RISO MARGHERITA

Products presented:

Rice and risotto

Company profile:

Riso Margherita is a brand of excellence in the Italian rice production panorama. With an extension of almost 300 hectares of property, we produce the best varieties of Italian rice. All stages of production (cultivation, drying, transformation and packaging) are followed and processed directly by our company. The family and the work group portrays tradition and care in every step of the production process to get a unique product of its kind, without compromises.

Our philosophy is to maintain the artisanal manufacturing techniques, innovating but remaining faithful to traditions. The feature that distinguishes us is the "Stone Milling Process", an ancient processing method that allows us to preserve all the organoleptic properties of the outer layers of the rice grain, taking on an amber colour that guarantees more flavour and an exceptional firmness when cooked. This method also allows the germ to remain naturally intact to the rice grain. Our rice is earmarked for specialised gourmet retailers, high-level catering, in Italy and all around the world.

PASTIFICIO ARTIGIANO CAV. GIUSEPPE COCCO

Products presented:

Durum wheat semolina pasta

Company profile:

The Cocco family boasts a family tradition which dates back to 1914. In 1944 **Giuseppe Cocco** took over his father's trade, searching through bomb-site rubble for machine parts used by former pasta-makers. With this machinery, those memories and 'secrets', today the Cocco family produces pasta from that era in the village of Fara San Martino - just as good as it used to be.

What makes the pasta so unique? The excellent physical properties of the spring water from the River Verde and the dry, windy microclimate of the place, perfect for the drying process.
