23rd – 27th May, 2023

Hall 8 - V32

Impact Muang Thong Thani,
Bangkok, Thailand

In collaborations with

ALMA
THE HOUSE OF ITALIAN CULINARY ARTS

Welcome Address by the Ambassador of Italy to Thailand

I am glad to welcome the Italian companies participating in THAIFEX – Anuga Asia 2023.

This international exhibition is a great opportunity for Italy to show its high-quality products in the food and beverage industry and to make its presence on the international markets stronger.

I am confident that the 27 Italian companies which are participating this year will take advantage of this opportunity to promote Italian food, drinks, alcoholic beverages, and wines in this important market.

There is a high demand for such products in Thailand and I am sure that the Italian companies will respond to the local needs thanks to their renowned expertise and top-quality products. And THAIFEX is an excellent opportunity to get in touch not only with the Thai market, but also with the whole ASEAN region.

Food and beverage are one of the distinctive sectors of Made in Italy and the Italian Embassy in Bangkok – together with the Italian Trade Agency-ICE and the Thai-Italian Chamber of Commerce – is working to expand the knowledge of our excellent products in the local market through many promotional activities, such as the Italian Cuisine Week, which takes place every year in November.

The Italian companies can thus rely on the support of the Italian institutions in this fast-growing market, and I trust that this exhibition – thanks to the Italian Trade Agency support – will give you the chance to strengthen your business network and expand your presence in Thailand and ASEAN.

Paolo Dionisi

Ambassador of Italy to the Kingdom of Thailand

Welcome Address by the Trade Commissioner of Italian Trade Agency Thailand

I would like to extend a warm welcome to all exhibitors and attendees at this year's Italian Pavilion at Thaifex Anuga Asia 2023. The fair is Asia's most prominent trading platform for food, beverages, and wine products.

Having been the largely active sectors in Italy, gastronomy and wine manufacturing enjoy steady growth in popularity and strong presence in international market. The Italian Trade Agency (ITA) will continue to support Italian firms participating in Thaifex Anuga Asia 2023, recognizing the importance of the exhibition as a forum for connecting with ASEAN and wider Asian markets, which have become a prominent exporting destination for the Italian gastronomical and winery sector.

This year, I have the privilege of announcing that our office, Italian Trade Agency (ITA), in collaboration with the Italian Embassy in Bangkok, along with other major partners, will host the Italian Pavilion at Thaifex Anuga Asia 2023. Additionally, we will support more than 27 Italian companies in the food, beverages, and wine industries. You may find more information and product details of the participating firms in this catalogue.

I am confident that the Italian businesses attending the event will be great representatives of the Italian Food and Beverage sector, which is well-known for its finest products. Therefore, I would like to invite you to visit the Italian Pavilion to explore and network with these companies. As the Italian Trade Commissioner, I will be present at the Italian Pavilion along with my team and interpreters to assist business negotiations between our participating companies and you.

I sincerely hope you have a successful participation at Thaifex Anuga Asia 2023.

Giuseppe Lamacchia

Italian Trade Commissioner in Bangkok

L'ICE-Agenzia per la promozione all'estero e l'internazionalizzazione delle imprese italiane è l'organismo attraverso cui il Governo favorisce il consolidamento e lo sviluppo economico-commerciale delle nostre imprese sui mercati esteri. Agisce, inoltre, quale soggetto incaricato di promuovere l'attrazione degli investimenti esteri in Italia. Con una organizzazione dinamica motivata e moderna e una diffusa rete di uffici all'estero, l'ICE svolge attività di informazione, assistenza, consulenza, promozione e formazione alle piccole e medie imprese italiane. Grazie all'utilizzo dei più moderni strumenti di promozione e di comunicazione multicanale, agisce per affermare le eccellenze del Made in Italy nel mondo.

ITA - Italian Trade Agency is the Governmental agency that supports the business development of our companies abroad and promotes the attraction of foreign investment in Italy.

