensive Economic Partnership) and efficient cold-chain logistics, Chinese berries enjoy fresh quality and price advantages in Southeast Asia. Hong Kong and Russia were the top buyers in April. **(Asia Fruit)**

JD report for 618 sales of alcohol

According to the 618 sales report released by JD Wine on May 30, liquor sales in the first round rose 40% year-on-year. Within the first hour of launch, transaction volume of 157 alcohol brands doubled. On JD's industry brand ranking list, the top 10 wine brands by sales are Penfolds, Lafite, Changyu, GreatWall, Cloudy Bay, Montes, Concha y Toro Casillero del Diablo, Lussou, Dynasty, and Tongpu Co., Ltd.. **(Wine Magazine)**

China-Laos railway ships over 120,000 tonnes of durian this year

From January 1 to June 4, the China-Laos Railway transported over 130,000 tonnes of imported fruits, including 120,000 tonnes of durian, with respective year-on-year rises of over 40% and 56%. Daily fruit delivery volume once peaked at 3,941 tonnes amid the concentrated harvest season of tropical fruits since April. **(China Fruit Portal)**

Fresh strawberries from Shanxi exported to Mongolia for the first time

A batch of fresh strawberries from Taiyuan, Shanxi has been shipped to Ulaanbaatar, marking the first fruit export from Taiyuan and the first strawberry export from Shanxi to Mongolia. Customs launched a green channel, 24/7 inspection reservation and digital services to shorten customs procedures and keep the fragile fruits fresh. **(China Fruit Portal)**

XCMG and ZF Establish Joint Venture for Advanced Agricultural Machinery

On June 2, 2026, Chinese industrial leader XCMG Group and Germany's ZF Friedrichshafen AG signed a landmark joint venture agreement to establish ZF (Xuzhou) Machinery Co., Ltd. Headquartered in Jiangsu Province. This strategic partnership directly addresses China's rapid market shift toward intelligent, high-horsepower tractors and advanced agricultural machinery drivetrain technologies. **(iGrow News)**
