THE RIG.

OIL PARK DEVELOPMENT COMPANY (OPDC)

is a closed joint-stock company owned by the public investment fund (PIF) of Saudi Arabia, aiming to portray new horizons for adventure tourism. OPDC was established to drive the development of **THE RIG** project, a prominent adventure tourism destination and the world's first tourism destination on an offshore platform inspired by the design of offshore oil platforms. THE RIG will provide visitors with thrilling activities and daring adventures both above and below the sea, complemented by unique experiences in hospitality and entertainment.

VISION

To be the world benchmark for providing a one of a kind hospitality and adventure experience on sustainable oil platforms in the middle of the sea.

MISSION

Building sustainable touristic destination on oil platforms in the middle of the sea, mixing warm hospitality and extreme adventures, offering an unprecedented experience for our guests from around the world.

PROJECT IMPACT

VISION 2030 & LOCAL CONTENT

HOW

the project supports
the development goals
of the kingdom & vision
2030?

with the goal of attracting over 900.000 annual visitors by 2023, a significant portion of whom are expected to come from overseas, THE RIG. Project plays a crucial role in positioning the kingdom as a global tourism hotspot. This venture not only boosts the local economy but also aligns closely with the objectives of vision 2030, marking a significant milestone in Saudi Arabia's transition towards sustainable economic development.

THE RIG. Is a truly unique global asset that embodies adventure tourism, perfectly in line with vision 2030's strategic shift from oil revenues to tourism, thus contributing to the GOP. This move diversifies the economy and enhances the quality of life by generating employment opportunities beyond traditional sectors. Particularly in hospitality and tourism in the Eastern province.

An essential aspect of our work involves conducting thorough environmental and social impact assessment, which are closely intertwined with our engineering efforts. Our focus on sustainable practices helps minimize environmental impact, aligning with global initiatives.

HOW

the project enriches
local content in the
kingdom?

THE RIG. Is committed to enriching the local content and bolstering the economy by fostering an ecosystem of growth and development within Saudi Arabia's Eastern province and creating significant opportunities for local businesses and workforce development.

- THE RIG. Leverages local resources, businesses , and talent, ensuring that a substantial portion of the goods and services required are sourced domestically. This approach not only supports local industries but also stimulates new opportunities for entrepreneurs and small businesses in the kingdom. Our investment in local talent development through comprehensive training programs ensures the community benefits directly from our operations.

**REGISTRATION &
CONTRACT INFO**

VENDOR REGISTRATION

To enhance vendor registration and promote increased competition in bidding, OPDC has established an approach utilizing a supplier portal where all suppliers can register through it and subsequently receive the tenders. This initiative aims to streamline the process and engage reputable vendors effectively.

PROSPECTIVE VENDOR REGISTRATION

Vendors are invited to register via the portal to participate in the bidding process. Only registered vendors are eligible to participate in the bidding activities.

REQUIREMENTS

- Company details
- Contacts
- Addresses
- Products and services
- Complete the questionnaire
