Made in Italy since 1977. For over forty years, the expert hands of our dedicated Calvisius Masters have been taking care of our caviar, using advanced techniques combined with traditional production methods; this allows us to offer our customers a top quality caviar. The attention we pay to every detail made our caviar one of the most sought after delicacies of the gourmet world, capable of satisfying the most demanding palates.

We believe that the quality of our products relies directly upon the well-being of our sturgeons, born and raised in Calvisano, Italy.

For this reason, in our farms we only use spring water and feed the sturgeons with the highest quality foods.

Since we are both breeders and manufacturers, we have direct control over every aspect of the lives of our sturgeons; this allows us to trace the history and origin of each package that we put on the market and provides us with any information regarding the origin of our products.

Our values, our history. Our every gesture or action has always been guided by words such as Quality, Craftsmanship and Sustainability. These are the pillars of our daily values, the guiding principle and the goal of all our efforts.

.....

The story of Di Niso family is a simple one. As simple as it is ancient. The passion for olive growing dates back to the end of the 19th century, when Mauro di Niso bought centuries-old olive groves that are still cultivated by the family. This tradition has been preserved over the years, now with Nardo and Giuseppe, young brothers and agricultural experts, who today lead with their father Mauro, on the Fratelli Di Niso farm. It's a story that stretches between Bisceglie and Trani, among centuries-old disetaneus olive trees. With a look to the future but still holding on to strong traditions of the past, the Di Niso brothers remain attentive to the evolutions and needs that the market imposes, always offering their customers a 100% made in Puglia olive oil.
