

Tokyo 18/08/2023 Prot. n.0092232/23 (ass.1391846)

Q: According to the documents mentioning the Deadline Extension, there seem to be several different Sessions like Public Sessions I, II, and III as well as Closed Sessions. Would you please explain the difference between those I, II, and III and Public and Closed?

The sessions are the procedure's official moments in which the documents submitted by the bidders are analyzed by the Selection Committee.

The "public sessions" are the Selection Committee's meetings where the bidders may attend and observe the proceedings, while a "closed session" is an internal meeting which is only attended by the members of the Selection Committee.

The bidders, if interested, are allowed to assist to the "public sessions" (1 person for bidder), informing in advance our Office.

Please refer to the Invitation to Bid pages 10-11 for further details on the content of each session.

Please note that, consequently to the extension of the bidding terms, the public and closed sessions dates have been postponed too.

Q: we would like to know what document with the info we have to submit to apply for this bidding other than the Technical Offer

Regarding the documents to submit other than the technical offer, please refer to the Invitation for Bid, paragraph 9 "Bidding Instructions"

Tokyo 21/08/2023 prot. n.0092390/23 (ass.1392098)

Q: Regarding paragraph 9 "Bidding Instructions" on IFB, at #5, "Documents requested for the ITA Supplier List Application": a Business Registered Certificate submitted for the renewal of Company's subscription to ITA Supplier List less than a month ago has to be submitted again?

If the renewal of subscription to ITA suppliers list occurred recently and an original and updated copy (issued within 3 months) of Business Registered Certificate has been submitted, it is not necessary to produce a new one. A copy of the already submitted one has to be included in the tender documentation.