With a motivated and modern organization and a widespread network of overseas offices, ITA provides information, assistance, consulting, promotion, and training to Italian small and medium-sized businesses. Using the most modern multi-channel promotion and communication tools, it acts to assert the excellence of Made in Italy in the world

* Andrea Milano is available on 'Best of Italy' on Shopee: <https://shp.ee/qwx3bc3>

Acetificio Andrea Milano When Nicola Milano in 1889 started producing vinegar, he had a clear vision of the quality of the product. His son Andrea, who gave the name to the firm, continued his father's work from the teachings he received. Even then, vinegar was the result of the harmonious mixture of the raw materials, the devotion of the artisan and the fitting technology.

Since 1889, the vinegar factory Andrea Milano has refined the techniques of production without ever losing sight of the great Italian wine tradition. The first beech chipboard barrels have been replaced by modern acetifying machines, but nothing of the heritage of tradition and experience, matured over the last 100 years, had been sacrificed.

In the 90's the fourth generation, led by Andrea and Francesco, represented a strong push for the growth of the company, aiming to internationalization and opening a factory in Modena at hat has now become the pride of the Company allowing the expansion of the range with the production of Balsamic Vinegar of Modena.

Now in its fifth generation, with the entrance in the company of Fabio and Marcello, the Acetificio Andrea Milano is positioned as one of the most important producers in the sector with three factories in Italy and exporting in 65 countries worldwide.

Aceto Balsamico Del Duca

Since 1891, the history of the Grosoli family has been synonymous with Balsamic Vinegar of Modena. A knowledge that has been handed down from the forefather Adriano for five generations to guarantee a unique product, made from cooked grape musts and selected, high-quality wine vinegars, that has become an irreplaceable dressing for vegetables, meat, and fish. A trusted ally for international chefs to enhance dishes of the most varied culinary traditions. Over time, the company has positioned itself at the top of quality Balsamic production, proposing eco-friendly products, such as the Organic line, and emphasizing the strong link to the land of origin, with the short supply chain “Solo Modena” line (winner of the “2009 – 2010 Corporate Social Responsibility Award”).

Aceto Balsamico del Duca means quality and elegance, and represents the city of Modena and its territory worldwide at the major international fairs. In 2016, on its 125th anniversary, it entered the register of the Italian Centenary Companies Association. However, it is a historical reality that is continually renewed: the Quality Certifications that the company has been committed to maintaining and the development of new products are evidence of this. Remaining faithful to the tradition, and opening itself to new qualitative challenges, the company always proposes a Balsamic Vinegar of Modena, “at the top of flavour”.

SAN BENEDETTO MINERAL WATER– FROM THE ROOTS TO THE SPRING

The story of Acqua Minerale San Benedetto begins on 10 April 1956 when the first facility of the Group was set up for bottling the mineral waters of Scorzè in the province of Venice: Fonte San Benedetto and Fonte Guizza. The company takes its name from the spring of the same name, which has been known since the times of the Venetian Republic as an 'Ancient Spring of Health', its waters much sought-after by Venetian families for its healing properties. San Benedetto soon grew from a small local producer into a company with a nationwide scope operating the length and breadth of Italy, with strong interests also beyond its national borders. Today, it is an 'all embracing' group with multiple specialisations and channels, that operates successfully in all segments of non-alcoholic beverages.

The company has always upheld its verve for innovation, technology and service, product, and process, thanks to which it has achieved leadership not only in numbers, but also in its ideas and their applications, which succeed in meeting the real needs of consumers.

Since 1849 the Family **ERARIO** has always been involved in the agricultural activity, particularly what concern the cultivation of vineyards. In the year 2006, with the participation of the Family Brunetti, the company is registered for the first time with the name of AGRICOLA ERARIO. 2011 in a new location a new winery is build, where there are new cellars, containers underground and silos, machines for bottling and labelling. The wine produced is composed of about: 65% Primitivo di Manduria, 15% Negroamaro, 7% Fiano, 5% Aleatico, 5% Chardonnay and 3% Moscato. The vines are on rows or as small trees. The harvest is made absolutely only by hand. Concerning Primitivo the harvest is made in two times: the first time in August, when only the big grapes are harvested and a second time after about 2 weeks, by mid-September, when the small grapes are harvested; during this time the small grapes become more rich in sugar and this contribute to an higher level of alcohol in the wine.

