

ITALIAN PAVILION AT PROPAK ASIA 2023

14th-17th June 2023
BITEC, Bangkok Hall 98

madeinitaly.gov.it

**PROPAK
ASIA**

Welcome Address by the Ambassador of Italy in Thailand

I am proud to see many Italian companies taking part in ProPak Asia 2023, one of the most renowned and important events in Thailand and in the ASEAN region that brings together the best firms in the packaging industry.

ProPak Asia 2023, one of the most renowned and important events in Thailand and in the ASEAN region that brings together the best firms in the packaging industry.

The exhibition represents a showcase of technology and innovative solutions guaranteeing the highest level of quality and service in the packaging industry.

The ASEAN market is nowadays a strategic one, characterized by high demand thanks to fast growing economies. This event thus allows companies of the sector to get in touch with this crucial market and to offer tailored solutions.

This year the Italian Pavilion hosts 28 companies, a bigger number compared to previous editions. The higher Italian presence reflects the higher demand by the Thai companies in this sector and their appreciation of the quality of Italian products.

The visitors of the Italian Pavilion will have the opportunity to know the latest innovations and solutions proposed by the Italian companies in the field of packaging and I am sure they will appreciate once again the excellency of Made in Italy.

In the meantime, the Embassy of Italy and the Italian Trade Commission in Bangkok remain available should you need any assistance or more information about the Thai market.

I wish you all a fruitful event and I trust it will be the beginning of important and lasting business relationships!

Thank you.

*Paolo Dionisi,
Ambassador of Italy to the Kingdom of Thailand*

Welcome Address by the Trade Commissioner of Italian Trade Agency Thailand

Dear visitors,

It is my utmost pleasure to extend a warm welcome to all esteemed participating Italian companies and visitors to PROPAK ASIA 2023.

PROPAK ASIA has established itself as the foremost trading event in Asia for Food, Drink, and Pharmaceuticals Processing and Packaging Technology. With its global popularity and influence, this event provides an outstanding platform for networking and connecting with ASEAN and larger Asian markets, making it an invaluable opportunity for all participants.

During the past year, the Thai packaging industry experiences a positive trend due to the continuation of new normal behavior of Thai consumers still relevant after the recovery of COVID-19 for examples food delivery, online shopping, etc. that encourages the demand for more types of packaging. At the end of 2022, the Thai packaging market expanded by more than 10.5%, worth more than 18 billion US dollars, which is an expansion that came from metal packaging, plastic packaging, and paper packaging, respectively.

Italy's automatic packaging machinery sector is renowned for its excellence and continues to grow on the global stage. With great pride I would like to announce that this year, in collaboration with the Italian Packaging Machinery Manufacturers Association (UCIMA), we have participated in PROPAK ASIA 2023 with our institutional stand (Hall 98, Stand no. F52) to provide the support for the Italian companies.

On this occasion, Italy has the presence of over 70 companies at the fair, of which almost 30 companies are hosted in the Italian Pavilion, managed by UCIMA. Each of them represents the epitome of innovation and expertise in their respective fields. I am certain that they will bring an interesting and useful cutting-edge technology to serve the growing demand for the packaging industry in Thailand.

As the Italian Trade Commissioner, I will be available at our institutional stand along with our dedicated team of professionals, including interpreters, to provide any necessary support to facilitate meaningful business connections with the exhibitors.

Thank you, and I wish you all a truly remarkable and successful time at PROPAK ASIA 2023.

Giuseppe Lamacchia

Italian Trade Commissioner in Bangkok

L'ICE-Agenzia per la promozione all'estero e l'internazionalizzazione delle imprese italiane è l'organismo attraverso cui il Governo favorisce il consolidamento e lo sviluppo economico-commerciale delle nostre imprese sui mercati esteri. Agisce, inoltre, quale soggetto incaricato di promuovere l'attrazione degli investimenti esteri in Italia. Con una organizzazione dinamica motivata e moderna e una diffusa rete di uffici all'estero, l'ICE svolge attività di informazione, assistenza, consulenza, promozione e formazione alle piccole e medie imprese italiane. Grazie all'utilizzo dei più moderni strumenti di promozione e di comunicazione multicanale, agisce per affermare le eccellenze del Made in Italy nel mondo.

ITA - Italian Trade Agency is the Governmental agency that supports the business development of our companies abroad and promotes the attraction of foreign investment in Italy.

With a motivated and modern organization and a widespread network of overseas offices, ITA provides information, assistance, consulting, promotion and training to Italian small and medium-sized businesses. Using the most modern multi-channel promotion and communication tools, it acts to assert the excellence of Made in Italy in the world.

