G.R. Marmi, established in 1990, is surely a landmark in the stone field, Italian and overseas, for the variety and the quality of the materials produced and traded. The guidelines which make of G.R. Marmi a company able to satisfy ever kind of request are:

- a deep knowledge of the materials, of the problems connected to the processing methods and of the cycles of suppling. All this is due to the tight selection done when purchasing the block combined with a particular care when manufacturing the material.
- a particular care and consideration toward our customers.

A peculiarity of the company is, in fact, the ability of developing a close and trustfully business relationship with customers.

A wide range of blocks and a wide choice of slabs masterfully produced in our processing plant are always available in our stockyards and showrooms.

Marmi Faedo is an Italian company who works all kind of natural stones.

We own, from 3 generations, a quarry of our **exclusive GROLLA**, a very hard limestone with excellent technical characteristics.

Grolla is unique because it is quarried inside an old Volcano: for this reason, its water absorption rate is less than 0.3%. This rate makes the stone water proof and frost proof. Moreover, it is resistant to salt and chlorine.

Thanks to its **hardness and density**, we can work in any kind of weather condition, and use it in all kind of projects, from exteriors to interiors. With our stone we can realize paving, claddings, special cut to size, solid pieces (sinks, tables, etc.) and every other **customized element** that your project requires.

We also create over **40 different surfaces textures**, that we can apply in any natural stone.