Az.Ag. Musico The wines, produced in limited quantities, do not create a very wide selection, but from high values, starting from the first which choice is Brunello di Montalcino, from Rosso di Montalcino, IGT up to Cuor di Botte, reserve Brunello di Montalcino and we offer a very limited production of red table wine. Finally, we have excellent wooden boxes to store our products, characterized by a nice, personalized inlay and high flexibility in use. Our vineyard, facing north-east, is adjacent to the municipality of Montalcino and can be reached on foot from Porta Senese, passing in front of the Fonti degli Appicciati. Planted about 25 years ago, it is cultivated with double spurs, the classic system for Sangiovese Grosso grapes. The annual production is around 10,000 bottles of Brunello, 2,000 of Rosso di Montalcino and 1,000 of IGT to complete the range and in the special vintages less vintage of Brunello around 1500 reserve bottles. We also produce about 1,000 bottles of extra virgin olive oil, and from the pomace we obtain Grappa di Brunello.

Best Italian Selection -Bis s.r.l.-, with headquarters in Battipaglia, in the province of Salerno, is one of the major global exporters of carefully selected Italian food products.

The company's foundations lie in the excellence of Italian cuisine. It offers a wide variety of products, including peeled tomatoes and tomato products, legumes and preserves, durum wheat pasta and bronze-died artisan fresh pasta, extra virgin olive oil, and a vast range of regional Italian wines and sparkling wine and Italian traditional cake.

The main goal is to guarantee quality and authenticity: the renowned "made in Italy".

The company is the link between the customer's needs and the available production capacities on Italian soil.

Strategies, logistics and customer satisfaction approaches are analyzed and implemented according to the needs and preferences of the final target market.

The aim of Best Italian Selection is not simply to sell products to its customers, but to suggest a lifestyle they can follow ...

... with us if you like something, you'll have a second helping! In Italian we call that "fare il BIS!"

Since 1994 **Bioitalia** has been manufacturing Premium Certified Organic Foods in both retail and food service sizes. Today, the large assortment counts more than 130 items (pasta, tomato preserves, sauces, canned beans, oils, spreads, fruit&veggie purees and juices...), matching the taste of the Mediterranean diet with the added values of healthy organic foods and Italian culinary traditions. Moreover, Bioitalia takes advantage of the voluntary certification according to the UNI EN ISO 22005:2008 standard to reach the complete "Traceability in the Food Chain" for tomato, wheat, and oil. More recently Bioitalia also decided to implement the Blockchain system in the mentioned Certified Food Supply Chain to guarantee and to make easily visible to its demanding consumers the entire manufacturing process. By simply scanning a QR code printed on the product labels, consumers can indeed discover the story of each item they buy along with the documents that guarantee their origin.

Bioitalia commits to staying relevant to its clients and consumers and never stops studying new ways to improve the organic trade development.

For over thirty-four years **Campo d'Oro** has been producing genuine preserves and typical Sicilian specialties.

The company is immersed in the heart of the Sicilian countryside among the centuries-old olive trees, about 50 km from the Valley of the Temples in Agrigento, in an uncontaminated environment, away from sources of smog and noise, where nature, scents and colours meet.

Most of the raw materials come from the family farm, where both the quality of the seeds and the period of maturation are selected. Raw materials are processed within twenty-four hours, rigorously without any chemical additives and dyes.

Our products are distributed in Italy and abroad in high gastronomy shops, traditional shops, and specialized delicatessens but also through a network of importers, distributors and wholesalers who help us spread the Italian culture of good food.