UCIMA (Italian Packaging Machinery Manufacturers' Association) is the national trade association which represents and supports the Italian packing and packaging machinery manufacturers. It has more than 160 member companies from all over Italy, including the industry's primary leaders and works in close cooperation with AMAPLAST (Italian Plastics and Rubber processing Machinery and Moulds Manufacturers' Association), strengthening the offer of Italian technologies for the international investors.

UCIMA Member companies cover the entire range of packaging machinery production, from food, confectionary, and tobacco industries to pharmaceuticals, chemicals, petrochemicals, cosmetics, and end-of-line technologies. These companies contribute to making Italy one of the world leaders in packaging machinery, with a global market share of 22,5%, with the United States, France and China being the top export markets.

Founded in Bologna (Italy) in 1939 as "**DITTA ANGELO PELLICONI**" (DAP), specialized in the production of crown corks, Pelliconi is a world leader in the field of metal, and plastic closures for the food&beverage industry. Pelliconi is continuously expanding its business. Today it has six production plants spread over 4 continents: two in Italy, in Ozzano dell'Emilia (Bologna) and in Atessa (Chieti); one in Cairo (Egypt); one in the United States, in Orlando (Florida); two in China, in Suzhou and the most recent site inaugurated in July 2021 in the national high-tech district of Changzhou (CND). In addition, there are also five international commercial branches, thanks to which Pelliconi has created a vast sales and distribution network allowing the group to become one of the largest producers and exporters of closures globally. Pelliconi currently has an annual production of over 32 billion caps and employs almost 600 people worldwide, with total revenue of about 260 million euros. Pelliconi is a dynamic and reliable group, which works every day to be a strong partner and an important point of reference in the field of research and development of innovative solutions for the bottling and packaging industry. "Flower Cap" for example, with its smooth design and soft feel, is the new closure for 26mm pry-off bottles; the "Maxi P-26" ring pull cap is now available in the new version MAXISMART, safe, easy, and quick to open; the "Smart Crown" cap with its greatly reduced thickness winks at the environment; "SOPURE" is the closure dedicated to baby food, with PVC-free liner and BPA-NI (Bisphenol A Non-Intent). Lastly, P•ink is the new service for digital printing on caps, developed and patented by the Pelliconi Innovation team, which allows you to create customized products to enhance packaging. In fact, thanks to the new dedicated e-commerce, anyone can customize caps and labels for any type of occasion or event, even in small batches, while maintaining Pelliconi's products quality. With creativity, competence, and team spirit Pelliconi is able to satisfy the needs of the most demanding customers. The passion for innovation and quality, customer orientation and strong sensitivity towards the issues of food safety and environmental protection are the main ingredients of its success.

Company name: **R.BARDI SRL**
Stand: **F74**
Address: **Strada delle Carzole, 11**
City: **Fidenza**
Postal code: **43036**
Country: **Italy**
Tel. **+39 0524 522117**

Contact: **ORSI MASSIMILIANO**, m.orsi@r-bardi.com

BARDI history dates back to 1950, when Rino Bardi started designing and manufacturing together with 3 technicians the first filling and washing machines for milk glass bottles. Since that time, the Company has moved the line of application to water, beer, soft drinks, juices, becoming a leading player in the bottle washing industry. At the end of 90s, combined with its strengths of 50 years experience into the returnable glass industry, R.Bardi directs its attention to the HOD market (5 Litres to 5 Gallons bottles). Today, after more than 20 years of product innovation and global sales strategies, the company has reached a worldwide leading position for turn-key supply for this industry and represents a point of reference in terms of technical development and product hygienic safety.

Today Bardi product portfolio is developed through 3 internal product divisions:

- Glass division, dedicated to the washing machines for glass bottle (up to 70.000 bph)
- 5 Gallon division, dedicated to complete lines for water big containers, from 5 Litres to 5 Gallons (from 300 to 3.000 bph)
- 5-19 Lt PET division, dedicated to filling and capping monoblock for 5 – 19 Litres PET one-way bottles (from 300 to 6.000 bph).

The SMI Group is today one of the world's largest producers of bottling plants and packaging machines and is composed of the parent company SMIGROUP, the subsidiary companies SMI (the first and largest business in the Group), SMIPACK, SMIMEC, SMITEC, ENOBERG, SMIENERGIA, SMILAB, SARCO.RE and of a network of branches, providing support for sales, after sales service and spare parts supply.

The SMI Group's companies employ a quality, environment and safety management system that is UNI EN ISO 9001:2015 and UNI EN ISO 14001:2015 certified and is compliant with the BS OHSAS 18001:2007 international standard.

MARKET SECTORS

SMI designs and manufactures a wide range of bottling systems & packaging machines for the industry of food & beverage, household cleaning and personal hygiene products and chemical and pharmaceutical products, able to meet production requirements up to 50,000 bottles per hour (according to the machine model and to the type of container).

