

## Mohammed Bin Salman Nonprofit City

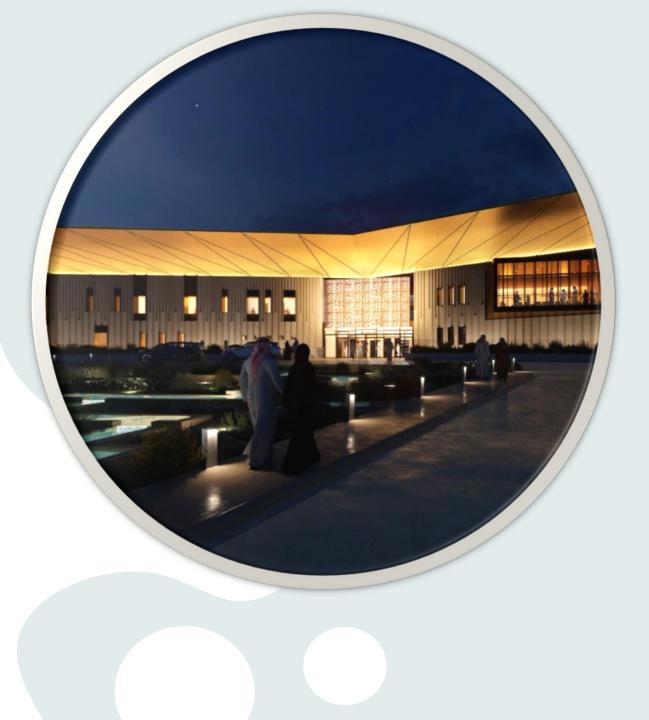

Mohammed Bin Salman Nonprofit City "Misk City" is the first nonprofit city of its kind, founded to host the ecosystem of Mohammed bin Salman Foundation "Misk". It is a vibrant and innovative ecosystem within a human-centric city focused on youth. Here, young and creative minds live, learn, share, and progress towards a sustainable tomorrow. Misk City is a purpose-built destination that aims to contribute to the growth, development, and prosperity of Saudi youth, aligning with the goals of Misk.

Furthermore, Misk City offers offices, educational institutions, arts and sports facilities, and entertainment options with residential areas and hotels, creating a holistic living and creative environment.

Fortunately, our journey at Misk City wasn't an entirely fresh start, it was due to the successful legacy of Misk Foundation spanning 13 years. Misk Foundation has consistently empowered the youth through diverse programs, initiatives, incubation, workshops, events, and extensive networking, fostering a legacy of impact and growth.

Explore how Vision 2030 is empowering the Kingdom's youth through the development of the nonprofit sector, playing an important role in addressing community needs and promoting social progress.