Searching for Importer / Distributor in Thailand

The Kbirr project was born from the passion and expertise of Fabio Ditto, General Manager of **Drink Up** who provides services, consultancy and distribution of quality products and beers to restaurants. Strengthened by experience in the field, in 2016 he decided to create his own line of beers with an iconic language inspired by the Neapolitan dialect. Birra-Kbirr is artisanal and unpasteurized produced entirely in Campania, the name is a tribute to Naples and evokes light-heartedness: "Ua, ch' birra".

There are seven types, Lager, Strong Lager, Scotch Ale, Imperial Stout, Red Strong Ale, American Pale Ale and Golden Ale, to satisfy every taste and style. The beers, despite being of different types, have as a common denominator a sweet start on the palate and a bitter finish. They are complex but at the same time, easy to drink and to taste. I chose the name Kbirr because it tells, like a program, the characteristics of this "emotional" beer, produced entirely in the Campania region. With Kbirr, Fabio Ditto has not only created drinkable products (with master brewer Achille Certezza) but has also told stories through six labels that pay homage to the city of Naples.

For over 40 years **Germinal Group** has specialized in the production of organic, healthy, functional, gluten-free, and vegan products, for babies and adults, made with raw materials from controlled supply chains. Our three production lines are equipped to realize sweet and savory organic snacks, fresh ready meals, and pasta.

Thanks to the ability and expertise of R&D and Quality Department, we are up to produce a wide range of different products. Quality is the focus of our activity: the department is closely monitoring every stage of the production chain, from the selection of the supplier of the raw materials to the finished product to the shelf.

Our brands are found in all modern Italian large scale and specialized retail stores. Our specialization in allergen prevention and organic foods, combined with a growing awareness of the importance of a healthy diet for personal wellbeing, have attracted the interest of many operators from around the world.

Organic is our tradition.

Importer / Distributor in Thailand:

Searching for Importer / Distributor in Thailand

Italian Taste was founded in Canelli (AT) at the end of 2014 with the purpose of promoting Italian eno-gastronomic products in Italy and in foreign countries. On June 22nd, 2014, Canelli and the nearby areas have been declared World Heritage Site by the UNESCO, owed to its sweet hills and the several underground wine cellars called "Cattedrali Sotterranee". The peculiarity of Italian Taste is to be located in a unique and rare territory, which offers refined and high-quality wines and food, our goal is precisely to promote them, focusing almost exclusively on typical food and nearby wine cellars (Langhe – Roero and Monferrato). Some of the bottles we select are numbered by hand, as per tradition. Italian Taste promotes excellent wines such as Barbera d'Asti, Barolo, Barbaresco, Dolcetto, Moscato d'Asti, Passito, Rosato, Spumante, for wine lovers. The term Italian taste distinguishes our exceptional items that ensure quality and refinement.

Thanks to the creation of our transparent label, the product is valorized, remaining totally visible to the consumer. Our company has a wide range of products, starting with appetizers, continuing with sauces, risotto, truffle products, desserts, jams, Italian traditional pasta, Piedmont hazelnuts, Italian wines and much more.

Searching for Importer / Distributor in Thailand

Our Company **Italian Tasty Aliments** Srl is situated in the South of Italy and is specialized in the production and distribution of traditional Italian specialties all over the world.

Our flagship product is our **Ottima** pasta, which is made with 100% durum wheat semolina, is rich in proteins (13%) and has a strong cooking resistance, as well as a slow drying time at low temperature, which makes it suitable to double cooking. Each of these elements, together with the double square bottom packing of our pasta, results in a high-quality product, constantly controlled during the manufacturing process in order to best meet the needs of our clients and final consumers.

Besides pasta, we also manufacture a great variety of canned pulses and tomato-based products – such as Peeled Tomatoes, Strained Tomatoes, Pizza Sauce, Tomato Paste etc. – both in Retail and HoReCa size, as well as red and white pasta sauces and pestos. Our wide assortment also includes Potato Gnocchi, Arborio Rice, Couscous, Flavoured Extra Virgin Olive Oils (White Truffle, Lemon, Chili Pepper, and Garlic) and Vinegars (Balsamic, Rice and Apple Cider). Among our recently introduced products you will also find Organic Apple Cider Vinegar with the Mother and traditional Italian Savoiardi biscuits.