INTERNATIONAL CLIENTELE

The constant technological innovation, the careful analysis of the customer's requests and the excellent quality/price ratio are the three cornerstones on which the SMI Group's success is based. The major corporations of the food & beverage sector are among the most important customers of the SMI Group: Nestlè, Danone, Unilever, Coca-Cola, PepsiCo, Diageo, Kraft Heinz, Heineken, AB-Inbev and Carlsberg.

The progressive increase of the turnover and of the human resources, as well as the substantial extension of the production sites, are some of the factors proving the great development that have characterized the SMI Group in the last few years.

TMCI PADOVAN

Food & Beverage Technologies

Contact: **Matteo Vizzotto**, matteovizzotto@tmcigroup.com

TMCI Padovan is a historic Italian company specialized in the design and construction of machines and systems for the food and beverage industry. The company has established its core business around two main processes: filtration and thermal exchange.

TMCI Padovan is divided into 5 divisions:

- Padovan is a provider for the wine sector, but has strengthened its expertise also for distillates, oils, vinegars, carbohydrates, ciders and industrial filtration.
- Chemtech: specialized in the production of machines for gelatine, margarine, cocoa butter, oils and fats and products for confectionery and shortening.
- Easybräu-Velo: producer of brewhouses and beer process equipment, whether it is craft or industrial.
- SAP-Blendtech: this division too is the result of the combination of know-how, competence and ability in the design and production of equipment and complete plants for soft drinks, fruit juices, water and products with low content of alcohol.
- IFB Tech, develops solutions for products such as protein drinks, plant-based foods, dairy and ice cream..

TROPICALFOOD
MACHINERY

Contact: **Catia Cassol Rosalia**, Tradefairs@tropicalfood.net

TROPICAL FOOD MACHINERY SRL is an international company with headquarter and workshop in Busseto (Parma - Italy), a second headquarter and production center in Pouso Alegre (Brazil), two controlled industries for the processing of tropical fruit in northern Brazil, Flora and Mirca. Tropical Food Machinery owes its reputation to the independent design and construction of complete plants for fruit and tomato processing. It develops a range of "turn-key" lines, from receiving to filling, with a capacity ranging from 200 kg/h to 50 t/h. Designed for large industry and for small producers and cooperatives, they can cover the market at 360°. The production of both technological poles is tailor-made to suit the customer's needs; the improvements made on the field and are then integrated in the newer projects. Tropical Food Machinery deals with the construction and commissioning of the machinery without intermediaries. This verticalization of production guarantees control over quality and unparalleled productive speed, as well as creating a strong sense of community within the company's workforce. Tropical Food Machinery offers the customer the ability to connect by electronic means and receive assistance remotely for their plant: this way, our "vertical" style includes buyer's assistance.

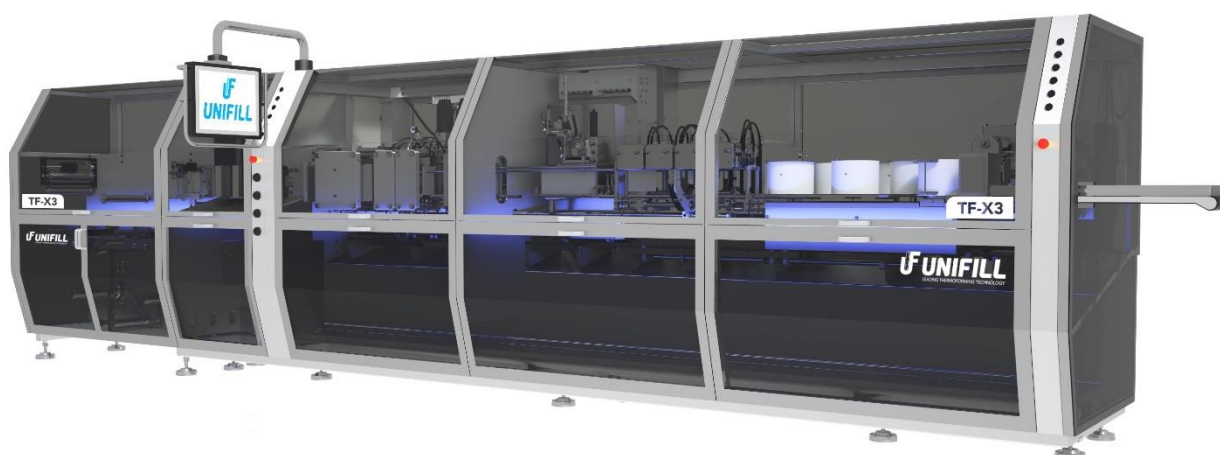

Company name: **UNIFILL SRL**
Stand: **G47**
Address: **Via Aldo Moro 68 74 80**
City: **Bomporto (MO)**
Postal code: **41030**
Country: **Italy**
