Crustless Bread

Arte Bianca has been producing Crustless Bread since 1968 in Venice, Italy.

In its high-tech plant, it produces traditional “Tramezzini” crustless bread in different weights and recipes such as whole grain, spelt and the brand new 20% Protein.

Arte Bianca crustless bread is made with few ingredients: flour, water, olive oil, natural yeast, malted cereal flour, and sea salt.

No animal fat, no added sugar or lactose. This gives the product the genuine taste of traditional fresh bread.

In addition, long leavening and unique production technology makes the product extremely soft, with a long shelf life as well.

It is available both at room temperature and frozen.

.....

Fratelli D'Acunzi is a leading company in the canning sector (especially tomatoes). It was founded in 1958 in Italy in Nocera Superiore. The company philosophy is simple: grow in quantity but without lowering the quality standards of the products. The company preserves the San Marzano dell' agro sarnese-nocerino DOP, the classic peeled tomato, diced tomato, cherry tomatoes, passata, intended for the Horeca and retail sectors.

The company also produces typical products such as the Piennolo del Vesuvio DOP, tomato fillets, corbarino, datterino and last but not least a wide range of organic products.

Gragnano Pasta P.G.I.

Our first family mill goes back in time to 1797, it was called 'Lo Monaco', it was one of the oldest in Gragnano and it's still there today.

In order to get PGI certification, pasta must be produced with Gragnano spring waters.

The production has to follow a disciplinary provided, that is the only way to be part of that market niche that will make us stand out with a high quality product.

Thanks to the quality of the ingredients and the respect towards the drying times that our pasta has that particular consistency, necessary for any kind of condiment's combination.

.....

Manicardi is a family-run company located in the Emilia Romagna region in Modena. This region, rich in biodiversity, is famous for its generous lands and the climate and soil conditions that allow the production of high-quality raw materials and fine grapes.

On these hills, the company has always cultivated Lambrusco and Pignoletto and produces, above all, Traditional Balsamic Vinegar of Modena DOP, the "black gold" that is known and appreciated worldwide. To produce Traditional Balsamic Vinegar, the company uses only musts from the best grapes grown on its farm.

The fine barrels are built with different types of wood, each of which gives the Vinegar, over the years, a diverse essence.

Giuseppe Di Niso

AZIENDA AGRICOLA DI NISO

Products Presented:

Cima di Melfi Extra Virgin Olive Oil, Coratina Extra Virgin Olive Oil

.....

The story of Di Niso family is a simple one. As simple as it is ancient. The passion for olive growing dates back to the end of the 19th century, when Mauro di Niso bought centuries-old olive groves that are still cultivated by the family. This tradition has been preserved over the years, now with Nardo and Giuseppe, young brothers and agricultural experts, who today lead with their father Mauro, on the Fratelli Di Niso farm. It is a story that stretches between Bisceglie and Trani, among centuries-old uneven-aged olive trees. With a look to the future but still holding on to strong traditions of the past, the Di Niso brothers remain attentive to the evolutions and needs that the market imposes, always offering their customers a 100% made in Puglia olive oil.