Searching for Importer / Distributor in Thailand

Pastificio Liguori was founded in 1795 by Gaetano Liguori.

Today the company, one of the oldest in Italy, is run by the Casillo family, under which in 2013 the pasta factory obtained the Gragnano P.G.I. Pasta Certification from the European Commission, making it the first industrial pasta factory to obtain this certification.

For over 200 years, the know-how of our pasta makers has been preserved and handed down from generation to generation. It is in fact their knowledge and skills that make Liguori pasta unique and irreplicable in taste and quality.

Pastificio Liguori is synonymous with top-quality pasta, 100% Made in Italy, present in numerous foreign markets.

LIGUORI METHOD, OUR UNIQUE METHOD

The distinctive value of our production method is the slow drying, over 18 hours, at low temperatures. Thanks to slow drying at low temperatures, the nutritional values, and organoleptic properties of the prized 100% Italian raw material remain unaltered.

Pallini was founded in 1875 by Nicola Pallini who established the first facility in Antrodoto, a small village near Rome, in the Abruzzi region. In 1922, Nicola's son, Virgilio Pallini, moved the business to Rome, in a small distillery near the Pantheon. During the '60s, the company was moved to Via Tiburtina 1314 – the current headquarter. Here, the Pallini family expanded the production of Romana Sambuca began, one of the most successful Italian liqueurs in the World.

Among other products, Mistrà Pallini, a delicious anise-based liqueur, established itself as a trendy liqueur to lace espresso coffee.

In 1999, Pallini started exporting its Pallini Limoncello brand worldwide. Today it is the most widely distributed and No.1 selling premium brand internationally.

In September 2016, Pallini bought a new laboratory which grants access to a mansion for hospitality purposes and a lemon yard in Vietri, on the Amalfi coast.

In 2022 Pallini acquired Amaro Formidabile, a hand-made bitter liqueur crafted only with natural ingredients. Today, Pallini is 147 years old, it is still 100% family owned and it is run by Micaela Pallini, who represents the 5th generation of Pallinis.

Rizzoli Emanuelli stands for an Italian family and its passion for excellence and the art of fish preserves that began in the early 1900s. Generation after generation, the oldest company in the sector has continued to grow, thanks to the people who founded it and its ability to renew itself, without ever betraying its special bond with tradition and with the family history.

From cleaning and slicing through to packaging, every stage in the process is carried out in keeping with Rizzoli tradition, so as to preserve intact all the flavour of superior-quality fish.

Rizzoli Emanuelli is the oldest company in the sector and the first producer of anchovies to obtain the MSC certification. Leader in the Italian anchovy market, Rizzoli Emanuelli exports its fish preserve to bring Italian excellence beyond the borders.

EASY BEST (THAILAND) CO., LTD.

Website: <https://easybest-thailand.com/>

Contact: Mrs. Natsumi Moussa, info@easybest-thailand.com, +66 2 216 0245

There is a story that has been inspiring Italians for close on seventy years. It is a story of tradition, quality, and expertise, but it also includes innovation and modernity as well as a desire to grow and rise to new challenges. It's the story of **Sammontana**, a name which is synonymous with gelato and desserts and a byword for taste and Italian quality.

Everything started back in 1946 in Empoli, a town that lies in the heart of Tuscany, when the Bagnoli family purchased the milk bar where Renzo Bagnoli, the eldest of 6 children, set up an artisanal laboratory called Sammontana. It would become a chunk of Italy's gastronomic heritage and a chapter in the history of Italian gelato. Sammontana hasn't looked back since then. It took the whole of Italy by storm with its tasty products, the legendary Sammontana Barattolino heading the charge. Today, it is available in a variety of flavours, not only in Italy, but abroad as well.

This is the story of an Italian dairy, a dream, and a family whose star still burns bright and brings a smile to the lips of anyone who enjoys a Sammontana gelato.

Through its gelato, Sammontana keeps traditional values alive and imagines a better future.
